FESTUS CITIZENS
SEEKING INQUIRY
INTO AFFAIRS OF
'BOSS' BRICKEY

Crystal City, Another Jefferson County Center, Also Looks for Investigation of Conditions Under His Sway.

PETITION TO STARK
BEING CIRCULATED

Requests Attorney - General's Aid Be Sent - Replaced as Head of Bank - School Bond Account Audit Under Way.

Citizens of the towns of Festus and Crystal City, who form a community of 15,000 about 35 miles south of St. Louis, were looking today for an investigation of conditions in Jefferson County, where, for the last 20 years, Norville W. Brickey, Festus leading citizen, has been the "boss."

As Mayor of Festus, as presiding judge of the County Court, as president of the Festus School Board, as treasurer of a Special Road District, as the man in charge of WPA disbursements in Festus, and as a member of the State Social Security Commission, his political control of the county is complete. He is also the principal owner of a large oil company and a mercantile store, and has, for 16 years, been president of the Citizens' Bank of Festus, the town's only depository.

Out as Head of Bank. Today it was learned that he had been replaced as president of the bank after having "lost" all of the \$100,000 in the bank's bond account of the Festus School Board is under way and a petition is being circulated asking Gov. Lloyd Stark to send an assistant attorney-general to look into conditions in the county.

The audit of the bond account which mainly concerns a \$50,000 high school bond issue floated in 1921, was ordered, it was learned by the Post-Dispatch, after it had been discovered that a number of \$500 school bonds had been retired in 1933 and should have been canceled, were still in circulation. Brickey dropped out earlier this week as Democratic candidate in the November election to succeed himself as Presiding Judge of the County Court, a post which he has held for the last 16 years. His present term as Presiding Judge holds over until March. In announcing his resignation from the ticket, Brickey said it was "because of rumors being circulated in the county relative to school affairs."

School Board Account. Members of the school board, who said that Brickey controlled the board, declined to discuss the audit, which is being made by a St. Louis firm of public accountants. It was ordered by a vote of the board at its meeting on Sept. 20, Brickey, as president, votes only in case of a tie. He appointed a committee of three with instructions to arrange for the audit, which, it is expected, will be completed by tomorrow.

The day after the audit was ordered, Brickey sold all of his stock in the bank and thereby was automatically removed as president. It was learned that he was virtually asked to do this by the directors of the bank because of the school board audit.

An examination of the bank had been completed a short time before by the Federal Deposit Insurance Corporation. Charles C. Englund, a lumber and building material company owner, who succeeded Brickey as president of the bank, said that the examination showed nothing of a serious nature.

The bank had completed reincorporation last July, after it had bought out the Farmers & Merchants Bank of Festus. It is now capitalized at \$100,000 with surplus of \$25,000 and deposits of about \$1,125,000.

Road District Report. The petition says that the settlements of the Festus Special Road District, of which Brickey is treasurer, "do not show that sums aggregating \$4632 representing warrants drawn on Jefferson County, were ever received by the district." The warrants, according to the report, are indorsed "Festus Special Road District, N. W. Brickey, treasurer."

Summary of News
On European
Situation

By the Associated Press. The "Big Four" at Munich—British Prime Minister Chamberlain, Reichsfuehrer Hitler, Italian Premier Mussolini and French Premier Daladier—turned Europe from the brink of war by:

1. Allowing Hitler's symbolic occupation of Sudetenland immediately—Hitler's army enters at midnight.

2. Arranging peaceful, gradual cession of Sudeten German areas and plebiscites in doubtful areas—an international commission will make the annexation.

Czechoslovakia, not represented at the conference, accepted the plan. A new Hitler-Chamberlain agreement declared "the desire of our two peoples never to go to war with one another again."

Daladier acclaimed mutual good will between France and Germany. Britain hailed Chamberlain as a preserver of peace.

Germany rejoiced in settlement with honor. Soviet Russia—Czechoslovakia's mutual ally and partner with Britain and France in threats to resist force—was not invited.

Arrangements were made to satisfy Polish and Hungarian claims for slices of Czechoslovakia.

Some issues \$10 Above Week's Low; Profit-Taking at End of Day.

NEW YORK, Sept. 30.—Wall street greeted settlement of the Sudeten German issue in Czechoslovakia with another surge of buying in security markets today. Leading shares closed \$1 to more than \$5 higher.

A few issues were up as much as \$10 or more from the lows for the week, reached before the war-frightened markets turned early Wednesday in a spectacular recovery on news of the four-Power Munich conference.

Powerful buying buoyed stocks and bonds until last-minute profit-taking shaved prices near the finish.

Up \$2 to \$5 were United States Steel, American Telephone & Telegraph, J. P. Morgan Chase, Chrysler, American Telephone & Telegraph, and International Nickel.

Wheat, which had been bought heavily on chances of war, yielded more of its recent gains, finishing down 1 1/2 to 1 3/4 cents a bushel in the Chicago pit, but most commodities advanced with securities as traders reasoned preservation of peace would clear the way for further industrial recovery at home.

SUDETEN FIGHTING STOPS, FREE CORPS TO RETURN HOME

Germans Who Fled to Czech Jubilant at Outbreak of Conference.

By the Associated Press. ASCH, Czechoslovakia (at the German frontier) Sept. 30.—All fighting stopped today in this Sudetenland frontier region as Sudeten Free Corps men prepared to move back to their homes behind the German Army.

They were jubilant as they awaited word of acceptance of the Munich four-Power agreement by the Prague Government.

ALDERMEN MEET,
EXPECTED TO KILL
MUSEUM TAX CUT

William L. Mason, Head of Board, to Recommend Proposal Be Discarded by Committee.

STRONG SENTIMENT
AGAINST MEASURE

Lietchen, Byrne and Reidy Join Those Who Are Opposed to Repealing Two-Cent Levy.

Likelihood that the proposal of the Board of Estimate and Apportionment to cut the tax revenue of the City Art Museum in half would be killed by the Board of Aldermen was indicated as the Aldermen convened today after a three-month vacation.

William L. Mason, president of the Board of Estimate and Apportionment to cut the tax revenue of the City Art Museum in half would be killed by the Board of Aldermen was indicated as the Aldermen convened today after a three-month vacation.

It has been demonstrated overwhelmingly, Mason declared, that the sentiment of the people was opposed to a change in the method of supporting the museum, which now has an independent tax levy of 2 cents on the \$100 valuation.

Official Proper Procedure. If there was a public demand for repeal of this plan, Mason went on, the attempt should be made through initiative proceedings under the city charter, which would require signatures of 5 per cent of the voters to a petition in order to be submitted to a vote.

City Counselor Edgar H. Wayman told the Board of Estimate, Mason said, that the Aldermen had no alternative but to call an election under a petition such as was filed today. This petition was signed by only 642 voters, under section 14,757 of the Revised Statutes, which provides for the separate museum tax. However, Mason, a lawyer, expressed the opinion that no law could compel the Aldermen to shun this petition to the voters.

The petition was prepared and circulated by the Board of Estimate and the Board of Aldermen, and the Board of Estimate decided it would have to refer the petition to the Aldermen, although it would not recommend carrying out the repeal plan. The petition and the resolutions and other groups were referred today to the aldermanic Legislation Committee.

A bill for submitting the repeal proposition at the Nov. 8 general election also was forwarded to the Board of Aldermen by the Board of Estimate. It was introduced formally by Aldermen Robert A. Hoeflinger. Mason announced that it would be referred to the legislative committee when the board met tomorrow.

Three Aldermen—Otto L. Lietchen, George A. Byrne and Nick Reidy—told the reporter today they were opposed to a change in the tax and there have been indications that some other members were of the same opinion.

Some Resentment Shown. Several Aldermen have expressed resentment that the matter was passed to their board for decision from the Board of Estimate, in which Mayor Dickmann and Comptroller Nolte are Mason's colleagues. It was pointed out at City Hall also that Mason and 14 Aldermen would be up for re-election next spring and might not be expected to commit themselves now on so controversial a matter as this.

Provisions of Proposal. Under the Board of Estimate's proposal, which it has now decided to be wiped out and this tax would be added to the city's general levy. The museum would be deprived of an assured income of about \$240,000 a year and would have to rely on appropriations from the Board of Estimate and Board of Aldermen in the annual budget.

It was the idea of the Board of Estimate to allow the museum to hold as much as heretofore, which would be about enough for maintenance, without allowance for acquisition of new art objects. Opponents of the proposal argued that the change would be of comparatively little help in the city's financial plight, but would handicap a great cultural asset and deprive the museum of conditional gifts of art valued at \$435,000.

CZECHS ACCEPT PARTITION;
CHAMBERLAIN BINDS BRITAIN
IN SEPARATE GERMAN PACTCZECHS YIELD
TO 'SUPERIOR
FORCE,' SAYS
GEN. SYROVY

Soldier-Premier Declares "We Protest Against Unilateral Action," but Give in "to Save Life and the Nation."

'WILL BE STRONGER
AND MORE UNITED'

Broadcast to Country—Crowds Parade in Prague—German Democrats Flee Sudetenland to Interior of Country.

By the Associated Press. PRAGUE, Sept. 30.—Czechoslovakia today announced submission to the four-Power Munich accord for its dismemberment but broadcast to the world its "protest against the agreement, which was made in a unilateral manner and without its participation."

Gen. Jan Syrový, the one-eyed soldier-premier, broadcast a declaration to the nation that "superior force has compelled us to accept" the agreement for cession of the Sudetenland to Germany.

The Czechs were attempting to protest demonstrations in the streets of Prague but the authorities said they were in full control of the situation.

A special announcement was broadcast in the name of the trades unions appealing to all working classes to observe order and discipline and not demonstrate in the streets.

Gen. Ludwig Krejci, commander-in-chief of the army, in a proclamation to the soldiers said the Government "under pressure of world events was obliged to accept the transfer of certain territories of our state to the neighboring Reich."

"The army associates itself with the profound mourning which this amputation of the heritage of our ancestors represents for us," he continued, but appealed to the army locally to protect the new, diminished state.

Gen. Syrový's Speech. Syrový, 55-year-old World War hero, said he had taken the decision to yield "to save life and to save the nation."

"We have been abandoned," he declared. "We are all alone. Our neighbors are under arms. Our position is like that of a fortress besieged by crushing forces."

"This is the most difficult moment of my life."

"Superior force has compelled us to accept," declared Premier Syrový. "My duty was to consider everything. A soldier I had to choose the way to peace."

"The nation will be stronger and more united."

"We have chosen the only right course."

"Four Powers have decided to ask from us the abdication of German territories. We had to choose between a useless fight and sacrifice."

"We have accepted the unheard-of sacrifice imposed upon us. We have had to choose between the death of a nation and abdication of some territories."

"We shall accomplish the conditions imposed on us. The main thing is that we are remaining ourselves and we must be united."

Official Communiqué. Gen. Syrový published the following communiqué in which the Government announced its decision. "The Government of the Republic held a meeting today at noon at the Chateau of Prague under the leadership of the President of the Republic."

"In that meeting it examined carefully the international military situation after the decision taken by the conference of the four great powers at Munich on Sept. 30."

"The decision of that conference had been announced to the Czechoslovak Government this morning."

"The Government of the Czechoslovak Republic has accepted the Munich, 29 September, 1938."

"Big Four" at Munich Peace Parley. Associated Press Photo by Radio From Berlin. FROM LEFT: PRIME MINISTER CHAMBERLAIN, PREMIER DALADIER, CHANCELLOR HITLER and PREMIER MUSSOLINI.

Munich Agreement

By the Associated Press.

MUNICH, Sept. 30.

THE official communiqué on settlement of the Czechoslovakian crisis, issued at the end of the four-power conference, follows:

Germany, the United Kingdom, France and Italy, taking into consideration the agreement which has already been reached in principle for cession to Germany of the Sudeten German territory, have agreed on the following terms and conditions governing the said cession and the measures consequent thereon and by this agreement they each hold themselves responsible for the steps necessary to secure its fulfillment:

1. The evacuation will begin on Oct. 1.

2. The United Kingdom, France and Italy agree that the evacuation of the territory shall be completed by Oct. 10 without any existing installations having been destroyed and that the Czechoslovak Government will be held responsible for carrying out the evacuation without damage to the said installations.

The conditions governing the evacuation will be laid down in detail by an international commission composed of representatives of Germany, the United Kingdom, France, Italy and Czechoslovakia.

Occupation by stages of the predominantly German territories by German troops will begin on Oct. 1. The four territories marked on the attached map will be occupied by German troops in the following order:

Territory marked No. 1 on the 1st and 2d of October; territory marked No. 2 on the 3d and 4th of October; territory marked No. 3 on the 5th, 6th and 7th of October; territory marked No. 4 on the 8th and 9th of October.

The remaining territory of predominantly German character will be ascertained by the aforesaid international commission forthwith and be occupied by German troops by the 10th of October.

The international commission referred to in Paragraph 3 will determine the territories in which a plebiscite is to be held. These territories will be occupied by international bodies until the plebiscite has been completed. The same commission will fix the conditions in which the plebiscite is to be held, taking as a basis the conditions of the Saar plebiscite. The commission will also fix a date, not later than the end of November, on which the plebiscite will be held.

There will be right of option into and out of transferred territories, the option to be exercised within six months from the date of this agreement.

A German-Czechoslovak commission shall determine details of option, consider ways for facilitating the transfer of population and settle questions of principle arising out of the said transfer.

The final determination of the frontiers will be carried out by the international commission. This commission will also be entitled to recommend to the four Powers, Germany, the United Kingdom, France and Italy, in certain exceptional cases minor modifications in strictly ethnographical determination of the zones which are to be transferred without plebiscite.

The Czechoslovak Government will within the period of four weeks from the date of this agreement release from their military and police forces any Sudeten Germans who may wish to be released and the Czechoslovak Government will within the same period release Sudeten German prisoners who are serving terms of imprisonment for political offenses.

ANNEX TO THE AGREEMENT. His Majesty's Government in the United Kingdom and the French Government have entered into the above agreement on the basis that they stand by the offer, contained in Paragraph 6 of the Anglo-French proposals of Sept. 19, relating to an international guarantee of the new boundaries of the Czechoslovak State against unprovoked aggression.

When the question of Polish and Hungarian minorities in Czechoslovakia has been settled, Germany and Italy, for their part, will give a guarantee to Czechoslovakia.

The heads of the governments of the four Powers declare that problems of Polish and Hungarian minorities in Czechoslovakia, if not settled within three months by agreement between the respective governments, shall form the subject of another meeting of the heads of governments of the four Powers here present.

Supplementary declaration. All questions which may arise out of the transfer of territory shall be considered as coming within the terms of reference to the international commission.

Munich, 29 September, 1938.

TEXT OF BRITISH-GERMAN
PACT 'NOT TO GO TO WAR
WITH ONE ANOTHER AGAIN'

LONDON, Sept. 30.

THE British-German Peace agreement, announced by Prime Minister Chamberlain today, follows:

We, the German Fuehrer and Chancellor and the British Prime Minister, have had a further meeting today and are agreed in recognizing that the question of Anglo-German relations is of first importance for the two countries and for Europe.

We regard the agreement signed last night and the Anglo-German naval agreement as symbolic of the desire of our two peoples never to go to war with one another again.

(The 1938 Anglo-German naval treaty limited Germany's naval tonnage to 35 per cent of that of Great Britain.)

We are resolved that the method of consultation shall be the method adopted to deal with any other questions that may concern our two countries, and we are determined to continue our efforts to remove possible sources of difference and thus to contribute to assure the peace of Europe.

POLES REPORTED
DEMANDING CZECH
NOTE BY MIDNIGHTWarsaw Said to Have Told
Prague to Reply to Minor-
ity Question by 5 P. M.
St. Louis Time.

By the Associated Press.

WARSAW, Sept. 30.—Poland was reported without official confirmation tonight to have set midnight (5 p. m. St. Louis time) as a deadline for Czechoslovakia's response to Polish territorial claims.

Should the answer to a Polish note fail to arrive from Prague or be unsatisfactory, these reports said, "important action" may take place.

Polish radio broadcasts emphasized that Warsaw was not bound by the Munich four-Power agreement and was free to achieve her aims independently.

Polish authorities have not disclosed precisely what demands they have made on Czechoslovakia. The region generally mentioned, however, is Teschen Silesia, an area of about 772 square miles, in which most of Czechoslovakia's Polish minority resides.

Authoritative sources gave no confirmation that the reported Polish action would be a counterpart

BRITON SETS
COURSE FOR
EUROPE TO
DEMobilize

After Giving Hitler What He Wanted at Munich, He Obtains Agreement Against War Between Their Nations in Future.

GERMANS READY TO
ENTER SUDETENLAND

Commission Named to Supervise Gradual Transfer—Rome Hears General Appeasement May Extend Even to Spain.

By the Associated Press. MUNICH, Sept. 30.—Prime Minister Neville Chamberlain and Reichsfuehrer Adolf Hitler today added a new British-German declaration of peace to the four-Power Munich accord that gave Germany part of Czechoslovakia and averted a European war.

In all essentials Hitler won his points at the Munich parley.

After the British and German chiefs had signed with Premier Mussolini of Italy and Premier Daladier of France the pact for Czechoslovakia's dismemberment they made a joint declaration of the will of their "two peoples never to go to war with one another again."

Occupation to Begin.

German troops were at the border to begin the gradual occupation of the Sudetenland at midnight as Chamberlain announced that:

The Czechoslovak Government accepted the Munich accord.

The international commission to supervise the cession was meeting in Berlin and would enter the Sudetenland tomorrow.

Demobilization of Europe's armies and the British navy would "come later"—after the German occupation was accomplished, within 10 days.

Chamberlain expressed the belief Munich would open the way "to appeasement in Europe."

Files Back to London. On this note of peace he flew back to London. Daladier left by air for Paris after a declaration of French friendship for Germany. Mussolini had entrained earlier to return to the acclaim of his own people as "The Savior of Peace in Europe."

The Munich accord envisaged satisfaction of Hungary's and Poland's claims for cession of Czechoslovak territories. After that Germany and Italy were pledged to join Great Britain and France in a guarantee of the diminished frontiers of Czechoslovakia.

Some diplomats in Rome believed Mussolini might soon begin withdrawal of Italian troops from

'BIG FOUR' NON-AGGRESSION PACT MAY COME FROM MUNICH PARLEY

GERMANY, ITALY SAID TO AGREE TO MAKE TREATY

Chamberlain Reported to Have Won Consent of Hitler and Mussolini to Program He Has Had Since Locarno Failed.

By the Associated Press.
LONDON, Sept. 30.—Prime Minister Neville Chamberlain was understood today to have laid the foundation of a four-power non-aggression pact, his dearest dream, at the Munich conference.

Informed sources believe he has persuaded Chancellor Hitler and Premier Mussolini to negotiate a new agreement with Britain and France immediately on complete solution of the Czechoslovak problem.

King George VI received Sir John Simon, Chancellor of the Exchequer, at Buckingham Palace and learned the details of the Munich conference.

Chamberlain has tried to replace the Locarno pact ever since that instrument of mutual security fell into disuse. His half-brother, the late Sir Austen Chamberlain, was a prime mover in the Locarno arrangement.

On Oct. 16, 1925, seven treaties for common security were signed at Locarno by representatives of Germany, Great Britain, France, Belgium, Italy, Poland and Czechoslovakia. They were ratified in London Dec. 3, 1925. Little Entente countries, Rumania, Czechoslovakia and Yugoslavia, were suspicious and brought pressure on their ally France and caused, in part, the decline in the "Locarno influence."

Mussolini long has been known to cherish the idea of a four-power agreement.

May Retire With Knighthood.
The Munich accord to allow Hitler to have parts of Czechoslovakia's Sudetenland immediately and to conduct plebiscites in other parts was regarded here as Chamberlain's greatest political victory.

Political circles, believing the Prime Minister within sight of the other goal, felt he might retire with a knighthood when he achieved the four-power pact.

He had announced his program to the House of Commons when Anthony Eden resigned last February as Foreign Minister in protest against Chamberlain's dealings with dictators.

"If we can bring these four nations (Great Britain, France, Germany and Italy) into friendly discussion," Chamberlain said then, "we shall have saved the peace of Europe for a generation."

Political observers agreed the Prime Minister, by his refusal to believe the four powers should go to war, brought them to a stage where agreement was possible.

The settlement, however, might bring about withdrawal of Italian troops from Spain, the signing of the delayed Anglo-Italian Easter friendship agreement (which goes into effect only after Italian fighting in the Spanish civil war) and even an air pact among the major nations.

Observers pointed out that such a scheme might meet opposition from the left in this country and that Chamberlain might be told when the House of Commons meets Monday that he would construct a dangerous bloc by isolating Russia.

The average Briton, it is said, is discussing peace and its relation to the Prime Minister's personal struggle for a European understanding.

The outstanding point seems to be whether Chamberlain managed to get a German-Czechoslovak compromise through his persistent negotiation or through a final firm stand and preparations for war.

This is considered likely to be a central point in parliamentary debate next week.

Last November Britain decided to start a detailed investigation of Germany's colonial claims. In the light of references made to the question when Chamberlain saw Hitler in Godesberg Sept. 23, it seemed likely Britain and France might pursue this study with a view to solving the problem peacefully.

News of the Munich agreement was announced in the biggest type British papers have used for years.

Freemason Comment.
Newspapers hailed the four-power agreement in this fashion: "The Daily Express (independent): 'It is peace and victory for all mankind.'"

The Daily Herald (Labor): "Let it be said at this time it is deeply to be regretted that the Czechs were not consulted during the actual drawing up of the plan."

The News-Chronicle (Liberal): "So closely had we come to the brink that we can appreciate the full horrors from which we have obtained at least a temporary respite."

When and Where Germans Will Enter Czechoslovakia

BLACK areas show districts which will be occupied during the coming week. The shaded portion indicates the approximate area to be ceded to Germany.

FIRST ZONE TO BE OCCUPIED LIES ON AUSTRIA'S BORDER

Germany's Troops to Cross Czechoslovakian Frontier Tomorrow from Passau and Linz.

By the Associated Press.
BERLIN, Sept. 30.—German military units were ready down to the last mess kit and polished bootstraps today to go to the Czechoslovak frontier.

Beginning at midnight, the German soldiers will cross the Czechoslovak frontier in the Krumau region along the old Austro-German border. This section is the least important of the entire Sudetenland from an economic viewpoint.

Sources close to the War Ministry disclosed—before Czechoslovakia had a chance to say yes or no to a four-power scheme to satisfy Adolf Hitler by giving him parts of Czechoslovakia—that the German soldiers would roll tomorrow along the southwestern Czech frontier north of Passau and Linz.

Thus the beginning of the occupation would be from territory that was Austrian before Nazi Germany annexed it March 13.

The second district to be occupied under the carefully prepared program, reliable informants said, on Sunday and Monday lies along the northern frontier of Czechoslovakia, including the cities of Bodenbach, Teichen, Friedland, Schoenfeld, Gross-Schoenau, Schneckau, Rumburg and Warnsdorf.

On Oct. 3, 4 and 5 German troops are scheduled to take over the largest of the districts of Sudeten German majority population. It includes Egerland, with the old and world famous health resorts of Karlsbad (Karlovy Vary), Marienbad, and Franzensbad; the Sudeten German "capitals" of Eger and Chemnitz; Teichen; Neudorf; Chodan; Pilsen; Kadan; Sebnitz; and Hradec.

The program further calls for the occupation on Oct. 6 and 7 of the fourth and last prearranged Sudeten German district along the Bohemian-Czechoslovak frontier. It includes the cities of Jezerndorf, Freudenthal, Freiwaldau, Altstadt and Jauerni.

(The Munich agreement provided plebiscites later would determine the disposition of other regions of Czechoslovakia.)

The second zone, to be occupied Sunday and Monday, includes the rich Elbe River valley and parts of the "Saxon Swiss" mountains. In it are big industrial cities, several mining regions and the famous Teplice-Schneeberg spa.

This area also includes part of the fortifications the Czechs built to defend themselves from Germany. All of the much-discussed Czech fortifications are within territory which Germany is to take over under the Munich plan.

Other Districts.
The second zone also contains the Erz Mountains, which Czechoslovakia has considered her natural boundary.

The third district is a rich industrial and farming region, including the three spas, Karlsbad, Marienbad and Franzensbad.

It also has been the hotbed of German agitation with headquarters at Eger and the home town, Aach, of the Sudeten German party leader, Konrad Henlein.

British Summary of What Hitler Demanded and What He Got

Comparisons Given After Parley—Spokesman Says "We Corrected Grave Mistake Made at Versailles."

By the Associated Press.
MUNICH, Sept. 30.—Following are comparisons by an authoritative British source of what Hitler demanded and what he got under the four-power agreement:

Demand:—Evacuation by the Czechoslovak army and police forces and officials of a wide area of Sudetenland by Oct. 1, without removal of any properties.

Granted:—Evacuation of an area roughly corresponding to what he asked for by Oct. 10, without destruction of any existing installations.

Demand:—German army occupation of essentially Sudeten territories by Oct. 1.

Granted:—Occupation of four pieces of territory roughly corresponding to the area he drew on his own map, but he is to occupy them over a period of seven days beginning Oct. 1 and (presumably) this is to be done without fighting.

Demand:—In addition, an area to be defined by the proposed international commission would be occupied by the German army by Oct. 10.

Demand:—Discharge at once of all Sudeten Germans from the army or police of the Czechoslovak state.

Granted:—Discharge within four weeks of all now serving in the army or police "who wish to be released."

Demand:—Immediate release by Czechoslovakia of all Sudeten German political prisoners.

Granted:—Same, but with four-week time limit.

Demand:—Plebiscite by Nov. 25 in areas where Sudeten Germans are not obviously in the majority, voting to be carried out under the control of an international commission; settlement by German-Czechoslovak or international commission of frontier operations arising from the plebiscite.

Granted:—Plebiscite by Nov. 25 in areas where Sudeten Germans are not obviously in the majority, voting to be carried out under the control of an international commission; settlement by German-Czechoslovak or international commission of frontier operations arising from the plebiscite.

Demand:—Immediate release by Czechoslovakia of all Sudeten German political prisoners.

Granted:—Same, but with four-week time limit.

Demand:—Plebiscite by Nov. 25 in areas where Sudeten Germans are not obviously in the majority, voting to be carried out under the control of an international commission; settlement by German-Czechoslovak or international commission of frontier operations arising from the plebiscite.

Granted:—Plebiscite by Nov. 25 in areas where Sudeten Germans are not obviously in the majority, voting to be carried out under the control of an international commission; settlement by German-Czechoslovak or international commission of frontier operations arising from the plebiscite.

Demand:—Immediate release by Czechoslovakia of all Sudeten German political prisoners.

Granted:—Same, but with four-week time limit.

Demand:—Plebiscite by Nov. 25 in areas where Sudeten Germans are not obviously in the majority, voting to be carried out under the control of an international commission; settlement by German-Czechoslovak or international commission of frontier operations arising from the plebiscite.

Granted:—Plebiscite by Nov. 25 in areas where Sudeten Germans are not obviously in the majority, voting to be carried out under the control of an international commission; settlement by German-Czechoslovak or international commission of frontier operations arising from the plebiscite.

Demand:—Immediate release by Czechoslovakia of all Sudeten German political prisoners.

Granted:—Same, but with four-week time limit.

Granted:—Plebiscite in territories to be determined by the international (French, British, German, Italian and Czechoslovak) commission. "International bodies" will occupy these areas until the plebiscite is over, which must not be later than the end of November.

Here is an explanation of how the "big four" peace plan will work as given by a highly authoritative British source:

France, Great Britain, Italy and Germany will hold themselves responsible for each step necessary to fulfill the agreement, hence Czechoslovakia must accept the plan or France can not go to its support and fight against German "invasion" of Sudeten territories.

Britain bound herself only to move when France did and would not fight alone against German occupation of Sudetenland.

The same British source said early today, shortly after the conference ended:

"It was a tragic business—like standing around a table in a morgue and dissecting a body that wasn't there. (Czechoslovakia had no representatives at the conference.)"

"Yet you must remember that if it hadn't been done this way it would have been done by war. You must remember also that we are correcting a grave mistake we made at Versailles."

The spokesman went on to express a conviction that Czechoslovakia could be made into a completely neutralized and guaranteed state.

He envisaged a strong, purely Czechoslovak state, "shorn of the people it cannot govern."

This state, he said, must be one which directs no military force against any other power. That, of course, meant that the guarantee system as proposed under the four-power plan would replace Czechoslovakia's present system of Russian-French alliances.

Poland demands that Czechoslovakia relinquish:

With the Munich accord signed, Poland got down to immediate consideration of the Polish minority in the Czechoslovak area.

The so-called "Big Five" of the Government held a special meeting to discuss the issue.

The "Big Five" are President Ignacy Moscicki, Marshal Edward Smigly-Rydz, Inspector-General of the army and "strong man" of the country, Premier Pilsudski, Skladkowski, Vice-Premier E. Kwiatkowski and Foreign Minister Col. Josef Beck.

Regarding the Munich pact, enunciation of settlement of the Polish and Hungarian minority demands, a "realization of Polish demands is a bilateral matter between Poland and Czechoslovakia," he continued.

"The Czech reply (to the Polish demand for Teschen) is to come today. The decision of the Polish Government will depend exclusively on this reply."

Broadcast to Country.
A communique was broadcast stating the country was tired of what it called "garrymandering" on the issue.

Official Polish figures placed at 70 last night the number of Poles killed in incidents on the Polish-Czechoslovak border during the recent tension.

The number of persons injured was estimated to run into the hundreds.

The newspaper Wlascz Wazawa said several deaths were caused by electrified wires strung along the frontier by the Czechoslovakia.

Separate British-German Anti-War Pact Signed

Continued from Page One.
In a joint declaration the British Prime Minister and the German Fuehrer accepted the Munich pact together with the British-German naval pact of 1935 as symbols of the two powers' will to live in friendship.

Before his departure Chamberlain also announced that the Czechoslovak Government had accepted the four-power accord of Munich, assuring Europe's peace at the price of Czechoslovakia's surrender of Sudetenland to Germany.

The international commission to carry out the transfer of Sudetenland met for the first time today in Berlin to discuss Czechoslovak evacuation of zones 1 and 2 for German occupation.

The meeting was in the German Foreign Office, with Dr. Vojtech Mastny, Czechoslovak Minister to Berlin, attending as a member of the five-man commission.

The other four are Sir Neville Henderson, British Ambassador to Berlin; Andre Francois Poncet, the French Ambassador; Count von Weizsaecker, German Secretary of State in the Foreign Office, and Bernardo Attolico, Italian Ambassador to Berlin.

Chamberlain's Triumph.
The British-German declaration, signed in a two hours' earnest talk between the Nazi chieftain and the 69-year-old British leader, signalled a tremendous new joint effort to eliminate Europe's worst threats of war.

This, Chamberlain believes, will be his reward for his unprecedented man-to-man dealings with Hitler.

The elderly Prime Minister, who took matters into his own hands when all seemed lost, returned home triumphant in the conviction that his appeasement policy was justified and that he was holding a powerful trump card against his critics.

"I always have had in mind that if we could find peace in Czechoslovakia it might open the way to appeasement of Europe," he said.

Premier Mussolini of Italy was the first of the big four to leave the scene of the historic parley. He boarded a train for Rome soon after his conclusion early today.

His role as intermediary was held indispensable in making possible the Munich accord between the democracies and Fascist Powers.

Chamberlain Starts Home.
Chamberlain left his hotel after the morning conference, accompanied by German Foreign Minister Joachim von Ribbentrop, to begin his return journey to London.

As Chamberlain departed the lobby was packed with a cheering German crowd. Women rushed up to seize his hand. He smiled, embarrassed but happy.

Despite a driving rain, a huge crowd had gathered outside the hotel and along the route his automobile followed on the way to the airport. There was endless "Heil-ing," saluting and cheering.

Chamberlain Press Conference.
Chamberlain, tilting a cigar at a jaunty angle and wearing a German military cap, said that the Munich accord was a triumph for the German people.

In response to a question, Chamberlain said smilingly that he expected that Hitler's motives and aims would quickly be reduced to normal.

Then he indicated that specific steps toward appeasing outstanding European differences would follow.

His talk with the Fuehrer, he added, was "a general discussion."

Concerning demobilization, Chamberlain said specifically: "I hope there now will be obvious measures of demobilization everywhere."

Nothing definite along this line had been decided today, however, he said.

A fly smile played about Chamberlain's eyes as he sat at a big desk. It was an almost unprecedented interview with a Prime Minister of Great Britain.

Statement by Daladier.
In a statement to DNB, official German news agency, the French Premier declared that the French and German people "must come to a cordial understanding."

"I have had the pleasure personally to establish that no feeling of hate or enmity of any kind prevails in Germany against France."

He assured that the French, on their part, feel no hostility toward Germany.

Hitler has stressed repeatedly in recent weeks that Germany has no quarrel with France.

Groves gathered around Daladier's hotel during the morning and gave him repeated ovations. When he appeared at a window he received cheers and "heils."

Details of the agreement reached by the four powers early today, for delivering Czechoslovak territory to Germany, and for seeking adjustment within three months of demands of Hungary and Poland for Czechoslovak territory, in which their minorities live, had been forwarded to Prague earlier for acceptance.

Official informants said military detachments of legations and a staff of experts might assist the international commission after organization at Berlin is completed.

Prague's Part to Accept.
Chamberlain and Daladier prevailed on the Czechoslovak Government, which was not a party to the Munich agreement, to accept the plan for ending the danger of war over Czechoslovak Sudetenland where live the German-speaking Sudeten to whom Hitler pledged "protection."

The plan permits Hitler to send troops into Sudetenland gradually during the coming week and provides for plebiscites in areas where German minorities are not clear, and for an international commission and police to handle the plebiscites.

Had Czechoslovakia refused to agree to the plan, British and French sources said they would have tried to stop Hitler from taking Sudetenland with troops, as he had in 1935.

The justification advanced for carving pieces for Germany, Poland and Hungary was that the Czech body politic was contained in Premier Daladier's comment as he entered his hotel early this morning.

"You must remember that we avoided a terrible war."

Germany's Air Minister, Field Marshal Goering, and Foreign Minister Ribbentrop, were among those who gathered for the celebration, with a group of German officers in the hotel lobby.

Mussolini Thought Hitler Would Not Fight, Others Were Bluffing

By the Associated Press.
MUNICH, Sept. 30.—Premier Mussolini was credited in inner conference circles with having weighted the balance toward peace in an 85-minute visit with Hitler just before the four-power conference opened.

The two men had met at Kufstein, on the former Austro-German border, and came on to Munich together by train. Thus they had full opportunity to talk things over before their meeting with Chamberlain and Daladier.

On the train ride, Mussolini was said to have stressed the necessity of reaching an agreement with France and Italy. This was said to have paved the way for a quick accord of all four statesmen.

That Mussolini should seek to restrain Hitler after his own speech of speeches in Rome, Italy during the last two weeks came as a surprise to some.

During the speech-making tour Mussolini had asserted and reasserted that Czechoslovakia should be chopped up.

This explanation was offered in informed quarters.

At first Mussolini did not believe Hitler was in earnest in his threat to invade Czechoslovakia. Mussolini was under the impression when he made his speeches in Northern Italy.

Neither did the Italian Premier believe that France and Britain would fight. Even after the Berchtesgaden conference between Hitler and Chamberlain, Daladier continued to believe in democracy as "new order."

But within 24 hours before the Munich meeting was called, Mussolini was said to have become alarmed—convinced that Hitler would not fight if Czechoslovakia were invaded.

The French had started progressive mobilization and Britain had mobilized her navy. Thus, there were no longer any illusions as to the strength of the British and French Governments, he decided, in full realization of its historic responsibility and in full accord with responsible elements of the various political parties, to accept the Munich decision of the four powers.

About Decision on Terms.
Sovoy announced the decision to accept the Munich terms: "The Government of the Czechoslovak Republic, having examined the Munich decision in all its details as well as the circumstances which influenced that decision, and after having taken into account all the pressing recommendations which were sent to Prague by the British and French Governments, has decided, in full realization of its historic responsibility and in full accord with responsible elements of the various political parties, to accept the Munich decision of the four powers."

The conference came here by train and by air, meeting together for the first time in their careers.

It was Chamberlain's third trip to see Hitler, however. He went on Sept. 15 to Berchtesgaden and there drafted the first plan for cession of Sudetenland, which Czechoslovakia, under pressure, accepted.

He visited Hitler again on Sept. 22, when Hitler's demands increased. "He came yesterday in the final effort, after telling the British Parliament Hitler agreed to postpone mobilization for 24 hours."

Germany already had under arms large forces of men. Britain, France and much of the rest of Europe were in the process of mobilization.

STATE BAR HEAD AGAINST POLITICAL CHOICE OF JUDGES

W. W. Fry, Addressing Annual Convention, Favors Shift From Present Elective Method.

SUGGESTS CHANGES IN PROCEDURE

Survey Sent From Illinois Discloses Most Lawyers There Rate Themselves Proficient in 25 Fields.

Removal of judicial offices from the political influences of elections was advocated by W. Wallace Fry of Mexico, president of the Missouri State Bar Association, addressing the fifty-eighth annual meeting of the association at Hotel Jefferson today.

There is a general trend away from election of judges and Missouri is no exception to the trend, said Fry, referring favorably to the proposal of the Bar Association of St. Louis for a system of appointment by the Governor, within limitations.

"A plan of this sort," he continued, "is greatly to be desired in preference to our present method whereby any lawyer, whether well qualified or not, may enter a political campaign and, by securing enough political support and by spending a great deal of money, may achieve an office which should be bestowed only on a man well deserving the honor."

"Political requirements and judicial qualifications do not mix. Many judges have the ability to fill the office in a competent manner but do not do so because they are victims of the so-called election method."

Only 11 states do not have the elective method for choosing judges, but it is only in those 11 states that public sentiment is not demanding a radical change, Fry declared.

He urged Missouri lawyers generally to join in the efforts of the association to maintain the profession on a high plane. Advocating reform of legal procedure through court rules, he insisted that the Missouri Court of Missouri was the logical and practical agency to make rules for practice before all courts of the state. He urged the association to continue co-operation in this movement with the Institute for the Administration of Justice, which the association sponsored.

It was the association's duty, the president said, to support the four-point legislative program of the Interstate Commerce Commission on time. He recommended the adoption of recommendations of a committee for a more definite and effective method for revision of Missouri statutes. Suggesting that the canons of professional and judicial ethics be called to the attention of every lawyer and judge in Missouri, Fry declared it was apparent that some lawyers and judges were unaware the State Association had adopted these canons.

Three sessions devoted to the business of the association were scheduled to be held before the closing banquet tomorrow.

Illinois Survey. In the first session this morning, R. Allan Stephens of Springfield, Ill., secretary of the Illinois State Bar Association, reported a survey of Illinois lawyers disclosed that they considered themselves qualified to practice in an average of only about one-third of the 100 most important fields of law.

"By this test we learned that while almost every lawyer could settle an estate, only 45 per cent of them felt themselves qualified to solve questions of Federal or state inheritance taxes. Almost all could draw a contract, write a will or try an ordinary case, but in the newer fields we found very few competent counsels."

"While there are about 25 fields which are highly competitive and in which most of the lawyers indicated that they felt they were proficient in the remaining fields as low as only 1 per cent felt qualified. Yet the ordinary lawyer is presumed to be able to handle legal problems in over 300 different fields."

Rating of Lawyers. To remedy this general deficiency, Stephens said, the association has for several years maintained a consulting service, undertaking to keep a directory of attorneys for a register of all members, which would include information as to the fields in which a member had special experience or fields to which he devoted enough time to rank as a specialist.

Objections to this type of rating had come, the speaker said, from the lawyer who thought he could handle legal business of any sort. Comparing the field of law to that of medicine, he pointed out that the family physician would be discharged if he failed to seek consul-

Festus Mayor of Many Activities

Mayor Says City Must Up Taxes or Cut Its Services

Tells Aldermen at First Board Meeting This Fall That They and People Must Decide.

The Board of Aldermen and the people must consider whether municipal services should be curtailed or new taxes levied, in order to wipe out the growing deficit, Mayor Dickmann declared in an address to the Aldermen, as they opened their fall and winter session today.

No recommendation for taxes or reduction of services was made by the Mayor. As was expected, he refrained from renewing his old suggestion that an occupational or city income tax, aimed particularly at non-residents working in the city, be levied. The administration is not pressing this, at least for the present.

It was possible, the Mayor continued, that he might urge specific measures hereafter. He requested suggestions from the Aldermen.

The city's deficit at the close of the fiscal year was \$1,948,835, the Mayor related, and appropriations for the current year exceeded expected revenue by \$1,023,048, indicating a deficit at the end of this year of \$2,971,883.

CITIZENS SEEKING INQUIRY INTO 'BOSS' BRICKEY'S AFFAIRS Continued from Page One.

and were "not subscribed and sworn to by two members of the board." Also in the report is mention of the fact that in the years 1935 and 1936 the County Court approved warrants totaling \$14,797 in favor of the H. E. Miller Oil Co., of which Brickey is the principal owner.

A State law forbids any member of a County Court from awarding any contract to a firm in which he is interested.

The petition to the Governor, which has approximately 1200 signatures to date, details several other charges and concludes: "The prosecuting attorney has failed to take any action whatever, even though said Auditor's Report was read publicly in the courthouse and was widely discussed by the local press and by the citizens in general."

In the last few weeks the county's affairs have been almost the sole topic of conversation.

Although Brickey was unopposed in the August Primary for Re-electing County Judge, a Negro roust about from the tenements of Festus got a heavy write-in vote.

Brickey's activities in the twin cities of Festus and Crystal City, and the county, are manifold, but he lives almost exclusively at his apartment in the Park-Plaza Hotel in St. Louis. He owns his father's old home in Festus but rarely uses it.

His father, too, was president of the bank, mayor, and president of the school board. His father's estate, which is incorporated with Brickey as president, owns large cotton farms near Osceola, Ark.

Three brothers share in the estate. Brickey looks younger than his 46 years. He was married about four years ago to a cousin, Mrs. Belle Brickey Gonterman, divorced wife of Courtney J. Gonterman, who now lives in Florida.

The principal interest in Festus and Jefferson County is the factory of the Pittsburgh Plate Glass Co. As mayor, Brickey took an active part in the company's and community's efforts to stop labor organizing and he boasts of his position to the CIO-affiliated Federation of Flat Glass Workers. He was present at a meeting in 1936 which ordered Robert McVay, union organizer, out of town under threat of sending him to jail.

ONE BOND ISSUE WINS, THREE OTHERS FAIL AT ST. CHARLES

Proposal for Sewer Carried, but That for New City Hall Is Beaten by 28 Votes.

One bond issue for public works in St. Charles was approved by voters yesterday and three others were defeated.

The proposal approved is a \$50,000 bond issue for the construction of a sanitary sewer estimated to cost \$268,000. The city will apply for a WPA grant of \$218,000. The vote was 1687 to 1094.

A proposal to issue \$43,000 in bonds for the construction of a new city hall was defeated by 1493 to 788, failing to get a two-thirds majority of the votes cast by 28 votes.

The other bond proposals called to carry were a \$45,000 issue for construction of a public golf course, and a \$5000 issue for an open-air theater. All were to have been supplemented by public grants.

ZOO CHIMPS-FIGHT AND ANOTHER ONE GRABS THEIR BABY

Problem Is How to Rescue Small Ape From Captor at New Orleans.

By the Associated Press. NEW ORLEANS, Sept. 30.—Audubon Park Zoo attendants today considered the risk of rescuing a new-born chimpanzee from starvation in the embrace of a foster mother.

When the chimpanzee, Coco, gave birth to the baby Wednesday, Papa Petu was enraged and threw Coco against the cage bars. Coco dropped the little chimpanzee, but before Papa could get it the chimpanzee Luliette clutched the baby.

There was a mercy domestic scramble until attendants got the animals in separate cages. Luliette refused to give up the baby, which she could not nurse.

Park Superintendent Frank Neal said he planned to use a hypodermic to put Luliette to sleep, if she did not give up the baby, which she could not nurse.

George P. Vierheller, director of the St. Louis Zoo, recalled today that a somewhat similar difficulty was encountered here in 1933 when Patti Sue, newly-born orang-utan, could not be fed by its mother, Bimbo. Zoo attendants used ropes and lassos to force the young one from the mother and Patti Sue was fed artificially for some time.

She died of a ruptured artery in 1935. Vierheller advised the New Orleans zoo attendants to use the methods he used here.

POLICE BOARD OUSTS OFFICER IN MATERNITY ENTRY FORGERY

Francis C. Schoo Admits Signing Dead Man's Name to Save Widow Embarrassment.

Francis C. Schoo, motorcycle patrolman, was dismissed from the police force yesterday after a hearing before the Board of Police Commissioners on a charge of conduct unbecoming an officer. He joined the department in 1929.

Testimony was introduced that Schoo signed on a maternity patient's hospital entry slip the name of her deceased husband. Schoo admitted he signed the slip, but said he did it to save embarrassment to the woman, who had been a friend of the family for years.

Two other charges were not considered by the board.

Schoo, 32 years old, resides at 4932A Odell street. The father of two children, he is separated from his wife.

Dies After Sinking Long Golf Putt. Special to the Post-Dispatch. MILWAUKEE, Sept. 30.—A stroke induced by sinking a long putt proved fatal yesterday to Dr. John W. Powers, 57 years old, orthopedic surgeon. He was a native of Savannah, Ill., receiving his bachelor's degree from the University of Michigan. He was graduated from the Chicago College of Physicians and Surgeons in 1903, and practiced at Mount Carroll, Ill., before coming here.

WASHINGTON U. STUDY OF SLEEPING SICKNESS

Attempt to Learn If Disease Is Related to Horses' Malady.

Following the announcement by the Rockefeller Institute in New York today that an outbreak of sleeping sickness in Southwestern Massachusetts had been traced to horses, it was learned that a similar study is in progress at Washington University.

However, evidence is lacking as yet that St. Louis encephalitis is related to sleeping sickness in horses. Dr. Howard A. McCordock, professor of pathology, said to a Post-Dispatch reporter.

The Rockefeller Institute report marked the first time that horses had been definitely implicated as causes of human encephalitis. Horses in Southwestern Massachusetts have been dying of eastern encephalomyelitis, a well-known animal disease, resembling human sleeping sickness.

Horses in Missouri, Illinois, Montana and many other states west of the Alleghenies often become ill with a form of sleeping sickness known as western encephalomyelitis, which is different from the eastern variety. Dr. McCordock pointed out. In the last few years farmers in this area have reported heavy losses from horse sleeping sickness.

The eastern horse disease, it was found by Rockefeller Institute, is caused by the same virus present in the brains of five children who died of sleeping sickness in the horse disease area.

Sections of the brains of those children were sent to Washington University and were found to be little different from sections taken from St. Louisians who died in the last epidemic in 1937. However, Dr. McCordock pointed out, apparently the disease here and that in Massachusetts were caused by different viruses because there were differences in the brain cells of the victims.

Serum from St. Louis victims of sleeping sickness was sent by Washington University to the Rockefeller Institute research workers for comparison with material from the Massachusetts cases.

At the local university a study of many animal viruses is under way to determine if there is a relationship between any one and human sleeping sickness. Thus far nothing has been found here indicating the human disease came from an animal variety.

Disease viruses virtually disappear in the intervals between human epidemics. Scientists have been trying to find the hiding places, with the idea that they could prevent renewed epidemics. The sleeping sickness discovery at the Rockefeller Institute is evidence that the form of a virus can be modified and hidden among animals.

9 Inches of Rain in 13 Hours. WILMINGTON, N. C., Sept. 30.—A large part of Wilmington's residential district was inundated yesterday after 9.4 inches of rain—an all-time record—fell over an 18-hour period. The heavy rains began, Weather Bureau records showed, at 12:57 a. m. and, after a five-hour let-up in the afternoon, fell again last night.

SHIP CREW RESCUES WOMAN WHO FELL INTO THE OCEAN

Liner Stops Engines and Boat Is Put Out; Passenger in Water 20 Minutes.

NEW YORK, Sept. 30.—Capt. Karl Steincke, of the Hamburg-American liner Deutschland, told today of a rescue of a woman passenger who plunged into the sea as the ship neared New York.

He said that Mrs. Martha Bach, 37 years old, of Hubbard Woods, Ill., was pulled aboard a life boat yesterday 20 minutes after she fell from a portico. The ship stopped its engines and turned from its course to circle the spot after sailors marked the position with smoke flares. Most of the 823 passengers heard the alarm and watched the rescue.

Mrs. Bach was recovering in the ship's hospital when the Deutschland docked.

Mrs. Bach, a widow, was traveling with her daughter, Helen, 14, and her mother, Mrs. Laura Farney, 56. Mrs. Bach is a German citizen. Her mother and daughter are citizens of this country.

MAN SAYS BASEBALL HIT HIM, SUES CLUB FOR \$3000

Henry Brummerhoff Asks for Damages From Cardinals and Cincinnati Reds.

Henry Brummerhoff, a railroad conductor, filed a suit in Circuit Court yesterday against the St. Louis National Baseball Club and the Cincinnati Baseball Club Co., asking for \$3000 damages for injuries allegedly suffered when struck by a baseball at Sportsman's Park Aug. 30.

Brummerhoff said he bought a grandstand seat ticket for the game and was unable to find a seat behind the screen. His suit states he was struck in the face by the ball after he had taken a seat near the first base line.

MAN TRYING TO CROSS ROAD STRUCK AND INJURED BY AUTO

Driver Says Henry Baumgartner Walked Into Side of Car at Gravois and Weber.

Henry Baumgartner, a laborer, suffered a serious skull injury and several fractured ribs last night when he was struck by an automobile when attempting to cross Gravois road at Weber road. He was taken to St. Louis County Hospital.

The driver, Oliver Greenwald, 24 years old, 218 East Washington avenue, Kirkwood, told police he was driving east in Gravois at a moderate rate of speed when Baumgartner walked into the left side of his car. Baumgartner resides at 7800 Flea avenue, Gardenville.

EX-CHINESE PREMIER KILLED WITH HATCHET

Tang Shao-yl, 78, Leader in Revolution, Attacked by Three Men in Home.

By the Associated Press. SHANGHAI, Sept. 30.—Tang Shao-yl, former Chinese revolutionary leader and first Premier of the Chinese Republic, died today after an operation to remove a hatchet buried in his skull.

Three assailants gained entrance to the home of the 78-year-old retired official on the pretext that they were presenting to him honorary scrolls. They pulled hatchets from the scrolls and attacked him, escaping in a stolen automobile which they later abandoned.

Recently there have been rumors in Shanghai that Tang, one of the first American educated Chinese, was negotiating with Japanese for a possible connection with a Japanese-sponsored Government, but such rumors have been denied.

In 1912 he was made first Premier of the Chinese Republic, becoming the first of American-trained Chinese to hold high office. Later he was identified with the management of Chinese railways, and in 1929 became an adviser to the government headed by Generalissimo Chiang Kai-shek.

He held that office until 1931, when he denounced the "nepotism" of Chiang and cast his lot with the committee creating the "new Chinese republic" at Canton, which later collapsed.

YOUTH ESCAPES AT CLAYTON AFTER BEING SENTENCED

Negro, 16, Gets Out of Juvenile Detention Quarters Adjoining County Jail.

James Thomas, 16-year-old Negro, escaped from juvenile detention quarters adjoining the St. Louis County Jail at Clayton today, a few hours after he had been sentenced to three years in the Booneville Reformatory on an assault charge by Circuit Judge John J. Wolfe.

Deputy Constable Norman Robertson of Jefferson Township, a Negro, who saw the boy running south in Meramec avenue, chased him and fired once in the air. The boy, who lives at 6170 Minerva avenue, Wellston, was last seen running in Davis place. During his flight, he lost his right shoe.

He escaped from the detention quarters by crawling under a steel folding door. He was arrested Sept. 25 after chasing his father with a knife.

THEIR PEOPLE CHEER HOMECOMING PREMIERS FOR MUNICH PACT

'IT IS PEACE FOR OUR TIME,' BRITON SHOUTS TO CROWD

Ushered Onto Palace Balcony by King, Chamberlain Tells Londoners He Brought Home Agreement "With Honor."

By the Associated Press. LONDON, Sept. 30.—Prime Minister Chamberlain flew home today to vast cheering throngs with a peace pact on Czechoslovakia and strong hopes for a broad European settlement as the fruits of his diplomacy.

He stepped from his plane at 8:59 p. m. (10:39 a. m. St. Louis time) to mad cheering by excited crowds that had gathered at Heston Airport.

He was handed a letter from King George VI as soon as he emerged from the plane.

One of his first duties was to go to Buckingham Palace and report to the King on the Munich conference.

In response to tremendous cheers by thousands massed in front of the palace, the King and Queen ushered both the Prime Minister and Mrs. Chamberlain onto a palace balcony.

Another ovation awaited the Prime Minister in Downing street. Speaking from a window of his office he told the crowd he had brought home "peace with honor."

"It is peace for our time," he said.

Reception at Airport.

At the airport earlier, he had stopped despite a shower to respond happily to a tumultuous reception. "Settlement of the Czech problem which now has been achieved," Chamberlain said, "is in my view only a prelude to a larger settlement in which all Europe may find peace."

Smiling broadly, the Prime Minister waved his hat at the excited thousands with schoolboy enthusiasm. He held up for the crowd to see the joint declaration he and Reichsfuehrer Hitler signed this morning in a private talk after the four-power conference.

Then he rose. "The German Chancellor and myself regard the agreement signed last night and the Anglo-German naval agreement as symbolic of the desire of our two peoples never to go to war with one another again."

Speech to Crowd.

First, however, the Prime Minister told the crowds there were only two things he wanted to say:

"First of all, I have received an immense number of letters during all these anxious times. "So has my wife—letters of support and approval and gratitude—and I cannot tell you what encouragement that has been to me. "I want to thank the British people for what they have done, and next, I want to say that settlement of the Czechoslovak problem, which now has been achieved, is in my view only a prelude to a larger settlement in which all Europe may find peace."

"This morning I had another talk with German Chancellor Herr Hitler and here is the paper which bears his name on it as well as mine. "Some of you, perhaps, already have heard what it contains, but I would just like to read it to you."

As he finished, there were shouts of "For he's a jolly good fellow!"

Chamberlain then entered his automobile and sped directly to Buckingham Palace.

His Cabinet was summoned to meet tonight to hear his account of the Munich conference.

Britain, from Cabinet Ministers to humblest subjects, rejoiced with her Prime Minister. Hours before Chamberlain's return, a peace pact leading to Heston Airport were blocked with automobiles, bicyclists and pedestrians.

In the throng was the entire Cabinet, out to greet him on his return from the mission to Germany which he started yesterday with his Ministers' surprise send-off. In the milling throngs were school children waving Union Jacks.

Lloyd's Hints the Bell.

Lloyd's rang the famous Lutine bell in celebration of the peace settlement and sent the Prime Minister congratulatory resolutions.

A public inclosure adjoining the landing field overflowed and thousands waited outside for a glimpse as Chamberlain was driven past.

Another special inclosure was erected for dignitaries out to greet Chamberlain.

Viscount Halifax, the Foreign Secretary, weary from long hours during the crisis, was given rousing cheers by crowds in Downing street as he left to meet his chief. Sir John Simon, Chancellor of the Exchequer, similarly was acclaimed.

Some boos and cries of "Throw them out!" were heard in the little street as deputations representing a national unemployed workers' movement called at No. 10 to leave a resolution censuring the Government for co-operating with Nazi Germany and Fascist Italy.

Reviewing Nazi Guard of Honor at Munich

FROM LEFT: FIELD MARSHAL HERMANN GOERING OF GERMANY, COUNT CIANO OF ITALY, CHANCELLOR HITLER AND PREMIER MUSSOLINI.

ROME WELCOMES MUSSOLINI, 'SAVIOR OF EUROPE'S PEACE'

From Balcony He Tells Enthusiastic Throng, 'We Have Worked for Peace According to Justice.'

By the Associated Press. ROME, Sept. 30.—Premier Mussolini received one of the greatest welcomes his followers ever have accorded him when he returned to Rome today from the four-power conference at Munich.

At the railroad station to greet him were many representatives of the diplomatic corps, including William Phillips, United States Ambassador, and the Earl of Perth, British Ambassador.

Mussolini strode from the station through a narrow path police cleared for him amid the cheering crowds. He smiled broadly and waved his hand to the throngs.

At the railroad station to greet him were many representatives of the diplomatic corps, including William Phillips, United States Ambassador, and the Earl of Perth, British Ambassador.

Besides him was his son-in-law and Foreign Minister, Count Galeazzo Ciano, who had accompanied him to the Munich meeting that, found ways to satisfy Germany's demands on Czechoslovakia and save Europe from war.

He and Count Ciano entered an automobile immediately and sped through flag-festooned streets to the Palazzo Venezia, Mussolini's office.

He appeared shortly after on the balcony of the Palazzo Venezia and told the frenzied crowds he "worked at Munich for peace according to justice."

In times past he had appeared on that balcony to summon his people to war, to defy League of Nations punitive measures against Italy's war in Ethiopia and announce Italy's withdrawal from the League. Observers who had witnessed these earlier historic occasions said the fervor of today's demonstration exceeded any of them.

Called Back to Balcony.

Mussolini apparently had not planned to speak when he first appeared on the balcony. He saluted, smiled and then disappeared behind the balcony's curtained glass doors, but twice the uproar brought him back.

Finally, he raised his hand for silence and said: "You have lived through memorable hours. We have worked at Munich for peace according to justice. Is this not the Italian ideal?"

In one voice the crowd chorused: "Yes! Yes!"

For 15 minutes after he withdrew, the crowds continued cheering.

Cheering throngs turned out at Florence, Trento and other cities along the route of the Premier's train.

Congratulated by King.

King Vittorio Emanuele made a special trip from his summer palace at San Rossore to Florence to congratulate his Premier. The King was waiting on the station platform when the train arrived.

For the Fascists, the four-power Munich accord to satisfy Adolf Hitler by cutting up Czechoslovakia was an Italian victory.

From one end of Italy to the other men who had held themselves ready to march to war relaxed their tension. They gave thanks to churches for the eleventh-hour escape from war. In Rome thousands thronged the railroad station long before Mussolini was due to arrive from Munich.

When special editions carried news of the agreement, crowds rushed from theaters to snatch the papers from delivery trucks. Thousands jubilantly cried, "It's peace! It's peace!"

Fascists were pleased with two particular phases of the Munich understanding. One was that war was averted in a manner Mussolini previously had advocated for settling international

disputes—by direct contact by heads of governments.

The other was that the agreement to meet again in case Hungarian and Polish minority questions in Czechoslovakia are not settled in three months responded to Mussolini's repeated demands for "integral settlement of the Czechoslovak problem."

Editor Gayda's Communist. Virginia Gayda, authoritative Fascist editor, set the pace for Italian press comment in the Giornale d'Italia with this sentence: "The accord, sacred to the peace of the people, vainly attempted to suppress the Fascist salute in response to his tumultuous reception."

Besides him was his son-in-law and Foreign Minister, Count Galeazzo Ciano, who had accompanied him to the Munich meeting that, found ways to satisfy Germany's demands on Czechoslovakia and save Europe from war.

Time Table Of Peace Parley

By the Associated Press.

HOW the big four conference passed historic hours in Munich yesterday.

9:00 a. m.—Hitler, Chamberlain, Daladier and Mussolini are resting after arrival and preparing for the conference.

10:45 a. m.—They begin their discussions over a light luncheon provided by Hitler.

1:45 p. m.—Chamberlain and Daladier return to their hotels for consultation with their staffs of experts and with each other. Chamberlain eats a hearty meal.

4:45 p. m.—Big Four and aide reopen discussions.

8:20 p. m.—Dinner time suspension.

10 p. m.—Talks resumed.

Midnight—Conference still going strong.

12:30 a. m.—Semi-official source says they signed an accord on cession of Sudetenland.

1:30 a. m.—Conference announces agreement reached to preserve peace by ceding to Germany Czechoslovakia's Sudetenland.

have written need be erased, but can stand as an authentic day to day history of one of the great international episodes of our times."

CZECH RALLY IN CITY TONIGHT

Message From Prague's Envoy to U. S. to Be Read at Meeting.

A message from Vladimir S. Hruban, Czechoslovakian Minister to the United States, will be read tonight at the mass meeting in National Hall, 1701 Allen avenue, sponsored by Czechoslovakian National Alliance and the American League for Peace and Democracy.

Hruban, in a telegram to the committee in charge, said Czechoslovakia was defending "not only her own liberty, but the humanitarian and cultural standards which alone can insure a peaceful life for mankind."

HUNGARIAN ARMY CHIEF QUILTS

BUDAPEST, Sept. 30.—Gen. Ludwig Keresztes-Fischer, chief of the Hungarian General Staff, resigned today. No explanation was available immediately.

It was understood he would be succeeded by Gen. Henry Werth, ex-commandant of the Military Academy.

MANAGER OF A. P. COMMENTS

STAFF ON HANDLING OF CRISIS

Kent Cooper Gratified at Calmness, Accuracy of Reports, "Nothing Need Be Erased."

By the Associated Press. NEW YORK, Sept. 30.—General Manager Kent Cooper today addressed the following to the staff of the Associated Press:

"Our staff has just passed through a time of extraordinary stress and extraordinary responsibility in its coverage of the international crisis. The burden has fallen chiefly on those assigned abroad, but many at home also have helped."

"It has been a time when calm, sound and accurate reporting, in the midst of rumors and alarms, was a requisite of highest consequence. Millions of Americans have made the reports of the Associated Press their first reliance in their eager quest for the truth. The staff has met that responsibility fully. It has recorded only the truth. It has reported no wars that did not materialize, and no peace settlements until they were arrived at."

"It is gratifying to know that developments were covered with uniform promptness—in many instances with surprising and unparalleled speed. But far beyond that, it is more satisfying than words can express that nothing you

DALADIER GIVEN CABINET APPROVAL, CALLS PARLIAMENT

Premier Rides Over Flower-Strewn Streets of Paris, Acclaimed by Nearly 500,000.

By the Associated Press. PARIS, Sept. 30.—The French Government, after hearing Premier Edouard Daladier's report on the four-power Munich accord, summoned Parliament to meet next Tuesday.

Announcement of the call came from a Cabinet session at the Elysee Palace, President Lebrun presiding, shortly after Daladier had returned from the conference which ended the German-Czechoslovak crisis.

The summons was announced after the Ministers had approved unanimously the Premier's report on the Munich conference, and was expected that the Chamber and Deputies would be asked Tuesday also to vote approval.

In opening the Cabinet meeting, Daladier thanked the Ministers for the vigilance and patriotism with which he has fulfilled a grave and delicate mission he has just brought to a successful end.

A communiqué said: "M. Daladier told of the negotiations at Munich and the conditions in which were established the agreement which assures the maintenance of European peace."

The Cabinet unanimously joined the Premier in praising his warmest thanks to M. Daladier for the effort he devoted to the interests of France and of peace."

The Premier made a triumphal entry into Paris after landing at Le Bourget airport on his return from Munich. He drove through miles of flower-strewn streets echoing with the cheers of half a million Parisians.

The Cabinet, meeting at the Elysee Palace, was expected also to consider the return to their homes of the hundreds of thousands of army reservists recently called to the colors. This demobilization was expected to be completed after the Sudeten territories had been taken over safely by Germany.

Almost 500,000 persons lined Daladier's five-mile route from the airport to the War Ministry in an outburst of joy and relief.

Women, many of them almost hysterical, threw flowers in his path as he was escorted to his automobile by Mobile Guards. A military band played France's national anthem and a delegation of war orphans presented him a bouquet of red roses.

"The negotiations certainly were difficult, but I have the deep conviction that the accord which was concluded was indispensable to maintenance of peace in Europe," Daladier told the throng as he stepped from his plane.

"I also am certain today that, thanks to the desire to give mutual

concessions and a spirit of collaboration which animated the action of the four great Western Powers, peace is preserved."

In the broad Place de la Concorde, another huge crowd massed to acclaim the Premier as his automobile passed.

The Government ordered the recall of the army reserves called to the colors during the crisis. An official said that the recall would take place progressively "at a rate in keeping with the security of national defense." More than 1,000,000 reserves have been called to active duty.

The immediate French reaction to the scheme of British, German and Italian statements at Munich was that Chancellor Adolf Hitler had eased his Sudetenland demands sufficiently for the accord to be regarded as a compromise.

How far Hitler had scaled down his demands on the essential point of actual territory to be transferred to Germany was not expected to be regarded as a compromise.

Daladier and the British Prime Minister Neville Chamberlain conferred for almost an hour after their conference with Hitler and Premier Mussolini ended early today in Munich.

They discussed the request they

HITLER FINDS DALADIER 'EIN GANZER KERL'—(A REAL 'HE-MAN')

MUNICH, Sept. 30.

A PROMINENT Nazi editor said last night the conference marked a change of attitude which Hitler had had toward democracies. This source said the Fuehrer had found in Chamberlain and Daladier two men whom he could not but respect.

Chamberlain's services already had won a public tribute from Hitler in his sportsplatz speech Monday night in Berlin. But the editor said, Hitler did not have the measure of the French Premier until yesterday.

The Fuehrer was reported to have labeled the stouky Frenchman "Ein ganzer Kerl" (a real 'he-man'). The German delegation was thoroughly convinced that Daladier was one of the most determined champions of peaceful settlement.

On that question and a supposed loose French-British agreement to a German-Italian demand for the cession of territory to Hungary and Poland it was thought Czechoslovakia's answer would depend.

The thanks of Paris for Chamberlain's work on behalf of peace was sent the Prime Minister by the president of the Municipal Council, Le Provost de Launay, who wired: "Paris gives you thanks, Paris hopes for the pleasure of seeing its gratitude to you soon in this city."

Foreign Minister Georges Bonnet conferred today with Ambassador William C. Bullitt.

French news agency reports on the Munich conference said Daladier and Chamberlain had to "wage a tenuous battle" to obtain the agreement, which Daladier in a statement from Munich today reflected "an honorable peace for all."

It was, which sometimes reflected official views, expressed the opinion in a Munich dispatch that there was a "very important difference between the German demands and the terms of the final solution."

The news agency pointed out particularly that Hitler wanted to fix the new Czechoslovak frontiers himself, but now this is to be done by an international commission.

Certain opposition was thought to be facing Daladier on his return home. Communists and left-wing Socialists regarded the Premier's Munich trip as a concession in itself to Germany.

Communists declared the four-power meeting "wished by Hitler does not tend toward anything other than to divide the peaceful forces of various countries whose union alone is able to avert war."

A formal Communist declaration added: "On the fate of Czechoslovakia depends the fate of all Europe. To save peace it is first of all essential to save Czechoslovakia."

Left-wing Socialists insisted the safety of France depended "on the maintenance of Czechoslovakia in the present form as a bulwark against Germany."

When the four-power accord in principle was announced it was looked on throughout France as being based almost entirely on the original French-British plan and as a peace with honor for all concerned.

They discussed the request they

HITLER IN BOOK URGED GERMAN-BRITISH PACT

Prophetic Words in 'Mein Kampf,' as Revised in 1927, Are Recalled.

The signing of a separate pact today by Prime Minister Chamberlain and Chancellor Hitler as symbols of the desire of the people of England and Germany "never to go to war with one another again," recalls prophetic words of Hitler in his noted book, "Mein Kampf" (My Battle).

Writing in 1927, in a revised edition, Hitler posed the question what nations were to be Germany's friends in the future, and clearly indicated that if he had his way he would point Germany's policy toward alliances with Italy and England. France had no need of Germany, he said, and he implied that she might be expected to remain a "permanent and inextinguishable enemy."

But Germany then was not fighting for a place as a world power. "We have to struggle for our Fatherland's existence, for our national unity, and the daily bread of our children," he wrote. "From this point of view only two states are left over for us: England and Italy."

Italy long ago became Germany's ally. The new British-German pact declares that "consultation shall be the method adopted to deal with any other questions that may concern our two countries, and we are determined to continue our efforts to remove possible sources of difference and thus to assure the peace of Europe."

Thus Hitler has traded Germany's revived strength for England's friendship and support and has achieved a new triumph on the road that he set for himself.

Here is what the loss of Sudetenland means to Czechoslovak industry on the assumption that the Munich agreement involves the cession of as much territory as did the first British-French plan:

The country will lose not only most of its raw materials, but also its exportable manufactured goods. Thus, it will have nothing with which to pay for raw materials it now must import to supply its key industries.

Coal—Germany was expected to get Prague's principal coal deposits, cutting off the domestic fuel supply from virtually all key industries.

Textiles—The famed Skoda Works at Pilsen, the center of the Sudetenland, will lose their local coal supply and will have to bring coal from across the country. Their lignite—coming now from the Dux mines in Northern Bohemia—will be lost. They will have to import lignite.

Beer—Pilsen breweries will lose many of their hop fields although they will have some left.

Textile—The new Czechoslovak frontier, these sources expected, will be edging the textile areas which will mean indirectly that Prague's man-in-the-street will have to pay more for his clothes. The border will cut off factories for semi-finished goods from factories for finished goods—both under the same ownership.

Textile mills will lose their fuel supply at Schatzlar.

Thus, new factories will have to be built, coal will have to be imported at the price of cloth necessarily will rise.

Blow to Textile Industry.

The blow to the textile industry possibly would be the heaviest even though it recently has experienced employment depression with much unemployment and political unrest. It was the republic's economic white hope, nevertheless, and included hundreds of factories making knitted goods, lace, silk, velvet, carpets and gloves. Reichenberg, a thriving industry, is center of the textile industry. It will be lost.

Also of serious consequences will be blows to Czechoslovak porcelain and glass industries for which the country is famous.

Economic authorities estimated that loss of the "70 per cent territory"—where the Sudeten German vote was 70 per cent or more in municipal elections last March—would mean the loss of 40 per cent of the nation's industry, 80 per cent of its porcelain factories, 70 per cent of its glass factories, 80 per cent of its musical instrument factories and 100 per cent of its glass and jewelry factories.

The heavy chemical industry, located at Falkenstein and Aussig, in Western Bohemia, will be lost. A new heavy chemical industry will have to be created since supplies such as sulphuric acid must be found for the light chemical industries. Czechoslovakia is to retain.

New Electric Plant Needed.

Prague will have to build a new electricity plant since the power station in north Bohemia providing the capital's light will be in Germany as soon as the center of the Sudeten regions is effected.

Some of central Europe's largest steel mills, although remaining within Czechoslovakia—where steel plants are forged for the British navy—will lose their fuel supply.

All of France's newspapers set their paper from plants in territory to be ceded. They will have to build new plants in the forests of Slovakia.

Since new frontiers will cut deeply into existing communications it will be necessary to build new roads

Cession of Sudetenland Cuts Off 40 to 100 Per Cent of Certain Plants — Fear of Lowered Living Standards.

LONDON, Sept. 30.—Czechoslovakia glumly weighed the price of the Munich peace today and decided it spelled virtual ruin for the war-torn republic.

Well-informed Czechoslovakians feared that Germany's trade-barter system and lowered living standards were waiting to engulf them in an uncertain future.

Inevitably, they said, what was Czechoslovakia until now would be forced to accept just what Germany was willing to give and would be compelled to live within a regimented state economy such as Field Marshal Hermann Wilhelm Goering, chief of the Nazi four-year plan, has modeled in Germany.

Until now Czechoslovak economy has been liberal, they said, corresponding to American or British standards. In the future, they predicted, it will become like those of Germany and Italy, where producers make what they are told.

"We are bound to have a state economy," one authoritative Czechoslovak said, "in order to co-ordinate the rebuilding of our country."

"We shall need a loan—perhaps \$250,000,000—for this rebuilding."

This source indicated credit would be offered by Germany on such easier terms than by Britain and, he reflected, "who knows? We may take it from the Reich?"

Until some years ago about four-fifths of Czechoslovakia's industry was located in Sudetenland. During the minority strife of the past five years, however, about half of the Sudetenland industry has been moved to the interior.

Some Industrial Losses. Here is what the loss of Sudetenland means to Czechoslovak industry on the assumption that the Munich agreement involves the cession of as much territory as did the first British-French plan:

The country will lose not only most of its raw materials but also its exportable manufactured goods. Thus, it will have nothing with which to pay for raw materials it now must import to supply its key industries.

Coal—Germany was expected to get Prague's principal coal deposits, cutting off the domestic fuel supply from virtually all key industries.

Munitions—The famed Skoda works at Pilsen, on the edge of Sudetenland, will lose their local coal supply and will have to bring coal from across the country. Their lignite—coming now from the Dux mines in Northern Bohemia—will be lost. They will have to import lignite.

Beer—Pilsen breweries will lose many of their hop fields although they will have some left.

Textile—The new Czechoslovak frontier, these sources expected, will be cut through textile areas which will mean indirectly that Prague's man-in-the-street will have to pay more for his clothes. The border will cut off factories for semi-finished goods from factories for finished goods—both under the same ownership.

Textile mills will lose their fuel supply at Schatzlar.

Thus, new factories will have to be built, coal will have to be imported and the price of cloth necessarily will rise.

Blow to Textile Industry. The blow to the textile industry possibly would be the heaviest even though it recently has experienced a serious depression with much unemployment and political unrest. It was the republic's economic white hope, nevertheless, and included hundreds of factories making knitted goods, lace, silk, velvet, carpets and gloves. Reichenberg, a thriving industrial city, is center of the textile industry. It will be lost.

Also of serious consequences will be blows to Czechoslovak porcelain and glass industries for which the country is famous.

Economic authorities estimated that loss of the 70 per cent territory—where the Sudeten German vote was 70 per cent or more in municipal elections last March—would mean the loss of 40 per cent of the nation's textile industry, 80 per cent of its porcelain factories, 70 per cent of its glass factories, 80 per cent of its musical instrument factories and 100 per cent of its glass and jewelry factories.

The heavy chemical industry, located at Falkenau and Aussig, in Western Bohemia, will be lost. A new heavy chemical industry will have to be created since supplies such as sulphuric acid must be found for the light chemical industries Czechoslovakia is to retain.

New Electric Plant Needed. Prague will have to build a new electricity plant since the power station in north Bohemia providing the capital's light will be in Germany as soon as cession of the Sudeten regions is effected.

Some of central Europe's largest steel mills, although remaining within Czechoslovakia—where steel plates are forged for the British navy—will lose their fuel supply.

All of Prague's newspapers get their paper from plants in territory to be ceded. They will have to build new plants in the forests of Slovakia.

Since new frontiers will cut deeply into existing communications, it will be necessary to build new roads and railways.

Many Czechoslovak bankers, who financed the industrial development of the Sudeten areas, will

suffer heavy losses since, apparently, there will be no compensation for ceded property.

The new state will have a surplus of food products, since it formerly was self-sufficient and now no longer will have the Sudeten industrial area as a market. Thus there may be hard times ahead for the Slovak farmers in the east.

Complicated Refugees Problem. There will be a complicated refugee problem, since Czech migrants from Sudetenland are expected to make for Prague in a chaotic stream, either penniless or loaded with German marks. This will bring unemployment to the new Czechoslovakia, said the informants here.

They said that most Germans outside the areas to be ceded are small farmers, unable to go to the Reich without ruining themselves and unwilling to go anyway.

The informants denied the truth of the German contention that since the Sudeten industries are in German-speaking areas they should be ceded to the Reich. They declared that the Sudetenland never was part of Germany and that Germans and Czechs together had formed an independent economic unit in Bohemia for nearly 1000 years.

Head of Salvation Army Cables From England: "World Will Ever Bless You."

By the Associated Press.

WASHINGTON, Sept. 30.—President Roosevelt received the following cablegram today from General Evangeline Booth, head of the Salvation Army, in Essex, England: "The world will ever bless you for throwing onto the side of peace the weight of your personal influence supported by our great American people when the destiny of nations was swinging in the balances. In the darkness God has shown His infinite light. May all men acknowledge and praise Him."

SWISS HALT MILITARY PLANS

Federal Council Reassured by Munich Agreement.

By the Associated Press.

BERNE, Switzerland, Sept. 30.—The Swiss Federal Council, reassured by the Munich agreement, decided today to halt its military preparations.

The Council had voted yesterday to call additional reservists to protect the border in the event the four-Power conference was unsuccessful.

Mussolini Dream Came True With Munich Parley

He Proposed Four-Power Pact Five Years Ago, But France Failed to Ratify When Little Entente Objected.

By ANDREW HEADING,
Of the Associated Press Staff.

WASHINGTON, Sept. 30.—Benito Mussolini's five-year dream came true with the holding of the four-Power conference in Munich.

For five years he has promoted the idea of collaboration among the four big nations of Europe—Britain, Germany, France and Italy. Mussolini never let his idea die. The project of a four-Power treaty bobbed up from time to time in the Italian press.

And now Mussolini sees his idea in action. The four Powers he had in mind were gathered about one table in Munich. Out of their conversations might conceivably come a four-Power pact, possibly a substitute for the Locarno treaty of 1925 whereby Britain and Italy guaranteed France from attack by Germany and Germany from attack by France.

The writer was present at the birth of his idea of a four-Power pact in the spring of 1933. Prime Minister MacDonald of Great Britain went to Italy from London and for the final stage of his trip took an airplane from Genoa to Rome. Mussolini was at the airport to meet him. After the greeting, they got into

an automobile for the drive to Rome. Enroute Mussolini drew a paper from his pocket, read it to MacDonald and handed him a copy. It was the first draft of the four-Power pact.

In Rome MacDonald studied it and told correspondents he thought it a good idea. He said that, with some modifications, he would recommend it to his Government.

After several days in Rome, MacDonald returned to London. In the meantime the project was also communicated to Paris and Berlin.

Laborious discussions followed, during which the French Foreign Office diluted the pact. Negotiations finally led to the initialing of the pact by the four Governments concerned. It appeared that Mussolini had put over his idea and that Europe would be governed by a four-Power directorate, all guaranteeing not only peace among themselves but also peace with and between other nations.

But Poland and the Little Entente nations of Czechoslovakia, Rumania and Yugoslavia became alarmed. They thought the pact would interfere with France's treaty obligations toward them. They continued to bring pressure to bear on France and she failed to ratify the agreement.

SENATOR BURKE SEES MERIT IN GERMAN SUDETEN DEMAND

Approves Editorial That Justice Is Not Injustice Because Insisted on By Dictator.

NEW YORK, Sept. 30.—Senator Edward R. Burke (Dem., Nebraska), said last night on his return from a European tour that he saw "a great deal of merit in the proposal that the Sudeten areas go to Germany."

"I don't like the way they have gone about it," he said, "but there can be no real settlement of the matter until that is done. Looking back, it seems now that the boundary drawn between Germany and Czechoslovakia was a great mistake."

"I think an editorial in the London Times described the situation when it said that justice was not injustice simply because it is demanded by a dictator."

Burke visited England, Germany, Holland, France, Italy, Switzerland and Belgium to study labor conditions. Much could be learned on this subject from Great Britain, he said.

"All classes in Great Britain want to keep the Government out of labor relations," he said. "The British worker has shorter hours and better pay for overtime than anywhere else. There is a feeling on

both sides of making business successful."

One of the first changes in the Wagner Act, he said, should be to strip the Labor Board of judicial power.

POPE JOYFUL OVER ACCORD

His Peace Appeal Over Made Was Physical Effort.

CASTEL GANDOLFO, Sept. 30.—Pope Pius XI, informed of the Munich four-Power accord after mass this morning, expressed great joy to those about him.

Vatican sources said it had been a considerable physical strain for the Pope to broadcast his appeal for peace in a radio address yesterday. His physical condition today was described as good.

Vienna Slovaks Thank Hitler. VIENNA, Sept. 30.—Several thousand Slovaks residing in Vienna sent a telegram to Adolf Hitler yesterday thanking him for "defending the right of existence of nationality groups in Czechoslovakia." The communication was addressed to the Fuehrer, after a mass demonstration participated in by Slovak refugees from Czechoslovakia. The demonstrators announced formation of a legion of "independent free Slovaks" which appealed to brethren at home not to let themselves be intimidated.

DRIVE ON LIQUOR LAW VIOLATORS IN COUNTY SOON

E. J. McMahon, State Supervisor, Says His Campaign Will Cover Unincorporated Sections.

DRAWN CITATIONS AGAINST 12 TAVERNS

Expects to Have Situation Under Control in Two Months—500 Bars in Area Affected.

A drive to reduce widespread violations by taverns in unincorporated areas in St. Louis County of the State law prohibiting sale of hard liquor by the drink will be opened in the next few weeks, E. J. McMahon, State Supervisor of Liquor Control, said to a Post-Dispatch reporter today.

Asserting that he was "very much displeased with conditions in St. Louis County," McMahon said he already was preparing citations against 12 taverns for such violations and that he expected to have "the situation under control in not more than two months."

When asked about efforts of the Sheriff's office to enforce the State law making illegal the sale of liquor by the drink in unincorporated areas, Chief Deputy Sheriff A. J. Willmann said most of the taverns licensed only for the sale of 3.2 and 5 per cent beer were violating the law. It was estimated by the County Comptroller's office that approximately 500 taverns were in business in unincorporated districts in the county.

Many Arrests, No Warrants.

Willmann declared that Sheriff's deputies had made more than 100 arrests on those charges in the last year, but that the Prosecuting Attorney's office had issued no warrants. He said also that deputies were hampered by the fact they are known by tavern keepers, making it almost impossible to obtain evidence of a sale. Prosecuting Attorney M. Ralph Walsh could not be reached.

"I have no way of estimating the number of taverns violating the law," McMahon said, "but unquestionably they are numerous. I was forced to fire two of my agents recently because I thought they were not making a sufficient number of cases. At present my office has only two men to supervise the 4000 licensed places in St. Louis and St. Louis County. I will send at least two additional men into the county. The job is large enough to keep six men busy."

What State Law Provides.

The State law makes provision for the issuance of full liquor licenses in incorporated areas, and limits the sale in unincorporated areas to 3.2 and 5 per cent beer and hard liquor by the package. Many of the taverns violating the law are situated in Wellston, Pine Lawn, Overland and Lemay, and others are scattered along principal highways into St. Louis.

While there has been little enforcement by county officials, the State liquor agency has made only one notable effort toward control since the passage of the law. Last March, before the dismissal of the Thomas F. Fitzgerald, McMahon's

James Roosevelt Leaves Hospital

THE President's son and his wife after he left the Mayo Clinic in Rochester, Minn., yesterday. He will rest in a private home there for a few days before leaving for a western ranch.

ROOSEVELT LEAVES HOSPITAL

President's Son to Rest a Week, Then Go to California.

By the Associated Press.

ROCHESTER, Minn., Sept. 30.—Slightly paled but cheerful and smiling, James Roosevelt, son and personal secretary of the President, left St. Mary's Hospital here late yesterday for the home of a Rochester friend.

Convinced after an operation at the Mayo clinic Sept. 11 for a gastric ulcer, James, eldest son of the President, planned to remain in Rochester for a week before going to California.

DEWEY STAYS AS PROSECUTOR DURING POLITICAL CAMPAIGN

Says He Will Resign on Dec. 31 If He Is Elected Gov.

By the Associated Press.

NEW YORK, Sept. 30.—District Attorney Thomas E. Dewey, nominated by the Republicans for Governor, said today he intended to retain his office as prosecutor during the political campaign and, if elected the State's chief executive, to relinquish it on Dec. 31.

He added, in a press conference, that his campaign would not interfere with the efficiency of the District Attorney's office, adding he had 72 assistants who could carry on.

predecessor, the revocation of two licenses was ordered and the licenses of 30 other taverns were suspended for 30 days.

The cases against the 33 taverns were made by two inspectors in three days. They were shifted from Kansas City to make a special investigation of conditions in St. Louis County.

County Comptroller Edwin O. Harper, who estimated that beer county licenses had been issued to 500 places in unincorporated areas, declared the County Court had no authority in enforcing the law.

"The County Court," he said, "doesn't even have the power to refuse to issue a license, and State law gives it no powers of revocation. When tavern operators refuse to obtain licenses, the only action the court may take is a civil suit."

McMahon said he thought the Legislature at its next session would adopt a measure placing the issuance of licenses in the larger counties on the same basis as in cities. The proposal was defeated at last session.

PRESIDENT'S ADVISER RETURNS FROM EUROPE

Secrecy Surrounds Arrival of Ben Cohen, Who Says He Was 'on Vacation.'

By the Associated Press.

NEW YORK, Sept. 30.—Benjamin V. Cohen, young governmental lawyer and confidential adviser of President Roosevelt, returned last night on the Manhattan from what he described as a two-week "vacation" in Europe.

The taciturn White House confidant was met down the bay by his close friend and co-worker in the New Deal administration, Thomas Corcoran.

Ship reporters and customs agents said they could not recall any arrival of celebrity, diplomat or incognito royalty protected by more elaborate precautions for secrecy.

Corcoran left the Federal large office at the Battery in a special cutter, reportedly accompanied by several Treasury agents, half an hour ahead of the regular cutter.

When the liner passed quarantine the regular cutter was left behind by the Manhattan and was not permitted to come alongside until the ship reached the Statue of Liberty.

On the ship, it was said, Commodore A. B. Randall, master of the Manhattan, had given orders that no one was to be allowed on board until he gave the word.

Purser, stewards and other members of the ship's crew denied Cohen was on board. Reporters found him on the promenade deck, talking with friends.

A reporter asked him: "You are credited with being one of the two men—three including President Roosevelt—who run the affairs of the country, and as such an important figure do you return with any new ideas?" "No," Cohen said. "No new ideas. I've simply been on vacation."

He said his official title was Counsel of the National Power Policy Committee.

"As a voter and citizen, do you favor a third term for President Roosevelt?" he was asked. "I'm not in politics," Cohen replied.

"A lot of people think you are," an interviewer said. Cohen laughed and walked away.

He said that while abroad he paid his respects to Ambassador Joseph P. Kennedy in London, but conducted no business for the President, the State Department or any other governmental agency.

assistants to the United States Attorney in New York, and John T. McLaughlin of the Federal Bureau of Investigation.

Their path was to have crossed that of Mrs. Marie Griebel, wife of Dr. Ignatz Theodore Griebel, a fugitive in the Government's espionage case. Freed from \$5000 bail after being held three months as a material witness, Mrs. Griebel sailed last Saturday on the Italian liner Conte di Savoia.

1923 CLEW TO PISTOL IN SCHADING MURDER

Weapon in Police Department of Abilene, Kan., at That Time.

By the Associated Press.

The .45-caliber Colt's automatic pistol, one of the weapons used in the murder of Arthur Schading, business agent of the Electricians' Union, was owned by the Police Department of Abilene, Kan., in 1923, it was learned today by the Post-Dispatch in tracing the weapon. It has not yet been determined who had the weapon since the murder.

The pistol was sold by the Colts Patent Firearms Co. of Hartford, Conn., on Oct. 13, 1922, to the Co. of St. Joseph, Mo. Ten days later the hardware company sold the pistol to Harry G. Meek, who then was in the merchandise business in Holland, Kan.

Meek, now manager of a mail order house at Oskaloosa, Ia., said to a reporter today over the telephone that he kept the pistol less than a year and sold it to Henry Engle, then Chief of Police of Abilene, Kan. After purchasing the revolver for protection from robbers, Meek had moved from Holland to Abilene.

Engle died five years ago and his brother, William G. Engle, who operates a creamery at Abilene, said that he had received all of the Police Chief's possessions.

The only weapon he had at the time of his death was a .32 caliber revolver, which was the weapon he customarily carried on duty. Engle said he found no .45-caliber automatic.

The pistol, which ballistics tests showed had been one of the weapons used to kill Schading, was found by a pedestrian two days after the murder in a plot of grass on the east side of Whittier street, near Maryland avenue.

A .32-caliber revolver, which ballistics tests showed was the other weapon used to kill Schading as he left the union hall at Gibson and Boyle avenues Sept. 18, was found soon after the shooting in a vacant lot on Chouteau avenue. It had been stolen from the Geller, Ward & Hamer Hardware Co. here in 1920. There was no fingerprints on the weapons.

LLOYD'S OF LONDON REDUCES WAR RISK INSURANCE RATES

By the Associated Press.

LONDON, Sept. 30.—Settlement of the Czechoslovak crisis caused a sharp drop in war risk insurance rates today.

A temporary schedule revision by Lloyd's makes the rate for local Mediterranean voyages one-fourth of one per cent as compared with 5 per cent previously.

Voyages through the Mediterranean were reduced from 5 per cent to five-eighths of 1 per cent. Insurance on voyages to the United States was quoted at one-eighth of 1 per cent and for the homeward voyage from America at one-fourth of 1 per cent, down from one-half of 1 per cent and 1 per cent respectively.

MOSCOW GLOOMY OVER AGREEMENT

Geneva Correspondent Attacks Committee "for Coordination of Aggression."

By the Associated Press.

MOSCOW, Sept. 30.—Reaction in Soviet Russia to the Munich agreement was anything but favorable.

Neither Pravda, the Communist party organ, nor Ivestia, the Government newspaper, commented editorially today but it was generally considered that their gloomiest predictions had been fulfilled.

Ivestia's Geneva correspondent, however, bitterly assailed Britain and France, describing the four-power conference on the German-Czechoslovak issue as a "committee for the co-ordination of aggression."

He declared the western democracies yielded not merely because of weakness or fear in the face of Reichsfuehrer Hitler's armed force but for fear of giving arms to their own populations.

He declared also that "the social and political class regime is essentially the same in both the aggressor and capitulating countries."

As for the League of Nations, he asserted, "it has ceased to exist."

He declared that "the social and political class regime is essentially the same in both the aggressor and capitulating countries."

GERMAN ENVOY DENIES STORY OF BUND CONNECTION

Ambassador Says There Is No 'Understanding' as Testified to by House Investigator.

CHARGE OF DIRECT TIE-UP REPEATED

Witness Asserts One Document Lists A. F. of L. as One Source of Literature—Swastika Tie-Pin.

By the Associated Press.
WASHINGTON, Sept. 30.—Dr. Hans Dieckhoff, German Ambassador to the United States, assured the State Department today there was no "understanding" between the German-American Bund and German envoys in this country.

The House committee investigating un-American activities was told yesterday there was such a connection. The testimony came from John C. Metcalfe, a committee agent, who quoted Fritz Kuhn, the Bund's leader.

While the Ambassador was at the State Department, the Embassy issued the following statement, which it said was in substance what Dr. Dieckhoff told Sumner Welles, Undersecretary of State:

"The German Government has always taken the point of view that the Amerika-Deutscher Volksbund is to be considered as a purely American affair. There has never existed any open or secret 'understanding' between the Bund and the German Ambassador, the German Embassy, or the German consulates.

"On the contrary, for a long time all German nationals have been strictly prohibited to be or to become members of the Bund, in view of the fact that it is their duty to refrain from any interference in internal American affairs.

Government of the United States is informed about this point of view adopted by the German Government."

"Unfair Statement."
Meanwhile, Representative Dies, the committee chairman, accused Dr. Hans Thomsen, German Embassy counselor, of issuing an "unfair statement" of Metcalfe.

He quoted Thomsen as saying Metcalfe was "not a trustworthy person" and suggested that, if the committee wanted facts, it question Kuhn himself.

Dies said evidence was almost conclusive that Kuhn had issued orders to all Bund posts to destroy their records immediately after the House created the investigating committee.

Kuhn would be welcome as a witness, Dies said, if he would produce books, records and financial statements and explain correspondence which the committee viewed as showing "a close connection between the Bund and the German Government."

Metcalfe, appearing for the third day as a witness, said he would leave the question of his integrity "to Americans who are in better position to judge my responsibility."

Charge Is Repeated.
"We have charged, and we continue to charge," he said, "that there is a direct tie-up between the German-American Bund and the Nazi Government. Dr. Thomsen's own statement proves it. If there was no tie how would Thomsen be able to say: 'I know that (Kuhn) has said no such things.'"

He said the attaché failed to mention that his country's consul in the United States "were the first to use their diplomatic immunity to foster hatreds, to buy propaganda with cash that they hoped could not be traced, and urged a loyalty and allegiance to Germany after the men and women had sworn they wanted to become American citizens."

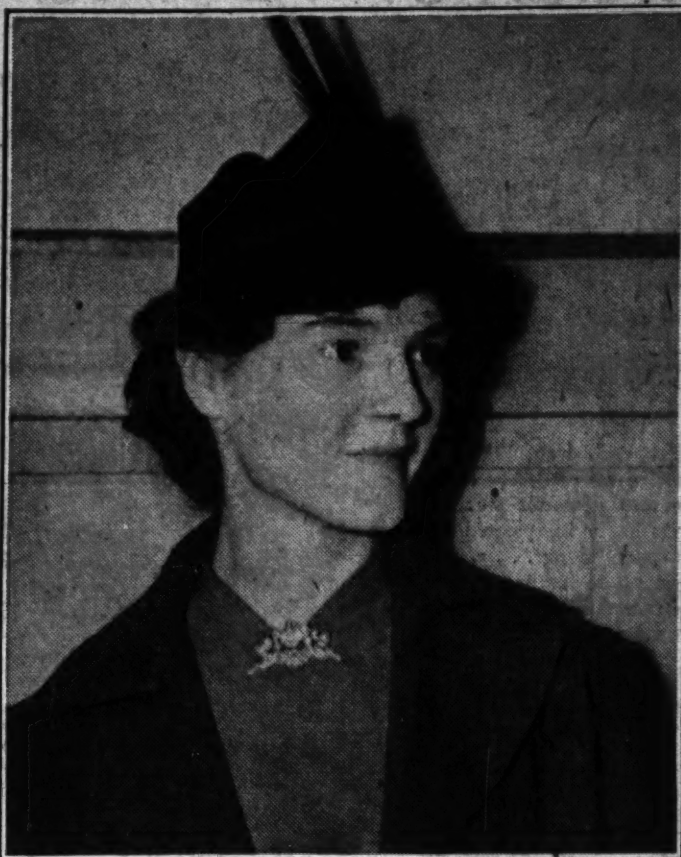

Propaganda Activities.
Later Metcalfe discussed in detail and propaganda activities which he attributed to the Bund. He listed the German Business League, commonly called the DKV, as one of the chief sources of funds. The League, he said, is designed to counteract boycotts of Nazi goods, and Bund members pledge themselves to buy only from DKV members. The New York DKV, he said, is reported to have more than 300 members among New York merchants alone.

Bund leaders, the investigator testified, have stated repeatedly that the organization is in need of funds. "Yet, he added, it is able to purchase and lease camp sites and pay out thousands of dollars for construction of buildings." He said Kuhn contemplated spending \$2,000,000 for a building in or near New York City to house the national headquarters.

The investigator produced several packages which he said contained Nazi propaganda printed in Germany; Fascist propaganda printed in Great Britain; and material of anti-racial and anti-religious character printed in America, shipped to German Government agencies, and then sent back to the United States.

As one of the chief Nazi propaganda agencies shipping material to the United States and elsewhere, Metcalfe named the American section of the World Service, in charge

Breach of Promise Winner and Loser

—Associated Press Wirephoto.
MISS ELSIE KADLEC.

of Johannes Klaproth. He said the agency's headquarters was in Erfurt, Germany.

The propaganda, he added, contains Nazi literature from the pen of Ernst Goerner of Milwaukee, who, he said, had been falling material of vicious characters to all parts of the country and "is deeply linked with sundry subversive movements in this country."

Says A. F. of L. is on List.
He said one document lists these as organizations which should be supported and from which which literature may be obtained.

The new Federalist, Wichita, Kan., edited by Rev. Gerald B. Winrod; Fidelity Publishers, Asheville, N. C., edited by William Dudley Pelley, chief of the Silver Shirts; the American Federation of Labor, Washington, D. C.; Industrial Control Reports, Washington, D. C., published by James True Associates.

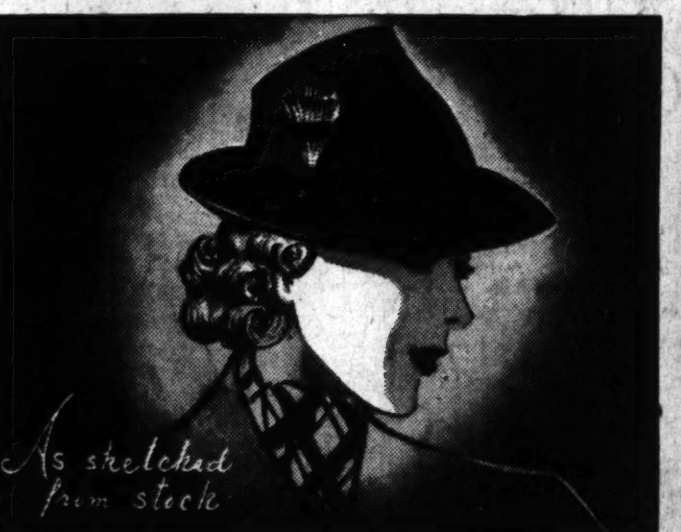

Metcalfe said a pertinent item of Nazi propaganda of American origin was entitled "Stepchildren of Czechoslovakia" and "edited by Viola Bodenschatz of Louisville, Ky. He said Karl Neumeister, New York City, was responsible for the distribution weekly of material containing Julius Streicher's "Stuerner" newspaper from Germany.

Metcalfe said he had interviewed Neumeister, who admitted disseminating propaganda for German agencies and was "so brazen in his declarations and attitude that he even came to an executive session of a subcommittee of this committee with a swastika tie-pin."

Quoting a statement which he said was made to him by Kuhn, Metcalfe told the committee yesterday co-ordination between the Bund and the Nazi Government had brought about the recall to Germany last year of Ambassador Hans Luther, who was replaced by Dr. Dieckhoff, the present Ambassador. Dieckhoff, he said, had a "secret relationship" with the Bund as did "German consuls throughout the country."

"Arrangement With Hitler."
Metcalfe testified that Kuhn declared he had a "special secret arrangement directly with Adolf Hitler."

Metcalfe related information as to how Bund leaders regarded several German official representatives in this country. This information was obtained, he said, while he was a member of the German-

WOMAN WINS \$875 ON BROKEN PROMISE

Chicago Jury Finds for Elsie Kadlec Against Edward I. Tureczek, St. Louis.

Special to the Post-Dispatch.

CHICAGO, Sept. 30.—Miss Elsie Kadlec, Chicago stenographer, received a judgment of \$875 today in her \$25,000 breach of promise suit against Edward I. Tureczek, St. Louis hardware dealer.

Motions for a new trial will be heard Oct. 7. The jury deliberated three hours and 20 minutes before reaching a verdict.

Both to the jury they became engaged to marry in December, 1933, after a meeting at the Century of Progress Exposition had renewed a childhood friendship.

What the jury had to decide was who broke the engagement.

Tureczek's version was that Miss Kadlec, who had been visiting the home of his parents at 43324 Eichberger street, over the hardware store, broke the engagement when she left there Sept. 11, 1934.

Meeting on Stairway.
She met him on the stairway, suitcases in hand, and demanded, without giving any explanation, that he take her to the railroad station at once, Tureczek testified.

He did, and when he returned home he found on a buffet a bracelet and the diamond engagement ring he had given her.

Moreover, Tureczek testified, Miss Kadlec had other boy friends. "There was Jimmy Merlink, who used to work in her father's tavern," he said. "When she came to see me in St. Louis she talked about him all the time. She even asked my permission to go out with him."

"He wasn't the only one, either. There was Laurie Arden, a neighbor boy, she liked pretty well. "After telling me of her other boy friends, she left me. She even sent back \$20 which we were saving for our honeymoon."

Letters to "Dear Pal."
Tureczek's attorney, over the protest of Miss Kadlec's counsel, read to the jury parts of two letters she had written to Merlink. They addressed him as "My dear pal," told him she was homesick, and assured him she would return home "unattached."

Miss Kadlec admitted her friendship for Merlink, but said Tureczek "knew all about it."

"I told Eddie how the other boys loved me," she said, "but that I was choosing him."

She left the diamond ring in St. Louis, she said, because it belonged to Tureczek's mother before he gave it to her. A ruby ring she wore on her "engagement finger," also the gift of Tureczek, was offered in evidence.

"I loved the ruby ring Eddie gave me," Miss Kadlec testified, "but the other, his mother's, I didn't mind giving up."

Miss Kadlec is 29 years old, and Tureczek is 34. Her suit was filed three years ago, a month before the Illinois Legislature, by statute, outlawed suits for breach of promise.

SHOTGUN FALLING, KILLS CHILD

Victim's Sister Wounded By Discharge at Steel, Mo.

By the Associated Press.

BLYTHEVILLE, Ark., Sept. 30.—Two-year-old Howard Frost was killed and his sister, Vernette, 5, seriously wounded Wednesday night by the accidental discharge of a shotgun at their temporary home near Steel, Mo., where the family has been picking cotton.

Officers reported the children were wounded when their brother, Charlie, "attempted to get the gun down from a rafter and fell, causing the weapon to discharge."

HUNGARY SEEKS DEAL ON MAGYAR ISSUE SOON

League Demanding Czech Border Revision Says Daladier Seems to Oppose It.

By the Associated Press.

BUDAPEST, Sept. 30.—Hungary apparently was concentrating all attention today on revision of its border with Czechoslovakia as a result of the four-Power conference in Munich yesterday.

The agreement reached there prepared the way for satisfaction of Hungary's demands for allies of Czechoslovak territory.

It seems certain that the Hungarian Government will have the support of all factions, including otherwise oppositionist Nazis, until a complete settlement of Czechoslovakia's nationalities issue is reached.

The newspaper Orsi said the return of former Hungarian territories apparently was assured.

Hungarian revisionist circles approved of the Munich plan for negotiations with Czechoslovakia. They said Hungary would demand unconditional return of Magyar-inhabited frontier regions in which more than 1,000,000 Magyars live.

Daladier Seems Opposed.
The director of the Hungarian Revision League, said, said, declared Hungary had the promise of British Prime Minister Chamberlain, Italian Premier Mussolini and Reichsfuehrer Hitler for complete settlement of the issue.

He said only French Premier Daladier seemed opposed.

"Those statesmen," he said, "have agreed on the principle of self-determination and we, therefore, insist on the same treatment for our Magyar brethren as granted to the Sudetens."

"We welcome the achievements of the conference and are ready to occupy the Magyar regions in Slovakia."

"We also are willing to abide by the results of a plebiscite in Slovakia and in Ruthenian areas."

"Then only will there be permanent peace in this part of Europe. We are certain Ruthenians and Slovaks, who will naturally obtain full autonomy, will be only too glad to join hands for prosperity and peaceful conditions."

Difficulties Predicted.
A Foreign Office spokesman said the Hungarian Government, while accepting the Munich verdict, saw difficulties ahead now in the reaching of an agreement between Czechoslovakia and Hungary concerning the return of Hungarian-inhabited Czech regions. Some believed no settlement could be possible without another four-Power conference.

It was agreed in Munich to meet in three months if the questions of Polish and Hungarian minorities in Czechoslovakia had not been settled meanwhile.

Peter Lloyd said another Hungarian demand was that Slovaks in Czechoslovakia should decide in a plebiscite whether they preferred to be autonomous within Czechoslovakia or join Hungary. Some Hungarian newspapers said the situation of Hungarian minorities in Czechoslovakia remained "intolerable."

Balkan Capitals Sing and Dance All Night Celebrating Munich Pact.

BELGRADE, Sept. 30.—Thousands of Southeastern Europeans celebrated "the new peace treaty of Munich" all night by singing and dancing in streets and coffeehouses of Belgrade, Bucharest and Sofia.

Some Belgian diplomatic circles, however, held France and England responsible for "betraying Czechoslovakia for the second time in a month."

600 COAL MINERS STILL OUT IN STRIKE NEAR DU QUOIN, ILL.

Union Head and Company Officers Confer on Dispute O'Over Overtime Pay System.

DU QUOIN, Ill., Sept. 30.—About 600 coal miners of the Kathleen Mine of the Union Colliery Co. at Du Quoin remained on strike today during an argument concerning overtime pay.

Ray Edmundson, State president of the United Mine Workers, conferred with company officers yesterday but no settlement was announced. The Mine Pit Committee contended that the contract called for overtime pay of time and a half for all work exceeding 35 hours a week, but that the company was employing other men for the overtime, at the regular wages.

Company officers said they were maintaining the spirit of the contract by encouraging employment in hiring additional men for the overtime work.

BOYD-RICHARDSON

HEINLEIN HAILS HITLER AS SUDETEN DELIVERER

Fuehrer's Anschluss Will
Cause Rejoicing for Three
Generations.

By the Associated Press.
DRESDEN, Germany, Sept. 30.—Heinrich Himmler, leader of the German National Socialist party, today hailed Adolf Hitler as "deliverer" of 3,500,000 Sudeten Germans.

"In the name of Sudeten Germany, tormented and oppressed for 20 years, I thank you, my Fuehrer, from a deeply moved heart for the freedom which you have won for us by fighting," the message read.

Himmler on Sept. 15 issued a proclamation calling for German annexation of Sudetenland and on the same day the Prague Government ordered his arrest on a charge of treason.

He fled into Germany and organized a paramilitary organization of the Sudeten Free Corps, irregular soldiers, to harass Czechoslovak authorities along the border. On Sept. 16 the German party was outlawed in Czechoslovakia.

Himmler's telegram continued: "Children and their children's children still will praise the day on which you my Fuehrer transformed the unspeakable sorrow of millions into intense rejoicing and proud confidence through the Anschluss (union) with the great German Reich."

"Words are too weak to express how we all feel toward you in this moment."

"The deep thankfulness the entire Sudeten German will stand behind its deliverer at all times in the most loyal adherence."

600 COAL MINERS STILL OUT IN STRIKE NEAR DU QUOIN, ILL.

Union Head and Company Officers
Confer on Dispute Over
Overtime Pay System.

By the Associated Press.
DU QUOIN, Ill., Sept. 30.—About 600 coal diggers of the Kathleen mine of the Union Colliery Co. at Du Quoin remained on strike today during an argument concerning overtime pay.

Ray Edmundson, state president of the United Mine Workers, conferred with company officers yesterday but no settlement was reached. The Mine Pit Committee contended that the contract called for overtime pay of time and a half for all work exceeding 35 hours a week, but that the company was employing other men for overtime, at the regular wages.

Company officers said they were maintaining the spirit of the contract by encouraging employment in hiring additional men for the overtime work.

HULL ADVISES NEW VIGILANCE FOR PEACE

No Expression on Merits of 4-
Power Action in Sounding
Hope of "Order Under Law."

By the Associated Press.
WASHINGTON, Sept. 30.—Secretary Hull said today that, following the four-power Munich agreement, he hoped efforts would be "redoubled" to maintain "principles of order under law, resting on a sound economic foundation."

The Secretary authorized this direct quotation:
"As to immediate peace results (of the Munich accord), it is unnecessary to say that they afford a universal sense of relief."

"I am not undertaking to pass upon the merits of the differences to which the four-power pact signed at Munich yesterday related."

"It is hoped that in any event the forces which stand for the principles governing peaceful and orderly international relations and their proper application should not relax but redouble their efforts to maintain these principles of order under law, resting on a sound economic foundation."

The Secretary added praise for the co-operation he received during this crisis from his associates in the state department and in the foreign service.

HELD IN THEFT OF \$1013 IN PEN AND PENCIL SETS

Man Returned Here From Kansas
City; Police Say He Admits
Burglary.

James Ryan, arrested Wednesday at Kansas City, Mo., was returned here last night to face a charge in connection with the theft of pen and pencil sets, valued at \$1013, from the Comfort Printing & Stationery Co., 107 North Eighth street, last Sunday night.

Police said Ryan had admitted breaking into the place and stealing the sets. Kansas City police reported they arrested him when he was attempting to dispose of some of the pens and pencils and said they found most of the stolen articles in his room.

Man's Skull Fractured in Fall.
Roy F. McMillan, a clerk, suffered a skull fracture last night in a fall down a flight of stairs at a basement tavern at 5930 Easton avenue. He is 44 years old and resides at 5960 Maple avenue. He was taken to City Hospital.

BETTER OHIO ADMINISTRATION
OF OLD-AGE AID SUGGESTED

Social Security Board intimates conditions must be corrected for Federal Contributions.

WASHINGTON, Sept. 30.—The Social Security Board cited 12 instances of alleged inefficiency today in the administration of Ohio's old age assistance and intimated these would have to be corrected if Federal contributions were to continue. The board said in a formal statement:

"There is ample time before the next (monthly) checks are sent out to Ohio's needy aged for the chief of the Ohio division of aid for the aged to make the necessary improvements in administration as set forth in the findings of the board and as required by both the Social Security Act and the Ohio law."

The board said the Federal share of September pension checks was sent to Ohio within the last few days and the State therefore had nearly a full month to correct the deficiencies cited without causing any delay in Federal payments.

MUNICH NEWS
BRINGS RELIEF TO
ALL OF GERMANY

Broadcast of Peace Agreement After Midnight Listened to by Millions Throughout Country.

HONORABLE SOLUTION FOR ALL, PRESS SAYS

Propaganda Ministry Declares It Is 'Our Wish Now That Poles and Hungarians Gain Liberty.'

By the Associated Press.
BERLIN, Sept. 30.—Millions of Germans joyfully heard "there will be no war," when news from Munich was broadcast long past midnight.

When word came that the statesmen of Italy, Germany, Britain and France had reached peaceful agreement, German radio listeners sighed with relief.

The Munich radio announcer, closing his announcement of the agreement, testified to that happiness at the peaceful turn of events. "Our most heartfelt greeting to the Fuehrer," he declared.

Newspapers headlined the settlement, "Sudden Germany will be free," and "an honorable solution for everybody."

"Four Fit Together."
"These four men represent the real European Power," said the Deutsche Allgemeine Zeitung. "They fit together, each knowing the responsibility of joint tasks."

The propaganda Ministry spokesman declared: "We welcome the Munich accord as the result of the joint efforts of four great European Powers. . . . We in Germany thank the Fuehrer especially, but also highly esteem the work of representatives of Great Britain, France and Italy."

"It is our sincerest wish that other minorities (Poles and Hungarians) soon will obtain their liberty."

Newspapers printed long eulogies of Hitler, Mussolini, Chamberlain and Daladier.

Mr. Minister Goering's newspaper, the Essener National Zeitung, referred to the absence of Czechoslovak representatives from the Munich conference table and said: "It was a tactful stage setting to spare the Czechs because it was never intended to force them into the role of defendant who is summoned before a forum of four European Powers."

"An Opponent We Distrust."
Any alteration in the German occupation plan, the paper added, should not be interpreted as a sign of German weakness because "this stage-by-stage occupation of the Sudetenland by German troops seems the most natural way to meet an opponent whom we distrust."

About international conferences (at which Hitler has sneered) the Deutsche Allgemeine Zeitung said: "Munich inaugurated a new era of conferences. From the beginning to the end, the conversations in spirit and execution had nothing in common with the antiquated system of international conferences."

"Munich inaugurated a new era of conferences. From the beginning to the end, the conversations in spirit and execution had nothing in common with the antiquated system of international conferences."

MAN DURING NIGHTMARE
SHOOT TO DEATH STEPSON

Boy, 9, Fatally Wounded at Frankfurt, Ky.; Similar Occurrence at Frederick, Md.

By the Associated Press.
FRANKFORT, Ky., Sept. 30.—Ballard Rucker Jr., 9 years old, was fatally wounded early today, police said, by a pistol bullet fired by his stepfather, George Taylor, during a nightmare. The bullet passed through the wall separating the rooms in which they were sleeping.

Taylor told officers he dreamed he heard a noise in the house and, before regaining consciousness, fired the pistol which he keeps at his bedside.

FREDERICK, Md., Sept. 30.—Curtis Houck wounded his father seriously with two pistol shots at their home early today while having a nightmare, State's Attorney Sherman P. Bowers said.

The father, Raymond Houck, trackman for the Pennsylvania Railroad, is in the hospital here with bullet wounds in his abdomen and leg.

Curtis Houck stated he knew nothing of the shooting until his wounded father cried "Put that gun down," authorities said.

AUGUST MILK CONSUMPTION UP

Increase 2.8 Per Cent Over July, Health Commissioner Reports.
Health Commissioner Joseph F. Bredeck said today milk consumption in August in the St. Louis metropolitan area increased 2.8 per cent over July. The August consumption was 15,859,417 pounds.

The increase, Dr. Bredeck said, was "encouraging" but milk consumption in St. Louis is still 50 per cent below the minimum dietary requirement of a pint a day for each person.

PRE-PROHIBITION CONDITIONS
APPROACHING, SAYS TUNNEY

Ex-Boxing Champion, Now a Distiller, Declares Liquor Makers Have no Moderation.

NEW YORK, Sept. 30.—Gene Tunney, chairman of the board of the American Distilling Co., said yesterday that pre-prohibition conditions were approaching the liquor industry. He told a gathering of the United Restaurant Liquor Dealers of Manhattan at Palm Garden here that unless this organization and its like did something a chaos would ensue. The former heavyweight boxing champion said:

"It's gradually getting around to the conditions that prevailed before prohibition. You're going to have a 5-cent beer and 5-cent liquor, of bad quality—bootleg, possibly, since it can't be sold legally at that price because of the tax. A different type of man will appear in your business and you people of ideals and principle will be driven out."

"There's no moderation on the part of distillers," Tunney told the restaurant keepers. "The whole difficulty of moderation devolves on your shoulders. You must see that business is done on a high plane and that moderation and temperance, which is after all what we all want, is really practiced."

Body in River Identified.

A body removed from the Mississippi River at the foot of Chouteau avenue yesterday was identified last night as that of William A. Holcomb, 27 years old, drowned last Friday night when he fell from the deck of the Federal Barge Lines' towboat, S. S. Thorpe, at the water. He resided at Cairo, Ill.

DEWEY PROMISES WAR ON CRIME IF MADE GOVERNOR

Prosecutor Nominated by
Republicans Says in Ac-
ceptance Era of Contempt
of Law Is at End.

CROOKS' TIES WITH
POLITICS CONDEMNED

Platform Also Denounces
Use of Relief Money in
Politics — John Lord
O'Brian Senate Nominee.

By the Associated Press.
SARATOGA SPRINGS, N. Y.,
Sept. 30.—Manhattan's prosecutor,
Thomas E. Dewey, candidate for
Governor, pledged New York Re-
publicans to a State-wide war on
crime just before the party's two-
day convention ended early today
with selection of a supporting
ticket.

Dewey, 36 years old, given a roar-
ing ovation after his nomination by
acclamation, asserted:
"The era of cynical contempt of
the law is at an end. . . . We need
to create a healthy environment in
our political, economic and social
life."

Dewey said that limitations have
been placed upon New York's
Democratic Governors by "the old
crowd of New York City's Tam-
many district leaders."

"Without meaning to be so, any
Democratic Governor is, perforce,
the good will advertiser, the front
man, the window dressing for what
is in part, at least, a thoroughly
corrupt machine," he said.

Explaining that his decision to
accept the nomination was not
made easily, Dewey said "had I
taken the advice that it was risky
to venture . . . into State affairs,
I should have been shirking the big-
ger job, the heavier fight."

The "racket-busting" Prosecu-
tor's supporting ticket for the fall
campaign will include:

Lieutenant-Governor: State Sen-
ator Frederic H. Bontecou of
Poughkeepsie.

Comptroller: Julius S. Roth-
stein, Ulster real estate operator.

Attorney-General: Arthur V. Mc-
Dermott of Brooklyn, Deputy
Comptroller of New York City.

Senatorial Nominees:
United States Senator (two-year
term): Edward Corsi, Deputy
Commissioner of Welfare, New
York City.

United States Senator (six-year
term): State Regent John Lord
O'Brian, Buffalo.

Representative at Large: Mrs.
Helen Z. M. Rodgers, Buffalo
lawyer, and Richard B. Scandrett
Jr., Orange County lawyer and
war veteran.

The delegates adopted a 19-plank
platform which condemned "the al-
liance between the underworld and
certain forms of politics," man-
ifesting that the party, which has
not controlled the State govern-
ment since 1922, expected to rely
heavily upon Dewey's record as a
prosecutor.

There also was a declaration that
"the use of Federal relief money
for political purposes is a disgrace."
On labor, the convention said the
party was "determined to pre-
serve . . . the right to collective bar-
gaining," adding that it favored
"preserving to employers and em-
ployees alike a genuine opportunity
for a fair hearing before State ad-
ministrative bodies."

To Prosecute Hines Case.

It had been obvious for months
that Dewey could have the nomi-
nation if he wanted it, the only
earlier question having been
whether he would accept because
of the fact that he became Dis-
trict Attorney only a year ago.

An important pending case in his
office is the retrial of Tammany
District Leader James J. Hines on
the policy racket conspiracy
charges, the first case having ended
early this month in a mistrial.

An indication that he personally
would conduct the Hines case to
its conclusion was given in his
statement that he would continue as
District Attorney until Jan. 1 if
elected Governor. The retrial has
been set for Nov. 14, the first Mon-
day after the election.

"As Governor, on Jan. 1, I shall
appoint an able and outstanding
successor," he said.

CCC to Enroll 45,000.

WASHINGTON, Sept. 30.—The
Civilian Conservation Corps will
enroll next month 45,078 young men
17 to 23 years old. They will re-
place enrollees who have dropped
out.

BUSINESS UPTURN IS MAINTAINED IN EIGHTH DISTRICT

Reserve Bank Reports Continued Improvement Through August and First Half of September.

GAIN IN PAYROLLS AND EMPLOYMENT

Building Operations Expand—Many Mills Produce at High Rate—Department Store Sales Up.

Business continued on the up-grade in the Eighth Federal Reserve District through August and the first half of September, the Federal Reserve Bank of St. Louis reported in its monthly review made public today.

Improvement which began about the middle of July, the bank reported, was quite rapid and fairly general through August, but the pace was retarded somewhat after the first week of September.

In many manufacturing lines, notably iron, steel and other durable goods, the review said, the usual summer recession was almost entirely absent. There was a marked expansion of building operations and a continued high rate of production at shoe factories, textile mills and mines.

Improvement in Employment. Decided improvement was noted in employment and payroll, but this, the bank said, would have been more marked except for the continuance of numerous strikes.

Department store sales in the principal cities of the district, which includes parts of seven states about St. Louis, showed an August gain of 14.9 per cent, compared with July, but were 2 per cent under the figure for August of last year. The cumulative total for the first eight months of this year was 7 per cent less than the total for the first eight months of last year.

August sales of wholesaling and jobbing firms were 15.4 per cent greater than in July, 3.6 per cent less than August of last year, and the eight-month total showed a decline of 14.8 per cent.

In all wholesaling and jobbing lines investigated August sales exceeded those of July, and the 3.6 per cent decrease, compared with a year ago, was the best comparative showing for any month this year.

Some Increases Above Average. The increase in some classifications was seasonal, but improvement in dry goods, furniture and hardware was larger than the average for recent years

Mrs. Weaver and Letthus are registered in the same courses. Both plan to study medicine. Mr. Weaver is night watchman of Orient No. 2 coal mine.

221 MEN AND WOMEN ARE NATURALIZED

Final Oath Administered—
9 European Countries and
Mexico Represented.

Final oaths of allegiance were administered to 221 men and women today in naturalization proceedings before United States District Judge Charles E. Davis.

Those naturalized included 216 persons of European nationalities and five Mexicans. Among them were 58 Italians, 46 Germans, 29 Britons, 23 Poles, 16 Yugoslavs, 14 Russians, nine Austrians, six Czechoslovaks and five Swis.

There were 10 American-born women who married foreigners before Sept. 22, 1922, thus losing their citizenship, under a law then in effect, but since repealed. Twenty-four of the applicants were World War veterans who served either in the American or Allied forces and therefore were not required to pay the \$10 naturalization fee.

Applications of nine other aliens were dismissed—two because of death of the applicants, one because a witness failed to qualify, and six because they had stated in their applications, untruthfully, that they had never been arrested.

The senior naturalization examiner, Walter L. Wolf, told Judge Davis that one applicant, a woman, told him she had never been arrested, but he said he found on investigation that she had shot her husband and had been arrested.

Judge Davis informed the woman that her application was dismissed, not because she had shot her husband, because she had made a misstatement of fact. He told her a new application might be considered later.

Among those who took the oath was Mrs. Irwin Barth, a Greek, of 4246 Dewey avenue. Being deaf, she received the oath in sign language through Miss Clara Steidmann, a former teacher at Gallaudet School for the Deaf.

Wolf said he recalled only five similar cases in his 27 years as an examiner.

3 STE. GENEVIEVE LIME FIRMS TO BE CITED BY LABOR BOARD

Complaint Being Prepared; Workers Have Been on Strike Since June 2.

Three lime companies at Ste. Genevieve, Mo., whose employees have been on strike since June 2, were notified today by Miss DeRoche De Schweinitz, director of the National Labor Relations Board in this district, that she was preparing a formal complaint charging them with unfair labor practices.

Miss De Schweinitz said the complaint would charge that the companies had not bargained in good faith with the International Hod Carriers' Building and Common Laborers' Union of the American Federation of Labor, and that they were seeking to undermine the union by soliciting pledges of employees relinquishing union membership.

The companies are the Bluff City Lime Co., the Peerless White Lime Co., and the Ste. Genevieve Lime & Quarry Co. About 300 employees are on strike.

BITTEN BY COPPERHEAD SNAKE

William J. Isom, WPA Worker, in Serious Condition at Hospital.

William J. Isom, a WPA worker, is in serious condition at City Hospital, where he was taken last night several hours after being bitten on the middle finger of the right hand by a copperhead snake. Charles Myers, with whom Isom lives at 5825 (rear) West Park avenue, told the Post-Dispatch today that Isom was bitten when he reached under a hole in the side of a farmhouse near Defiance, Mo., to pull out a puppy with which he had been playing. A blood transfusion was given Isom last night.

They Are Accused of Negligence in Escape of Five Men Sunday.

By the Associated Press.

CHESTER, Ill., Sept. 30.—Twelve guards at the Southern Illinois State penitentiary were suspended last night for various periods following an investigation into the escape of five long-term convicts early Sunday.

Joseph E. Ragen, superintendent of prisons, and A. L. Bowen, State welfare director, announced the suspensions. A report of their investigation was approved by Gov. Henry Horner, who came here yesterday to aid the prison authorities in their inquiry.

Several guards were cited for notorious and inconceivable negligence in the performance of duty. Others, one a deputy in charge of guards, were accused of allowing Walter Brown, identified as the leader in the break, undue and unusual privileges.

Brown, serving a life sentence for murder from McLean County, is the only one of the men who sawed their way out of the psychiatric ward to remain at large.

The men suspended and the length of their punishment: Deputy Edmund Cashman, 15 days and change of assignment to the second shift; Albert G. Bruns, 30 days; Edward Groene, 30 days; John R. Adams, 10 days; Charles Bradley, 30 days; Louis Houge, 10 days; Lacie E. Kenper, 10 days; Charles Broadway, five days; Charles D. Lashmott, five days; Charles Guilette, 10 days; Eric Tompkins, 30 days, and William Stephens, 10 days.

Ragen and Bowen also recommended that L. C. Harshbarger and Harry Sledge, guards dismissed Monday night, "never be re-employed in the State service."

The investigation said Brown obtained lumber which he used to construct a ladder. He also was allowed use of some tools without supervision. He was supposed to be in the exercise yard all day Saturday but spent most of the day on top of the cell block where he assembled the ladder, cut his way through an iron hatchway into the attic and then slashed through the sheeting of the roof.

INDEPENDENT UNION DID WORK DAMAGED BY BOMB

Organization's Secretary Reports Members of Bricklayers' Group Helped Construct Bungalow.

The brickwork on a recently completed bungalow at 5769 Tholoan avenue, damaged by a bomb placed under a back porch Tuesday night, was done by members of the Bricklayers' and Stonemasons' Union, Local No. 1, an independent union not affiliated with the A. F. of L. or the CIO, V. L. Murphy, secretary of the union, said today.

Police had quoted Harry Hardt, real estate operator and builder at the bungalow, as having said the home was built with non-union labor.

Murphy said the union had been organized four years ago in St. Louis County and had about 200 members. They are employed mostly on small home and small commercial construction, Murphy said, and the organization had had no trouble with bricklayers affiliated with the A. F. of L.

Ralston Purina \$250,000 Bonus. A \$250,000 bonus was distributed by the Ralston Purina Co. today among about 4000 employees, more than 1000 of them in St. Louis. The distribution is on the basis of 5 per cent of the annual wages of each employee on the payroll during the last 12 months. A common stock dividend of \$2 also was paid yesterday, making \$3.57 1/2 for the fiscal year.

CUBS 6

Billikens to
Veteran M
Mines Te

By James

With six players who did not start in the lineup, the St. Louis Billikens, the Missouri School of Mines eleven, will be the second game and the first for the Miners. Play

The five repeating starters for St. Louis are Gayer and Bill Cochran at the ends, Carlson at guard and Capt. Denny Cochran and Roemer at the tackles, Johnson at center, Bob Murphy at quarterback and Alex Yonabakis at fullback. Seven of the Billikens—Gayer, Johnson, Drabell, the two Cochrans, Putnam and Roemer are lettermen.

Miner Veterans. Against this battle-front, the Miners will send a veteran team which will include nine who have won football letters at the engineering school. Nevins, end, and Uelk, tackle, are the non-lettermen.

The Billikens will have a considerable advantage in the weight department. The St. Louis line will average eight pounds per man more, the backs 13.6 pounds and the team, as a whole, 10.1 pounds.

From pre-game statements by the coaches, tonight's contest may be fought out mainly on the ground. The Billikens, highly successful with their passes last season, clicked through the air only in the last minutes of last week's game which they lost to Bradley Tech, 6 to 0, and the Miners thus far have shown more power with running plays than with passes. However, the Miners always have had a passing team and, depending on circumstances, may open up sooner than expected.

Coch Muellerleile of St. Louis has some nice running backs and a large number of them. Moreover, all of his ball-carriers are in excellent shape so he may be expected to lean on several reserves to aid his starters.

Tonight, the fans are likely to see more scoring than they saw in the one touchdown game a week ago. The Billikens are smarting under the Bradley defeat and are likely to "bounce back" against the Miners who are far behind in the number of varsity-caliber reserves.

Weight Advantage. While the advantage the Billikens have in the weights appears considerable, the real reason for the difference lies in the poundage, or lack of it, carried by the Miners' quarterback, Walter Koziatek. He

COL

So This Is Racing!

CANNING FAST PERFORMANCE an entry at Fairmount. It was double and naturally one does listed in that type of event. How horses you naturally look for so haulers.

The entry in question seemed to touch a new low in merit. Listed in his past performance record were eight starts. Here was what this entry (name Nor Feng) had accomplished:

Started seventh and was pulled up after the first quarter. Refused to leave the barrier in his next start.

Pulled up after going one-quarter in his next two starts.

Broke down after running a quarter his next start.

Finished seventh by 13 lengths at five and one-half furlongs his next start.

Finished ninth by 14 lengths at 5 1/2 furlongs.

Finished eighth by 13 lengths at five and one-half furlongs his next start.

His race that day was what might have been expected—he finished last by 16 lengths.

Will someone please explain what excuse can be urged for accepting the entry of such a horse?

The Local in Betting.

A LOCAL BOOKIE already has received a wager on El Chico for the Kentucky Derby, which will be run more than eight months hence. The horse has not even been entered for the race, as yet, and we thought betting on him was about the last word in opti-

CUBS 6, CARDINALS 2 (3 1/2 Innings); WARNEKE IS BATTED OUT

Billikens to Play Veteran Missouri Mines Team Tonight

By James M. Gould

With six players who did not start in the opening game against Bradley in the lineup, the St. Louis University Billikens tonight oppose the Missouri School of Mines eleven from Rolla at Walsh Memorial Stadium. It will be the second game of the season for the Billikens and the first for the Mines. Play will start at 8:15.

The five repeating starters for St. Louis are Gayer and Bill Cochran at the ends, Carlson at guard and Capt. Denny Cochran and Roemer at the halves. The new starters are Baker and Dick Putnam at the tackles, Johnson at guard, Joe (Red) Drabell at center, Bob Murphy at quarterback and Alex Yokubaitis at fullback. Seven of the Billikens—Gayer, Johnson, Drabell, the two Cochrans, Putnam and Roemer are lettermen.

Miner Veterans. Against this battle-front, the Miners will send a veteran team which will include nine who have won football letters at the engineering school. Nevins, end, and Lick, tackle, are the non-lettermen. The Billikens will have a considerable advantage in the weight department. The St. Louis line will average eight pounds per man more, the backs 13.6 pounds and the team, as a whole, 10.1 pounds.

From pre-game statements by the coaches, tonight's contest may be fought out mainly on the ground. The Billikens, highly successful with their passes last season, clicked through the air only in the last minutes of last week's game which they lost to Bradley Tech, 6 to 0, and the Miners thus far have shown more power with running plays than with passes. However, the Miners always have had a passing team and, depending on circumstances, may open up sooner than expected.

Coach Mueller's of St. Louis has some nice running backs and a large number of them. Moreover, all of his ball-carriers are in excellent shape so he may be expected to call on several reserves to aid his starters. Tonight, the fans are likely to see more scoring than they saw in the one touchdown game a week ago. The Billikens are smarting under the Bradley defeat and are likely to "bounce back" against the Miners who are far behind in the number of varsity-caliber reserves.

Weight Advantage. While the advantage the Billikens have in the weights appears considerable, the reason for the difference lies in the poundage, or lack of it, carried by the Miners' quarterback, Walter Kosiatek. He weighs only 130 pounds.

Taking one consideration with another, the Billikens should win tonight's game but only after a good fight and put on a fine show.

Kosiatek, mite Miner quarterback, played at Soldan High here. He was so small, the Soldan coach wouldn't permit him in action for two years. The first year he did play, he was named all-high quarterback. He's fast and tricky and hard to bring down despite his size.

The series between the two schools began 38 years ago. Since then, the Billikens have won 19, lost five and tied one.

The Famous Tie. That tie—it came in 1930—will always be remembered. It was played at night here in a regular London "pea-soup" fog. Which-ever team had the ball, scored and a minute before the game ended, the Miners made a touchdown to make the score St. Louis 33; Mines 32. In that last minute, the Miners actually passed through the fog for the extra point and got away with it to make it a 33-32 tie.

While neither will start both Len Gorman, first-string center, and Mel McGonigle, speedy halfback, both will see action tonight. Velth, quarter, and Harris, fullback, also are expected to get in the game.

Weight Advantage. While the advantage the Billikens have in the weights appears considerable, the reason for the difference lies in the poundage, or lack of it, carried by the Miners' quarterback, Walter Kosiatek. He weighs only 130 pounds.

Taking one consideration with another, the Billikens should win tonight's game but only after a good fight and put on a fine show.

Batteries, Pittsburgh—Tobin, Swift, Brown and Todd; Cincinnati—Derringer and Lombardi.

By a Special Correspondent of the Post-Dispatch.

CINCINNATI, Sept. 30.—The Pirates, after losing the first game of their doubleheader to the Reds here this afternoon, 7-1, came back to win the second contest and thus stay in the pennant race.

The score of the second game was 4 to 2.

Paul Derringer pitched five-hit ball to score his twenty-first victory of the season in the opener and Wally Berger and Ernie Lombardi hit home runs to help the Cincinnati attack of Tobin, Swift and Brown.

Russ Bauers pitched the Bucs to victory in the nightcap, while Lloyd (Whitey) Moore worked for the Reds.

The paid attendance was announced as 8361.

FIRST INNING—PIRATES.—L. Warner walked. Craft ran to the fence in right center and caught Rizzo's long drive. Vaughan forced P. Warner, Myers to Richardson.

REDS.—Myers grounded to Vaughan. Berger was called out on strikes. So was Goodman.

SECOND INNING—PIRATES.—Suhrr singled over short. Thevenow sacrificed, Moore to McCormick. Handley popped to Myers. Todd singled to center, scoring Suhr. Myers went into right field for Bauers' fly.

ONE RUN.

REDS.—McCormick singled to left for his fourth straight hit and his 20th of the season. Bauers threw out Lombardi. Riggs singled over short, scoring McCormick and Riggs took second on the throw.

THIRD INNING—PIRATES.—L. Warner lined to Goodman. P. Warner lined to Craft. Rizzo fouled to Riggs.

REDS.—Moore flied to Rizzo. Myers flied to L. Warner. Berger struck out.

FOURTH INNING—PIRATES.—Vaughan hit into the right-field bleachers for his seventh home run of the season. Suhr doubled past third. Thevenow again sacrificed. McCormick unassisted. Riggs made a nice stop and threw to McCormick to retire Handley. Suhr holding third. Todd lined to Myers.

ONE RUN.

REDS.—Goodman grounded to Suhr. McCormick popped to Thevenow. Lombardi lined to L. Warner.

Continued on Page 2, Column 1.

Big Bill's the Hero Again

Bill Lee, who has pitched in each of the last four games played by the Cubs, was the outstanding figure in yesterday's 10-1 victory over the Pirates. He stopped the Corsairs with seven hits. Manager Gabby Hartnett (left) forgot all about his finger injury to congratulate the big right hander, who gained his 22nd victory. Others are Tex Carleton and Trainer Andy Lotschaw.

By a Special Correspondent of the Post-Dispatch.

CHICAGO, Sept. 30.—The Chicago White Sox defeated the Browns here this afternoon in the first game of a doubleheader. It was the fifth straight defeat for the Browns.

The score was 7 to 5.

Acting Manager Oscar McQuinn again had the Browns lineup dotted with rookies receiving try-outs.

The attendance was estimated at 5000.

Rommel, Kolls and Pipgras were the umpires.

Chicago scored one run in the first inning. Meyer was safe on Gryk's fumble, stole second, advanced to third on an infield out and crossed the plate on Radcliff's infield hit.

Three hits, an error and a fielder's choice which failed to result in a run, gave the Sox three more tallies in the second. The rally ended when Roy Hughes engineered a double play.

Hughes started a three-run burst for the Browns in the third. Trot-

Tramway Races to Easy Victory at Fairmount

By Dent McKimming

FAIRMOUNT RACE TRACK, Sept. 30.—Judging from the manner in which Tramway, saddled by Norman "Butsey" Hernandez won the opening race here this afternoon, he was pounds the best of the field or 12.

At the break, Tiger John, Jerry Flint, Semicol and Allegory were all away faster than Tramway, the favorite. Jockey Willie McCadden finally got his mount moving along in the middle of the pack and on the turn he was clear of horses, but far on the outside. At the stretch turn he cut all the way across to the rail, overtaking the leaders with room to spare and he came on to win without the sting of McCadden's whip.

Tiger John hung on for second money and Alrose was third. Out of a dozen horses that had never before won a race, False Card proved best in the second. It looked like Sunstar would steal the purse, due largely to Don Scourlock's urging at the start, but False Card, which had run two good races here, came fast in the last eighth to win easily. Countess Reigh was going away. Countess Reigh was third and Mon Cloud, a fine-looking five-year-old son of High Cloud, making the first start of his career, was fourth after running well up all the way. Jimmy Bowen rode the winner, which was the favorite in the betting.

Overhorses Scores. Overhorses, well played at 3 to 1, was a winner all the way in the third race, chased by Princess Stone and Kops Glomming. The only horse in the field that showed closing power was May See, third, at the wire after being far back most of the journey. This was Overhorses' second victory of the meeting.

The daily double on the winners of the second and third races paid \$33 for \$2.

ter walked, Almada singled and when Steinbacher dropped McQuinn's fly, Hughes scored. A double play by Grace sent in the other runs.

Two more runs put the Browns in the lead in the fifth. McQuinn and Mazera singled and after two outs, Gryk hit safely to score the two runners.

Continued on Page 2, Column 1.

HOMER FOR HARTNETT; REYNOLDS DRIVES IN 2 RUNS WITH DOUBLE

By W. J. McGoonan.

SPORTSMAN'S PARK, Sept. 30.—Chicago's Cubs, with a chance to add a half game to their one-and-one-half-game lead in the National League pennant race, opposed the Cardinals in the first of a three-game series here this afternoon.

The Pittsburgh Pirates broke even in their doubleheader with the Cincinnati Reds, losing the first game, 7 to 1, and winning the second, 4 to 2.

A victory for the Cubs would put them two games ahead, with two games for each club to play.

The pitchers were Tex Carleton for the Cubs and Lon Warneke for the Cardinals, but Warneke was batted out in the third inning and replaced by Bill McGee.

Gabby Hartnett, Cub manager, played despite the injury to the third finger of his left hand, suffered yesterday.

Acting Manager Miguel Gonzales sent his best Redbird lineup against the Cubs. Joe Medwick returned to left field, Guttridge to third base, Jim Brown to shortstop, Padgett to right field and Owen was behind the plate, with Terry Moore in center field.

Campbell, Barr and Stark were the umpires.

About 3500 were in the stands when the game started.

Gov. Henry Horner of Illinois attended the game with a party of friends.

The game: **FIRST INNING.**—CUBS.—On the first ball pitched Hack doubled to left-center. S. Martin threw out Herman. Hack moving to third. Demaree singled to left, scoring Hack. Cavarretta forced Demaree. S. Martin to Brown. Reynolds struck out. **ONE RUN.**

CARDINALS.—T. Moore walked. S. Martin doubled down the right field line. T. Moore stopping at third. Padgett popped to Hack. Medwick walked, filling the bases. T. Moore scored. S. Martin went to third and Medwick to second on a wild pitch. Mize hit to Collins and S. Martin was out at the plate. Collins to Hartnett. Medwick moving to third. Brown fouled to Herman. **ONE RUN.**

SECOND INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

THIRD INNING.—Hack walked. Herman singled to left, sending Hack to third. Demaree forced Herman, Brown to S. Martin. Hack scoring. Cavarretta doubled to left, sending Demaree to third. Reynolds doubled to left, scoring Hack. Warneke and Mize went in to pitch for the Cardinals. S. Martin threw out Hartnett. Reynolds moving to third. Collins doubled to right-center, scoring Reynolds. Jurgens was intentionally passed. Carleton flied to Padgett. **FOUR RUNS.**

FOURTH INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

THIRD INNING.—Hack walked. Herman singled to left, sending Hack to third. Demaree forced Herman, Brown to S. Martin. Hack scoring. Cavarretta doubled to left, sending Demaree to third. Reynolds doubled to left, scoring Hack. Warneke and Mize went in to pitch for the Cardinals. S. Martin threw out Hartnett. Reynolds moving to third. Collins doubled to right-center, scoring Reynolds. Jurgens was intentionally passed. Carleton flied to Padgett. **FOUR RUNS.**

FOURTH INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

THIRD INNING.—Hack walked. Herman singled to left, sending Hack to third. Demaree forced Herman, Brown to S. Martin. Hack scoring. Cavarretta doubled to left, sending Demaree to third. Reynolds doubled to left, scoring Hack. Warneke and Mize went in to pitch for the Cardinals. S. Martin threw out Hartnett. Reynolds moving to third. Collins doubled to right-center, scoring Reynolds. Jurgens was intentionally passed. Carleton flied to Padgett. **FOUR RUNS.**

FOURTH INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

THIRD INNING.—Hack walked. Herman singled to left, sending Hack to third. Demaree forced Herman, Brown to S. Martin. Hack scoring. Cavarretta doubled to left, sending Demaree to third. Reynolds doubled to left, scoring Hack. Warneke and Mize went in to pitch for the Cardinals. S. Martin threw out Hartnett. Reynolds moving to third. Collins doubled to right-center, scoring Reynolds. Jurgens was intentionally passed. Carleton flied to Padgett. **FOUR RUNS.**

FOURTH INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

THIRD INNING.—Hack walked. Herman singled to left, sending Hack to third. Demaree forced Herman, Brown to S. Martin. Hack scoring. Cavarretta doubled to left, sending Demaree to third. Reynolds doubled to left, scoring Hack. Warneke and Mize went in to pitch for the Cardinals. S. Martin threw out Hartnett. Reynolds moving to third. Collins doubled to right-center, scoring Reynolds. Jurgens was intentionally passed. Carleton flied to Padgett. **FOUR RUNS.**

FOURTH INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

THIRD INNING.—Hack walked. Herman singled to left, sending Hack to third. Demaree forced Herman, Brown to S. Martin. Hack scoring. Cavarretta doubled to left, sending Demaree to third. Reynolds doubled to left, scoring Hack. Warneke and Mize went in to pitch for the Cardinals. S. Martin threw out Hartnett. Reynolds moving to third. Collins doubled to right-center, scoring Reynolds. Jurgens was intentionally passed. Carleton flied to Padgett. **FOUR RUNS.**

FOURTH INNING.—Hartnett hit into the left field corner for a home run. It was his tenth of the season. Collins flied to Moore. Warneke tossed out Jurgens. Carleton was out; Mize unassisted. **ONE RUN.**

CARDINALS.—Gutteridge walked. Carleton deflected Owen's smash to Jurgens, pitched on second, forcing Gutteridge and threw to Collins for a double play. Warneke singled to right. T. Moore forced Warneke, Hack to Herman.

Scenes among the miners around Potosi.

3 Reasons Why YOU'LL ENJOY "PICTURES"

1. "PICTURES" is the BIG rotogravure section—20 full-size pages. There are always more pictures in "PICTURES" than other rotogravure sections offer.

2. History-making news events are occurring daily—and "PICTURES" is right on top of the news! The section goes to press only 48 hours before the Saturday night edition of the Sunday Post-Dispatch is placed on sale. That means later news pictures than other newspaper

rotogravure sections—printed a week or two weeks in advance—can offer.

3. "PICTURES" features the local scene. Personalities and events in St. Louis and nearby vicinity are featured prominently in this interesting section.

SEPTEMBER WARM; MONTH OF EXTREMES

Average Temperature 3.3 Degrees Above Normal Despite Chilly Spell.

September blew hot and cold this year, with a high mark of 88 degrees on the eighth and one brief hint of winter that set furnaces going and coal trucks rolling. On the feverish days the temperature was above 90, but the unexpected plunge that reached 44.9 on the 19th brought out the season's first topcoats.

Weather Bureau men said that in spite of the three-day cold snap that kept the office telephones ringing the month was unusually warm. They pointed out that the average temperature was 73.8 degrees, or 3.3 above normal.

"People remember only the unusual weather during a month," Meteorologist Arthur A. Rausch told a Post-Dispatch reporter. "Then they have a tendency to think the whole month was that way. September was warm; warm and sunny—an uncommonly good month for picnickers."

The sun shone on 15 days. Nine days were partly overcast and five were cloudy. "In other words," Rausch said, "there were considerably fewer days vapor cloudy than war cloudy—a reading only unofficially noted by the bureau."

Rainfall for the month was far below normal. Total precipitation was only 1.01 inches. This is the smallest amount since September, 1901, when only .84 of an inch was measured. Record high was established in 1886, with 10.53 inches; record low in 1883, with .01 inch. "And although there were tornadoes and hurricanes in other part of the country," Rausch said, "we noted mild thunderstorms on only four days."

The river stage was 10.1 feet—almost two feet above normal for the month. The river was low during the first two weeks, but a steady rise that started on the 15th continued until a stage of 19 feet was reached.

Continuance of Oil Compact Urged. TULSA, Ok., Sept. 30.—The Interstate Oil Compact Commission adopted a resolution yesterday asking Congress to continue the compact for two more years. It re-elected Col. E. O. Thompson of Texas as chairman and chose Fort Worth, Tex., for the commission's December meeting.

On Bridal Tour

MRS. G. R. BREIDENSTEIN.

FORMER PROSECUTOR WEDS

Mr. and Mrs. G. R. Breidenstein of Kahoka on Trip to Cuba.

G. R. Breidenstein, former prosecuting attorney of Clark County, Mo., left here yesterday with his bride on a honeymoon trip to Cuba. His bride was Miss Iona Reynolds, daughter of Mr. and Mrs. A. N. Reynolds of Kahoka, Mo. They were married Wednesday at Union Avenue Christian Church, St. Louis, by the pastor, the Rev. Hampton Adams. They will make their home at Kahoka.

Breidenstein assisted in the prosecution in 1936 of Dr. L. O. Muench, Mrs. Nellie Tipton Muench, Wilfred Jones and Mrs. Helen Berroyer, resulting in their conviction on charges of conspiracy in connection with the Muench baby hoax.

NATIONALIST GROUP DEMANDS LIBERATION OF NORTHERN IRISH

Aggressive Members of Parliament Seek Reunion With Former Free State in South.

By the Associated Press.

BELFAST, Sept. 30.—Aggressive Nationalist members of Northern Ireland's Parliament in a statement today demanded reunion between Ireland (Eire, the former Free State) and Northern Ireland. The group met in Armagh and asked the Government to "press a just claim on Britain for immediate liberation of Northern Ireland, and the application here of those principles of peace, justice and democracy professed so loudly elsewhere."

"No boundary in Europe is more outrageous than that which divides the historic territory of Ireland and separates more than a million Irishmen from a national government's just and beneficial rule."

"No minority is more aggrieved than loyal Irishmen in this part of Ireland. No rule is more undemocratic than that which Britain erected in defiance of the nation's will."

Prime Minister Craigavon of Northern Ireland in a message to the British Prime Minister, Neville Chamberlain, said: "My colleagues and I, on behalf of loyal Ulster, congratulate you from our hearts on your statesmanship and great personal triumph."

TOM GIRDLER SAYS HE HAS NO TEARS FOR GOOD OLD DAYS

But Declares We Must Return to Idea People Prosper Only When Business Is Prosperous.

By the Associated Press.

CLEVELAND, Sept. 30.—Tom Girdler, president of the American Iron & Steel Institute, said last night that his opposition to Government regulation "is reserved for phony reforms, class legislation, clumsy controls and the bungling methods which help no one."

He told the Association of Iron and Steel Engineers, "I shed no tears over the so-called 'good old days.' But we will have to return to the ideas that a nation and its people are prosperous only when business is prosperous; that the interests of employer and employee are not at deadly odds. Above all, we will have to learn that a nation cannot create an abundance except by production and hard work."

Girdler cited institute figures that the annual average return on investment in the steel industry was 8 per cent from 1910 through 1919, 5.5 per cent from 1920 through 1930, and only 1.5 per cent from 1930 through the first half of 1938. "The steel industry frequently is accused by its critics of price fixing, extortion and monopoly," he said. "I fear that the real criticism of the industry is that it has failed to earn a reasonable return on the capital invested in the business."

FLEEING MAN MAKES OWN DOOR

No Opening in Room and He Goes Through Wall.

By the Associated Press.

KANSAS CITY, Kan., Sept. 30.—On trial on a charge of destruction of property, a man testified before Police Judge Earl Thomas: "I saw my wife coming at me with a big knife, and I ran into a beer parlor next door and out through the back door."

"That," said the proprietor of the beer parlor, "was when he destroyed property. There was no rear door. He made one."

WILD DUCKS MOST PLENTIFUL IN YEARS

Survey Indicates 50,000,000 Have Started From 3 Provinces in Canada.

By the Associated Press.

NEW YORK, Sept. 30.—The greatest flight of wild ducks in years will be heading southward from the Canadian prairie provinces as the fall duck hunting season opens in eight northern states at 7 a. m. tomorrow, Ducks Unlimited, Inc., reported today.

The national duck hunters' organization based its statement on results of a survey in Alberta, Saskatchewan and Manitoba which indicated more than 50,000,000 birds will take wing from that region where most wild ducks nest.

The survey, conducted by the organization's Canadian field staff, included reports of 100 ground observers and data assembled by aerial observers who covered 7000 miles. A 20 per cent increase of ducks over last year is estimated.

The increase is attributed to better water conditions and duck restoration work in the provinces, hard hit in recent years by drought in marsh areas.

The United States Department of Agriculture, ending up on season

restrictions for the first time since 1923, has designated 45-day waterfowl hunting seasons in three zones this fall.

The season opens tomorrow in North Dakota, South Dakota, Minnesota, Wisconsin, Michigan, Vermont, New Hampshire and Maine. This season continues to Nov. 14, inclusive.

In the central zone the season runs from Oct. 15 to Nov. 26, and in southern states from Nov. 15 to Dec. 29.

NEXT CONGRESS INDEPENDENT, DECLARES SENATOR SMITH

South Carolinian Says This Will Be Result of Victories of Men President Opposed.

By the Associated Press.

WASHINGTON, Sept. 30.—Senator Smith (Dem.), South Carolina, said today that voters had assured an independent Congress by renouncing Democratic Senators whose

defeat President Roosevelt had requested.

Smith, back in the capital for the first time since the primary in his State, said administration leaders "will have to reckon with Jeffersonian Democrats" in the new Congress.

He said he was confident the pri-

mary victories of himself and Sen-

ators Tydings of Maryland and George of Georgia would stiffen the resistance of independent-minded Congressmen to administration measures of which they were doubtful.

Smith did not think Senate Democrats would try to unseat Barkley

of Kentucky as majority leader, but added, "Barkley will have to reckon with this new element."

DON'T LET YOUR NERVES GET TIRED, UPSET!

Irish Setter
Native of Ireland. First imported to America about 1873. Believed to be a cross of English setter, spaniel and pointer. Originally red and white in coloring. Today's standards call for solid mahogany red or rich golden chestnut. Essentially a gun dog. Bold, hardy, yet remarkably gentle nature. Noted for long life.

He's giving his nerves a rest...and so is she

THE DOG pictured above is relaxing—resting his nerves. He has a nervous system amazingly similar to yours, with this difference: It is the nature of the dog to rest when he needs rest. It is the nature of mankind to drive on until nerves jerk and twitch...until you are cross and irritable...tired out without knowing it. No matter which form of tenseness you feel, try this experiment: Ease up and enjoy a Camel. The enjoyment of Camels can be your frequent reminder to take time out. Camels are made from costlier tobaccos. They are so mild and comforting. Smokers find that "Let up—light up a Camel" puts more zest into life, and that Camel's costlier tobaccos soothe their nerves.

MILLIONS FIND
"Let up—light up a Camel" puts more joy into living

Terrell Jacobs, lion trainer, and "Tony" Concello, circus aerialist (right), both "Let up—light up a Camel." "Animals can spring into action—then relax," says Jacobs. "We're different—apt to get our nerves all wound up with our tense way of living—can't let go. I find that Camels soothe my nerves." "Terrell's right," Miss Concello says. "When my nerves are tired, a Camel helps them to rest."

DID YOU KNOW:

—that one tablespoon of tobacco seed will sow 100 yds! One hundred sq. yds. of bed give from 10,000 to 15,000 plants for transplanting into the fields.

From the selection of the seed, right down to the day of harvest, Camel tobacco experts watch the development of the crop in each locality. The Camel cigarette buyers know where the mild, choice, aromatic tobacco is. And they buy accordingly.

Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic

Fred L. McDaniel, cowboy (right), says: "When I feel nervously upset, I let up, and light up a soothing Camel. Camels are mild—I can smoke 'em steadily. They are so comforting, and never tire my taste."

NEW YORK, Sept. 30.—Employment in the steel industry rose in August over July, it was announced yesterday. It was the first upturn in a year.

ANDREW B. MEADOWS
TO GET PAROLE HEARING

Case Up Tuesday — He Is Under Life Sentence for Hotel Fire.

By a Post-Dispatch Staff Correspondent.
JEFFERSON CITY, Sept. 30.—Andrew B. Meadows, sentenced to death in 1930 for his part in the Buckingham Hotel Annex incendiary fire in St. Louis on Dec. 5, 1927, in which seven lives were lost, and now serving life in the Missouri Penitentiary here under a commutation of that sentence, will have a hearing Tuesday on his application for a parole.

Meadows, 62 years old, is one of 44 convicts whose parole applications have been docketed for hearing before the State Board of Probation and Parole.
He has been in prison nearly eight years since he was convicted of murder in connection with the fire. The Supreme Court affirmed the conviction and death sentence in June, 1932, but his execution was postponed from time to time for nearly another year, through reprieves to permit him to be held as a witness against other defendants, until former Gov. Park commuted the sentence to life imprisonment in May, 1933.

Meadows, night watchman at the hotel, admitted that he entered into a conspiracy to burn the hotel to collect the insurance, and that he started the fire. He was the principal witness against Ralph Pierson, one of the owners of the hotel, who is under life sentence for a part in the arson conspiracy.

Pierson was convicted of murder three times. The first conviction, carrying a death sentence, and the second, carrying a life sentence, were reversed by the Supreme Court in 1933 and 1935. His third conviction, carrying life imprisonment, was affirmed by the court last Aug. 16.

Three other St. Louis convicts are scheduled for hearings at the same board session Tuesday. They are Charles Cook, who has served three years and five months of a 10-year sentence for forgery; Charles Sage, who has served three years and 10 months of a 10-year sentence for robbery; and Thomas Killoran, who has served two years and six months of a seven-year sentence for burglary and attempted robbery.

Jacob Lawrence, Negro convict from St. Louis County, who has served four years and seven months of a 15-year sentence for second-degree murder, also will receive a hearing.

NOT GUILTY PLEA IN KILLING

Thomas Shellenberg Arraigned in East St. Louis.

Thomas Shellenberg of East St. Louis entered a plea of not guilty to an indictment charging him with the murder of his second cousin, Thomas E. Fuller, last Aug. 16, when arraigned yesterday before City Judge William F. Borders of East St. Louis.

Shellenberg, an unemployed mechanic, told police after his arrest that he shot Fuller in self-defense after they had quarreled over \$35 in rent that he owed Fuller's aunt.

\$754,234 THALBERG TAX PLEA

Norma Shearer Testifies to Clear Way for Payment.

By the Associated Press.
LOS ANGELES, Sept. 30.—Norma Shearer, movie actress, testified briefly in Probate Court yesterday to clear the way for approval for payment of a \$754,234 Federal income tax claim against the estate of her late husband, Irving Thalberg, producer.
She testified her business affairs and income and those of Thalberg never were intermingled — so the Government claim therefore did not apply to her in any way.

UNIFORM W P A WAGE SOUGHT

Democratic Group Asks for Same Pay Scale Throughout County.

The St. Louis County Democratic Committee asked State WPA Administrator Matthew S. Murray today to establish a uniform wage for unskilled WPA labor in the county.
At present those who work east of Lindbergh boulevard receive 60 cents an hour, and those west of Lindbergh, 44 cents an hour. The uniform 50-cent rate would mean a monthly increase of \$4.37 for 500 WPA laborers.

WALLACE DEFENDS COTTON PROGRAM IN TEXAS SPEECH

Assails Domestic Allotment Plan and Proposals for Substantially Higher Loans on Staple.

SAYS LATTER MEANS FEDERAL MARKETING

Urges Critics on Both Sides to Argue It Out and Then Join "Rest of Us in Middle of Road."

By the Associated Press.

FORT WORTH, Tex., Sept. 30.—Secretary of Agriculture Henry A. Wallace vigorously defended the Federal cotton control program against widespread southern criticism in an address today at a farmers' meeting here.

He assailed both the domestic allotment plan and proposals for a substantially higher loan on the staple. J. E. McDougal, Texas Commissioner of Agriculture, renominated this summer, is an active advocate of the domestic allotment plan and a group of Southern Senators was called into conference in Washington today to urge higher cotton loans.

Urges Processing Tax. Wallace advocated re-enactment of a cotton processing tax to assure maintenance of a parity price for the South's money crop. He urged the same thing for wheat at Hutchinson, Kan., yesterday.

He suggested proponents of the domestic allotment plan and supporters of higher loans "argue it out with each other." After that, both groups might be willing to go along "with the rest of us down the middle of the road," he said.

After citing asserted flaws in the domestic allotment plan, Wallace said: "The real issue is whether farmers are going to scrap the present program for one which for a time might give more business and profits to the interests which buy and handle cotton, but would certainly reduce the income of farmers themselves. The real issue is whether the man who produces the crop with the labor of his own hands is going to become a forgotten man once more."

Wants of Federal Marketing. Wallace said, "unreasonably high loans probably would mean the Government gradually would take over the cotton marketing machinery, making a 'drastic change in our business system.'"

"I am in favor of following policies," he said, "which avoid this kind of development as long as possible. But I want to tell you frankly that any plan for Government loans on cotton at rates far out of line with supply and demand will take this country rapidly in the direction of complete Government operation of the entire cotton marketing, processing and exporting industry."

Wallace Tells Kansans He Favors Processing Taxes.

By the Associated Press. HUTCHINSON, Kan., Sept. 30.—Secretary Wallace urged yesterday enactment of processing taxes to provide funds for subsidies to farmers.

Addressing a meeting of farmers in the heart of the winter wheat belt, he proposed such taxes as an alternative to price-fixing proposals advocated by some Congressmen. Processing taxes, he said, would provide a regular source of funds for payment of the subsidies authorized by the present law to give farmers their "fair share" of the national income.

Four Alternatives. Then, in a general discussion of the farm price question, he said there were four alternatives:

1. Continuance of the present program strengthened by processing taxes.
2. Government fixing of prices for farm products.
3. Establishment of a Government monopoly of agriculture, providing for stricter control of production and marketing.
4. Abandonment of all programs in favor of "outthroat competition and return to conditions that brought 1932."

Stockman Replies to Wallace. Dan Casement of Manhattan, Kan., stockman, after denouncing the program, called for a standing vote of all those favoring its repeal.

Chairman Guy Josselyn, president of the State Board of Agriculture, put the question. Only a few of the throng which city officials estimated at 1600 rose to join Casement.

The meeting was opened for debate after Wallace concluded his address. At least a dozen expressed views for or against the program or some phase of it.

Casement, first to speak after Wallace, assailed the program as "bribery to farmers."

"We can't have planned economy in a democracy and if this is carried through it will destroy our democracy. It is a silly superstition that the laws of economics are not just as inexorable as the laws of physics."

Casement said that if benefit payments under the program were discontinued "it would blow up tomorrow."

Four Diners Hurt When Truck Wrecks Cafe

A heavy trailer truck, out of control, crashed into this roadside eating place on the Baltimore-Washington highway.

TRACHOMA HOSPITAL AT ROLLA TO BE STARTED AT ONCE

Mandamus Action to Force Release of State Funds Settled Out of Court.

ROLLA, Mo., Sept. 30.—Construction of a trachoma hospital to house the trachoma work of the State Board of Health here has been assured by a settlement made out of court of the mandamus proceedings which the Rolla Chamber of Commerce had brought in the Supreme Court to compel the State Treasurer to release the funds appropriated by the Legislature at its last session for the construction of the building. The mandamus proceedings have been withdrawn and construction will start at once.

A total of \$75,000 was appropriated by the Legislature, which will be supplemented by \$25,000 granted by the Works Progress Administration. The Rolla Chamber of Commerce contributed \$5000 for a site for the new building.

The new building will take the hospital out of its present building, which has been strongly condemned by health officials as entirely unsatisfactory for the work.

THANKS TO ROOSEVELT FOR HIS PEACE EFFORTS

"I Send You Homage," Says Head of General Council of Seine at Paris.

PARIS, Sept. 30.—A message of thanks to President Roosevelt for his efforts to "save peace" was cabled to Washington today by Emile Cresp, president of the General Council of the Seine (Paris) Region.

Cresp wired in part: "In the name of the population of the Paris region, which fully shares the generous, humane ideal so nobly defended by the great American nation, I send you the homage of our admiration and our unalterable recognition."

Used Washing Machine Parts. WASHINGTON, Sept. 30.—Senator Smith (Dem.), South Carolina, called yesterday for an increase in the rate of Government loans on cotton and a subsidy on both exports and domestic sales of cotton from this year's crop. The veteran chairman of the Senate Agricultural Committee said this in brief was the program he would ask Senators from cotton producing states to endorse at a special conference he called to meet here Friday. Smith said the Senators who had accepted invitations to the conference included Clark of Missouri.

BOND ISSUE MEASURES PUT UP TO ALDERMEN

Bills Provide for Vote on \$1,250,000 Expenditures, Passage Likely.

Bills recommended by the Board of Estimate and Apportionment to submit a bond issue of \$1,250,000 in the general election of Nov. 8 were introduced in the Board of Aldermen today. It was generally assumed that they would be passed, as they would renew administration measures defeated in the August primary.

The Aldermen will meet again tomorrow for reference of the measures to committee. A third meeting will be held Monday or Tuesday, with the expectation of passage of the bills.

One proposal is for \$750,000 for purchase of materials in connection with a contemplated WPA work relief program. This is the same as one of the items rejected in the primary. The other proposal is for \$500,000 for new fire engine houses and equipment. Previously this item also was for \$750,000, but the administration decided to reduce it.

A letter from St. Street Division employees on the monthly payroll

who received no salaries during the recent strike of hoteling engineers requesting that pay be allowed them, was referred to the Ways and Means Committee. About 300 city employees, all told, were similarly out of the payroll temporarily because there was no work for them during the strike.

A bill was introduced by Alderman William J. Warnick to permit police to issue summonses in the absence of drivers in the case of automobiles parked in crosswalks or in front of driveways. This would be an extension of the authority for summonses in general.

Another bill, introduced by Alderman L. E. Couplin, would prohibit parking of trucks in residential areas, except for loading and unloading, to stop the practice of all-night truck parking in some districts.

Two public hearings were announced. The Legislation Committee will conduct one on the Chamber of Commerce anti-noise bill Oct. 19 at 2 p. m. The Traffic Committee will hold the other next Tuesday at 2 p. m. on the bill to prohibit parking on Washington avenue, between Third and Fourteenth streets, from 6 a. m. to 7 p. m., because of the proposal to add another bus line to this stretch of the thoroughfare.

3 IN CHICAGO INDICTED AFTER PWA INQUIRY

Cook County Election Board Head Accused of False Reports on Two Projects.

By the Associated Press.

CHICAGO, Sept. 30.—An indictment charging Alexander McKay, chairman of the Cook County Board of Election Commissioners, and two others with falsification of records on two PWA projects was returned today by a Federal grand jury.

McKay is the former head of the McKay Engineering & Construction Co., now out of business. J. H. McCaughey and J. B. Nystrom, each of whom was secretary of the engineering company at one time, were named with him in the indictment.

The projects concerned were two

sanitary district jobs partly financed by a 30 per cent PWA grant. Warren Canaday, first assistant Federal prosecutor, presented the case to the grand jury after an inquiry by Frank C. Grimi, PWA investigator.

The indictment contained 24 counts, including one of conspiracy. It charged the engineering company made a false return in connection with a regulation requiring a monthly survey of work completed, including vouchers showing labor and material costs and an affidavit stating all bills listed had been paid by the contractor.

The projects were the Upper Des Plaines intercepting sewer at Suburban River Grove for which the PWA supplied \$335,000, and the west town outlet sewer in suburban Berwyn for which the PWA supplied \$1,600,000. The McKay company finished its work on these jobs Jan. 14, 1938, and went out of business shortly thereafter.

"This is a great and painful shock," McKay told reporters after the indictment was returned.

He said unexpected conditions were encountered in the construction work, "making it cost a great deal more than was estimated. I completed it at a great personal sacrifice—it took every dollar of my personal fortune."

CHARLESTON COUNTS 26 DEAD IN TORNADO

Of More Than 200 Injured, 53 Remain in Hospitals—Landmarks Damaged.

By the Associated Press.
CHARLESTON, S. C., Sept. 30.—Charleston dug out today from the wreckage strewn by a tornado, and counted the storm's toll at 26 dead, 200 injured, some seriously, and property damage estimated at between \$2,000,000 and \$3,000,000.

Four companies of State militia, augmented by soldiers from nearby Fort Moultrie and Marines from the Navy Yard, aided civilian authorities in patrolling the debris-covered streets, along which many of the city's famous landmarks were destroyed or damaged.

Col. Harry O. Withington of the 15th Infantry, South Carolina National Guard, commanding the troops, said there was no disorder and no looting.

Fourteen of the dead were white, and 12 were Negroes.

All through the night searchers pulled away the wreckage of buildings, looking for more bodies. But early today they said they believed the death toll would stand at 26. All but three of the dead were identified.

The Red Cross, in a preliminary check, reported 72 houses were demolished and 45 were damaged to such an extent that no one could live in them. The relief agency reported 22 houses were slightly damaged but were still occupied.

The storm paralyzed communications systems and power facilities. Electric service was restored to a part of the city last night, but for the most part there was darkness. Relief agencies fed, clothed and housed 1100 homeless persons.

Hospitals listed 53 of the injured as seriously hurt. The others were given first-aid treatment for comparatively minor bruises and cuts and were discharged.

Many historic buildings, known to thousands of tourists, were scarred by the storm, which lasted only a few seconds.

Among the famous landmarks that were damaged were St. Michael's Episcopal Church and St. Philip's Church, both of which were built before the American revolution.

Also damaged was the picturesque little French Huguenot Church, the only one of its denomination in America. The reconstructed Dock Street Theater, one of the first playhouses to be built in America, also was scarred.

Massachusetts Tests Food Shipped From Rhode Island.

BOSTON, Sept. 30.—Massachusetts health officials ordered bacteriological examination of food shipments from Rhode Island hurricane areas today. Other State officials moved against storm profiteers.

The Boston & Albany Railroad announced resumption of through train service to New York by way of Springfield, Mass., and Hartford, Conn., for the first time since the Sept. 21 hurricane.

The storm death toll remained at 508, divided as follows: Rhode Island, 272; Massachusetts, 134; Connecticut, 89; New Hampshire, 13; and Vermont, seven.

In Boston, city health inspectors padlocked two warehouses loaded with food, cosmetics, toys and other merchandise shipped from Rhode Island. They announced the goods would be held pending an examination for germs. Other inspectors condemned quantities of butter, eggs, beef and fish.

Gov. Robert M. Quinn of Rhode Island said he was considering legislation on the November ballot a proposal that the State borrow from the Reconstruction Finance Corporation for loans and grants to business men crippled financially by the storm.

Another Storm Moving Along Atlantic Seaboard.

By the Associated Press.
WASHINGTON, Sept. 30.—The Weather Bureau gave warning last night of a gale moving northward along the Atlantic seaboard. North-east or east winds probably will reach gale force between the Virginia capes and the New Jersey coast, the bureau advised.

The warning said:

"Advisory northeast storm warning ordered 8 p. m. Virginia capes to Eastport, Me. Disturbance moderate but increasing intensity central over Eastern North Carolina moving northeastward in conjunction with area of high pressure over New England and Eastern Canada will be attended by increasing northeast or east winds becoming strong and probably reaching gale force from Virginia capes to New Jersey coast tonight and north of New Jersey coast Friday."

PARALLELS IN DOMESTICITY

Babies Born Same Hour to Sisters Wed to Brothers.

By the Associated Press.
IDAHO FALLS, Ida., Sept. 30.—The mothers of five-day-old sons of Mr. and Mrs. Melvin Hinton and Mr. and Mrs. Shirley Hinton are sisters. Their fathers are brothers. They were born within 25 minutes of each other in the same hospital. The same physician delivered them. Their parents were married June 3, 1932, at a double ceremony.

Stokowski Signs for Concerts.

By the Associated Press.
PHILADELPHIA, Sept. 30.—The Philadelphia Orchestra announced today that Leopold Stokowski has signed a contract to conduct 11 and possibly 14 concerts in this city and elsewhere in the period from March 18 to April 5. Stokowski will conduct concerts in Washington, March 21; Baltimore, March 23; and New York, March 25.

Auxiliary Agencies Suggested To Aid Reform in Court Procedure

Prof. Sunderland Offers Plan to Keep Machinery of Justice Adjusted to Changing Needs of Society.

Establishment of auxiliary court agencies to initiate and develop reforms in procedure was suggested in an address before the Missouri Bar Association today by Prof. Edson R. Sunderland of the University of Michigan School of Law. Such agencies would help solve the problem of keeping the machinery of justice adjusted to the changing needs of society, he said.

Prof. Sunderland, a member of the United States Supreme Court's committee which drafted the new rules of Federal procedure, expressed the view that this method would put vitality into the rule-making power of courts. He pointed out that courts, without time or inclination to carry out research, were not so constituted as to be able to carry full responsibility for development of procedural reform.

Favors Permanent Advisory Bodies.

Permanent public advisory committees or judicial councils, he said, would be set up so as to meet what he considered the four requisites for any agency undertaking to formulate procedural rules—adequate technical information, inherent incentive to act, ability to escape domination of special interests and opportunity to organize and direct research.

Such agencies, he said, could be selected so as to draw on the technical resources both of the bench and the bar, and hence would be better equipped than the Legislature, made up largely of laymen, or than any court, consisting of trial judges alone or appellate judges alone, to make such rules. Such auxiliary commissions, Prof. Sunderland said, should have a personnel, including lawyers and laymen, to represent interests of trial and appellate courts, the bar, the litigants and the public. They would represent the public, not primarily because of lay members but because they would strive for policies which would serve the public interest in the administration of justice, he said.

Another advantage of the suggested method, Prof. Sunderland continued, would be the effect of relieving courts of the non-judicial duties of preparing rules of procedure and withdrawing them further from political controversy.

"It is the delay, expense, technicality and uncertainty of litigation, rather than the legal quality of judicial decisions, which dissatisfies the public with administration of justice," he declared.

"If the courts are to be held responsible both for the methods employed and for judgments rendered, public criticism in respect to the former function will react against the courts in respect to the latter."

A third group, the Missouri Institute for Administration of Justice, composed of 100 laymen and 50 lawyers from all sections of the State, is taking steps to present to the Legislature a bill which it thinks would result in liberalization of procedure through Supreme Court rules, possibly harmonizing with the new Federal rules.

In a recent conversation with a Post-Dispatch reporter, Frank H. Sullivan, chairman of the Judicial Council, indicated the council might favor a method of procedural reform similar to that suggested by Prof. Sunderland.

"The council has been studying the rule-making power and has found that experience in other states shows that if it is to be conferred on the court there should be provision for some authority, a committee or commission, to prepare the rules and submit them to the court for revision and approval."

LAY TO, ME HEARTIES, FOR THE LAST CALL IN THIS "CLEAR THE DECKS" Used Car Sale!

Last chance for thrifty buyers... Still many splendid values left in late model Ford V-8's and other popular makes... Hurry!

Right now is the best time to buy a better used car for safer, more economical fall and winter driving. Everything is in your favor—the season, and the values in this big Ford Dealer sale. All popular makes and models to choose from—including recent Ford V-8's in all body types. These cars are priced to move. You're bound to find the car you want at less than you expected to pay!

But you ought to act at once. This sale will soon be over. Visit your Ford Dealer and see his "Clear the Decks" specials now. You won't be disappointed. There are many excellent buys left, including cars taken in trade on new Ford V-8's since the sale started. Your Ford Dealer will arrange terms tailor-made for your purse.

Many cars in this sale carry the Ford Dealer's R & G Guarantee. Settle before you say "I'VE MONEY BACK. Many others carry the dealer's "50-50" Guarantee which pledges that he will pay 50% of the cost of all materials and labor for any mechanical repairs (glass and tires excepted), not caused by accident or neglect, within 50 days after your purchase.

Head for Your FORD DEALER Now!

WOMAN MURDERED, BODY FOUND IN CELLAR

Kansas City, Kan., Police Think Insurance Is Motive; Killing Attempted Before.

By the Associated Press.
KANSAS CITY, Kan., Sept. 30.—Discovery of the body of a woman in the basement of a tavern set police today investigating what they said apparently was an "insurance murder" of a victim who survived at least one previous attempt on her life.

The body was identified tentatively as that of Mrs. Helen Burek, 31 years old, who police said had taken out at least 30 insurance policies with various casual acquaintances as beneficiaries. She had been missing since July 11.

Police said Mrs. Burek was beaten and left for dead in a river boat two years ago and was revived only after an undertaker had called for her body. A year ago she either fell or was pushed down a flight of stairs, suffering an injury which left one leg shortened. The body found in the tavern had a similar deformity.

Two women and a man were detained for questioning, officers said, and several others had been questioned and released, most of them beneficiaries of insurance policies taken out on Mrs. Burek.

Marshall, Mo., Rejects Bond Issues.

MARSHALL, Mo., Sept. 30.—Voters rejected two proposed bond issues totaling \$125,000 by narrow margins here yesterday. A \$35,000 proposal for a Negro high school had a majority but lacked the two-thirds necessary for passage, and a \$90,000 municipal building issue lacked a majority.

Sullivan, chairman of the Judicial Council, indicated the council might favor a method of procedural reform similar to that suggested by Prof. Sunderland.

"The council has been studying the rule-making power and has found that experience in other states shows that if it is to be conferred on the court there should be provision for some authority, a committee or commission, to prepare the rules and submit them to the court for revision and approval."

HOLLYWOOD BRAGS ABOUT ITS NOTABLES

Power of the Screen Supreme for Making Names Known in the Far Corners.

By the Post-Dispatch.
HOLLYWOOD, Cal., Sept. 30.—Little Hollywood isn't even a city, but it tops all the world capitals and metropolises as a new center. That is, it does in ordinary peace times.

Day in and day out the film capital is the greatest news spot in the world, with an average of 250-300 words daily going out from the hundreds of newspaper and magazine correspondents here.

The town and its people occupy more printed space than any other group in existence. And the reason is easy—"names make news!"

There are more "news names" in Hollywood than any other place in the world, regardless of size. In this country, New York and Washington are its only rivals and they're a weak second and third. When it comes to names known and read, not merely in the United States, the movie capital is in a class by itself.

300 Celebrities.

By conservative estimate there are 300 Hollywoodites whose names are known in every civilized land. Some, like Charlie Chaplin and Harold Lloyd, are even known to natives in the darkest jungles.

Compare Hollywood's 200 world-known names with the capital at Washington. President Roosevelt, Secretary of State Hull, Senator Borah and Chief Justice Hughes are practically the only ones who can qualify for international reputations.

Into the space of a few acres are

Movie Time Table

AMASSADOR—"Garden of the Moon," with Pat O'Brien, Margaret Lindsay and John Payne, at 12:15, 3:15, 6:15 and 9:15; "Secrets of an Actress," with Kay Francis, George Brent and Ian Hunter, at 10:30, 1:30, 4:30, 7:30 and 10:45.

FOX—"The Ritz Brothers in Straight, Place and Show," with Richard Arlen and Phyllis Brooks, at 1:40, 4:25, 7:15 and 10:05; "King of Alcatraz," with Lloyd Nolan, Gail Patrick and J. Carol Nash, at 12:45, 3:31, 6:19 and 9:07.

LOEW'S—"Boys Town," starring Spencer Tracy and Mickey Rooney with Henry Hull and Leslie Fenton, at 10:47, 12:35, 3:06, 5:20, 7:31 and 9:42.

MISSOURI—"Four Daughters," featuring the Lane Sisters, Gale Page, Jeffrey Lynn and John Garfield, at 12:30, 3:30, 6:35 and 9:35; "The Lady Objects," featuring Gloria Stuart and Lanny Ross, at 2:25, 5:30 and 8:30.

ST. LOUIS—"Frankenstein" (revival), with Boris Karloff, John Boles and Max Clarke, at 1:40, 4:05, 7:10 and 10:15; "Dracula" (revival), with Bela Lugosi and Helen Chandler, at 2:45, 5:55 and 8:55.

P.S. "Boys Town" is a Me Better hurry, enter now.

The Mo

Motion Pictures for Delightful Entertainment

HOLLYWOOD BRAGS ABOUT ITS NOTABLES

Power of the Screen Supreme for Making Names Known in the Far Corners.

major Hollywood studio crowds more world names than these. Paramount, for example, has 26 actors and inside its walls are Bing Crosby, Jack Benny, John Barrymore, Claudette Colbert, Ronald Colman, Gary Cooper, Bob Burns, Irene Dunne, Cecil B. DeMille and a dozen more.

It takes all of New York to equal this list, and there are six other major studios to add their notables to the Paramount roster.

For world reputations, Manhattan has the Rockefeller, J. P. Morgan and some of his partners, Walter P. Chrysler, Gerard Swope, a few scientists and a decreasing number of financiers.

Listings by Cities.

Consider Chicago. Its most famous residents are the Cudahy, the Boring and Swift families, Charles G. Dawes, Vincent Bendix, Thornton Wilder and a few more.

In Detroit it's Henry Ford, in Baltimore it's H. L. Mencken. San Francisco has Stanley, Dollar, A. P. Giannini and Rudolph Spreckels; Denver has Charles Boettcher, New Haven has Dr. Harvey Cushing, and Wilmington the celebrated du Pont family.

The first citizen of Indianapolis is Paul V. McNutt, Philadelphia has High Commissioner, Atlanta has the peerless Bobby Jones and the soft drink magnate Charles H. Candler, while New Orleans boasts of Samuel Zemurray, head of the fabulous United Fruit Co. Smallest town where William Allen White has made himself a great reputation.

For world capitals, London probably has the most notables—the royal family, of course, along with Prime Minister Chamberlain, and two or three of the more prominent Cabinet officers. In Paris, Premier Daladier hasn't much company, and in the dictators the dictators are alone and, what's more, insist on it.

Hollywood, which after all is just a district in the city of Los Angeles, has, by contrast, some 200 famous people—people whose doings make news.

Not only in words, but in pictures, Hollywood has world supremacy. Some 40,000 pictures are sent out from the movie center every week, an unequalled record. It adds up to one thing—Hollywood is the one place known intimately around the world.

Potter to Direct "The Castles."

HOLLYWOOD, Cal., Sept. 30.—Henry Potter will direct "The Castles," next co-starring vehicle for Fred Astaire and Ginger Rogers.

"The Castles" will be based on the lives of Irene Castle and her late husband, Vernon Castle, who, more than 20 years ago, were internationally famous dancers. Mrs. Castle is now at the RKO radio studio as technical adviser and costume designer on the coming film.

RADIO, CABLE AND GOVERNMENT USED TO GET HOLD OF AUTHOR

Studio Finally Locates Corey Ford, Sets Him to Writing Dialogue.

HOLLYWOOD, Cal., Sept. 30.—It took the United States Government, cable, airplane, telephone and telegraph companies to get author Corey Ford to go to work at the Hal Roach Studios.

Ford was wanted, but badly, by Producer Milton Bren to do additional dialogue for the production of "Tupper Takes a Trip" which Norman McLeod is directing. But the last that had been heard of Ford was that he was off the Aleutian Islands somewhere in the Bering Sea, prowling around icebergs and fish sanctuaries with members of the Biological Survey of the U. S. Alaska Game Commission.

Bren sent a broadside of radio messages and cablegrams addressed to the boat Brown Bear and scores of Alaskan points. When these failed he appealed directly to the Federal Government. Under the reported Ford had left the boat and was headed for New York. Bren got on a telephone and had his secretary start sending wires.

Finally Ford was located just as he stepped from a plane in Portland, Ore. Brought to the telephone, Ford agreed to come to Hollywood. In the meantime his plane left without him, but with his baggage. Then

STOCKS ARE BOUGHT ON PASSING OF WAR CRISIS

One of Most Exciting Openings in Months Follows Settlement of European Situation—Bullish Markets Abroad Precede U. S. Trading.

By the Associated Press.
NEW YORK, Sept. 30.—Stocks swept upward 1 to more than 5 points today as the market as Europe's war crisis collapsed. Heavy overnight buying from all parts of the country and abroad swamped the Stock Exchange during the first half hour's trading and the ticker tape was behind as much as two minutes throughout this period as large blocks of the favorites changed hands at soaring prices.

The feverish rush to get aboard the ascending wave of momentum near the second hour and, from then on, the proceedings were orderly.

Transfers for the full session were 1,997,860 shares. Profit taking came into the picture after the initial burst of speed and extreme gains were reduced in some cases at the close.

Adding steam to the extension of Thursday's rally was the "big four" peace agreement reached at Munich, and later accepted by the Czechs, whereby the Reich would be permitted to gradually take over the Sudetenland beginning tomorrow.

Some Profit-Taking.
On top of this, markets were further stimulated by announcement of Great Britain's Prime Minister Chamberlain and French Premier Laval had discussed new Anglo-French anti-war measures which gave further impetus to the general peace movement abroad.

Some speculative contingents, while highly pleased with the turn of affairs overseas, inclined to cast doubt on the run-up of the past week because of the ancient market precedent of unloading when the "good news" is out. These were of the opinion that the rally was too late to keep up the forward swing.

It was also observed that the industrial averages had again approached the level at which large offerings have been encountered in the past month or so.

Among the Gainers.
Conspicuous share gainers included U. S. Steel, Bethlehem, General Motors, Chrysler, Goodyear, U. S. Rubber, Sears Roebuck, Montgomery Ward, American Telephone and Telegraph, Consolidated Edison, North American, American Smelting, International Nickel, Westinghouse, Du Pont, Allied Chemical, Eastman Kodak, Philip Morris, Coca-Cola, United Fruit, and others.

U. S. Treasury Secretary said that the Treasury had received \$1,000,000,000 in new bonds, the largest amount in the history of the Treasury.

LEAGUE ASSEMBLY
VOTES TO DIVORCE
COVENANT FROM
VERSAILLES PACT

At Britain's Urging, Geneva Agrees to Cut Loose from Peace Treaty—Governments Must Accept Proposals.

WAY LEFT OPEN FOR GERMANY TO JOIN

Litvinov Assails "Hypocrisy and Lies" in International Situation—Seeks Withdrawal of Alien Troops in Spain.

By the Associated Press. GENEVA, Sept. 30.—The Assembly of the League of Nations today accepted the principle of separating the League Covenant from the Versailles treaty.

The League of Nations was born of the post-war peace pact and the Covenant—its Constitution—was written into the Versailles treaty. Approval of separating them, coming a day after the Munich conference on Czechoslovakia, paves the way for erasure of one of Germany's main arguments against membership.

The Assembly accepted the recommendations of a subcommittee for the separation. The Governments represented in the Assembly now must ratify the recommendations which were made in the form of an amendment to the Covenant.

Britain Urges Change. The British Government had urged the change, declaring that separation of the Versailles treaty and the Covenant "changes neither the permanent sense nor the spirit of the League."

Germany left the League and has consistently refused to co-operate with it. Hitler's prime objection was that the Versailles treaty, which was imposed on defeated Germany after the World War, was coupled directly with the Covenant of the League.

Poland and Hungary vainly opposed adoption of the report which recommended that the League be empowered to deal with "war or the threat of war" without unanimous approval of the membership. Unanimity now is necessary.

Their opposition apparently was designed to prevent the League from taking up possible war threats arising from their claims for parts of Czechoslovakia in the dismemberment agreed on at the four-power meeting in Munich yesterday.

France From De Valera. The Assembly voted a resolution asking that the League Council consider the plan of the Spanish Government for the withdrawal of foreign troops from both warring armies in Spain.

Ramon de Valera, Prime Minister of Ireland and president of the Assembly, brought the session to an end with praise for the "statesmen who have just delivered the world from the nightmare of war."

In view of the still delicate international situation, however, the Assembly left definite claims to be decided by De Valera according to developments in Central Europe.

Litvinov Assails Hypocrisy. Maxim Litvinov, the Soviet Union's Commissioner of Foreign Affairs, bitterly sarcastic as the Munich conference proceeded with Russia on the sidelines, told the League Assembly's political committee yesterday that the international atmosphere is filled with "hypocrisy and lies."

SENATE ELECTIONS IN DOZEN STATES UNDER INQUIRY

Chairman Sheppard of Committee Asserts He Expects Investigators to Be Busy Until November.

By the Associated Press. WASHINGTON, Sept. 30.—The Senate Campaign Expenditures Committee, which received more than 600 complaints of political abuses in the primaries, still has investigators busy in a dozen states developing information on a mass of charges.

Reviewing the work of the committee in the last three months, Chairman Sheppard said today he expected the investigating staff to be active up to the November election. The committee has the job of policing the election of Senators as well as the primary nominating process. It has put into its closed files all of the complaints received concerning the Missouri and Ohio primaries, Sheppard said, but is continuing to investigate charges in connection with the primaries in Tennessee, Kentucky, Maryland, California, Pennsylvania, Georgia, North Dakota, South Dakota, Illinois, Indiana, Arkansas and Wisconsin.

To Report to Senate. "Our work will not be over until long after the general election," he said. "Then we will assemble our information for a report to the Senate."

Sheppard declined to say whether the report would contain recommendations that might lead to an election contest in the Senate. The committee has said that in Kentucky its investigators found "a deplorable situation" and promised to submit full facts to the Senate. It investigated charges that WPA workers had been influenced to support Senator Barkley, the Democratic leader who was renominated over Gov. A. B. Chandler, and charges that State employees were assessed for the benefit of Chandler's campaign fund.

Tennessee Inquiry. In Tennessee, the committee, wading in charges concerning political activities by WPA officials, reported that it had found evidence that might justify an election contest. Senator George Berry was defeated for Democratic renomination by Thomas Stewart.

Sheppard said the Senate committee yet must decide on the amount of money that would constitute "excessive expenditures." Candidates' reports on expenditures have varied from a few cents to \$98,000.

In the general election campaign, the committee will be guided by the Federal Corrupt Practices Act, which fixes maximum campaign expenditures by senatorial candidates at \$25,000. Exempted from this limit, however, are personal expenses, postage, stationery, telephone and some other expenditures. The Supreme Court has held that the Corrupt Practices Act does not apply to primaries.

NEW YORK WEEKLY SUSPENDS, DUE TO NEWSPAPER GUILD ROW

Miss Vera Montgomery, Advance Proprietor, Refused to Reinstatement Two Employees.

NEW YORK, Sept. 30.—"The New York Advance," a weekly newspaper published by Miss Vera Montgomery and employing 20 persons, announced suspension of publication yesterday as a result of a dispute with the American Newspaper Guild. The suspension became effective with yesterday's issue.

The dispute started July 15 following the dismissal of two editorial employees. The case was submitted to the New York State Mediation Board and when no decision was reached the issue was submitted to Ben Golden, labor consultant. Golden ordered reinstatement of the two employees, but the management, contending that he had overlooked its testimony, refused to accede. This brought about the resignation of William M. Wilson, general manager, and L. Richard Cuper, managing editor, whereupon Miss Montgomery decided to suspend publication.

"The New York Advance," which was formerly "The Yorkville Advance," was founded in January, 1934, by Fraser McCann, grandson of Frank W. Woolworth. It was sold to Miss Montgomery in June, 1936. Miss Montgomery was a candidate for City Council last year.

'I GO TO CHURCH' CAMPAIGN COMMENDED BY ROOSEVELT

In Letter Expresses Hope for Success of October Attendance Drive in St. Louis.

The "I Go to Church" attendance campaign to be observed here during October has been commended by President Roosevelt in a letter to the Rev. Dr. Clark Walter Cummings, executive secretary of the Metropolitan Church Federation of St. Louis.

"Ours is a great spiritual heritage from our fathers," the President wrote, "and with that heritage comes the obligation to perpetuate and hand on to those who shall come after us the noble tradition which we have received out of the past."

"I am always glad to hear of every undertaking to quicken and increase the interest of our people in religion and I wish for the church attendance campaign of the Metropolitan Church Federation of St. Louis the fullest measure of success."

CHINESE HALT JAPANESE DRIVE TOWARD HANKOW

Report Detachments Driven Back on Highway at Point 95 Miles From Military Capital.

By the Associated Press. SHANGHAI, Sept. 30.—Chinese reported today that their forces had driven back Japanese detachments on the Juichang-Wuning highway approximately 95 miles southwest of Hankow, Chinese military capital.

The report said the Japanese suffered 6000 casualties in the area, south of the Yangtze River, toward which Japanese are driving toward Hankow.

Japanese declared today that after the capture of Tienkichen forts, which command Yangtze River narrows 90 miles downstream from Hankow, 8000 Chinese dead were picked up on the battlefield.

WASHINGTON PREPARING TO FIGHT OFF STARLINGS

New Trap to Be Tried Out; Smithsonian Institution Gets Out Cannon.

By the Associated Press. WASHINGTON, Sept. 30.—Washington took measures today to combat the annual plague of starlings. Clifford Lanham, official starling scarer for the District of Columbia, ordered his men to stand by their starting-scaring balloons.

Dr. Clarence Cottam of the Bureau of Biological Survey, announced the completion of a new starting trap. The Smithsonian Institution unlimbered its starting cannon—a gadget that automatically fires itself at intervals all night.

Other cities have starlings but not in flocks as does Washington. The little birds infest the public buildings every autumn, chatter by night, keep people awake and break down the trees.

LOYALISTS RETAKE HILL POSITIONS ON EBRO FRONT

Hand Grenade Attacks Said to Have Won Back Posts, Near Gandesa, Which Were Lost Tuesday.

By the Associated Press. HENDAYE, France (at the Spanish frontier), Sept. 30.—Only one minor engagement, on the Belmes sector in Southwestern Spain, was reported today in the Spanish civil war. Insurgents said the Government attack there was repulsed.

Dispatches from Barcelona last night said Government forces, fighting in July between heavy rains, had reconquered two important hill positions on the Ebro front.

The positions, near highways from Gandesa to Elx, were lost to the insurgents Tuesday. They were numbered on military maps as hills "371" and "231."

The Government advised said it: heights were recaptured in hand grenade attacks.

LEAGUE ASSEMBLY
VOTES TO DIVORCE
COVENANT FROM
VERSAILLES PACT

At Britain's Urging, Geneva Agrees to Cut Loose from Peace Treaty—Governments Must Accept Proposals.

WAY LEFT OPEN FOR
GERMANY TO JOIN

Litvinov Assails "Hypocrisy and Lies" in International Situation—Seeks Withdrawal of Alien Troops in Spain.

By the Associated Press.
GENEVA, Sept. 30.—The Assembly of the League of Nations today accepted the principle of separating the League Covenant from the Versailles treaty.

The League of Nations was born of the post-war peace pact and the Covenant—its Constitution—was written into the Versailles treaty.

Approval of separating them, coming a day after the Munich conference on Czechoslovakia, paves the way for erasure of one of Germany's main arguments against membership.

The Assembly accepted the recommendations of a subcommittee for the separation. The Governments represented in the Assembly must ratify the recommendations which were made in the form of an amendment to the Covenant.

Britain Urges Change.
The British Government had urged the change, declaring that separation of the Versailles treaty and the Covenant "changes neither the permanent sense nor the spirit of the League."

Germany left the League and has consistently refused to co-operate with it. Hitler's prime objection was that the Versailles treaty, which was imposed on defeated Germany after the World War, was coupled directly with the Covenant of the League.

Poland and Hungary vainly opposed adoption of the report which recommended that the League be empowered to deal with "war or the threat of war" without unanimous approval of the membership. Unanimity now is necessary.

Their opposition apparently was designed to prevent the League from taking up possible war threats arising from their claims for parts of Czechoslovakia in the dismemberment agreed on at the four-power meeting in Munich yesterday.

Praise From De Valera.
The Assembly voted a resolution asking that the League Council consider the plan of the Spanish Government for the withdrawal of foreign troops from both warring armies in Spain.

Eamon de Valera, Prime Minister of Ireland and president of the Assembly, brought the session to an end with praise for the "statesmen who have just delivered the world from the nightmare of war."

In view of the still delicate international situation, however, the Assembly left definite closing to be decided by De Valera according to developments in Central Europe.

Litvinov Assails Hypocrisy.
Maxim Litvinov, the Soviet Union's Commissioner of Foreign Affairs, bitterly sarcastic as the Munich conference proceeded with Russia on the sidelines, told the League Assembly's political committee yesterday that the international atmosphere is filled with "hypocrisy and lies."

Litvinov spoke to urge appointment of a League committee to supervise withdrawal of foreign soldiers from the Government side of the Spanish civil war. (The Spanish Government has estimated there are 10,000 foreigners in its army and 100,000 in the insurgent.)

Such a move, Litvinov said, would be harmless, not even involving the wrath of "the present masters of Europe before whom some delegations feel it necessary to tremble." It would clear the international atmosphere of "its hypocrisy and lies," he added.

Referred to the Council.
The Spanish Government's request for League supervision of the withdrawal was referred to the Council after consideration by the Assembly committee. The decision came on a motion of the British delegate, Richard Austen Butler.

Butler had taken the stand that the London nonintervention committee was the only organization capable of dealing with the matter.

WAR SECRETARY ASSAILS
RETIRING GEN. MOSELEY
AS 'FLAGRANTLY DISLOYAL'

Denounces Him for Criticism of New Deal—No Indication Given of Disciplinary Action.

By the Associated Press.

WASHINGTON, Sept. 30.—Secretary of War Woodring termed "flagrantly disloyal" today a statement issued by Major-General George Van Horn Moseley upon Moseley's retirement from the army.

Retiring on reaching the statutory age of 64, Moseley, one of the army's outstanding commanders, criticized administration relief and other policies in his statement, issued at Atlanta, Ga.

Woodring, in a statement, said: "Because he was disappointed in his ambition to become Chief of Staff of the American armies, Major-General George Van Horn Moseley has celebrated his retirement from military service by assailing the Federal Government and, by inference, attacking his Commander-in-Chief. (President Roosevelt is Commander-in-Chief of the army and navy.)"

"As to the reasons that Gen. Craig (Gen. Malin Craig, army Chief of Staff) was preferred for the important post, I do not think anyone needs to look farther than to read Moseley's flagrantly disloyal statement."

"Obviously the General is entitled to his own views on Governmental and other policies but I have an idea that Gen. Moseley's brother officers will be as much astonished and dismayed by this exhibition of pique and bad taste as the general run of American citizens who believe and have always accepted the theory that an American officer's loyalty to his chief did not cease when he went off active service."

"Though he retired today, he continued to be an officer of the army, receiving the inactive pay which in his case is approximately \$6000 a year."

At the War Department, there was no indication any disciplinary action was contemplated.

What Gen. Moseley Said in Criticism of Administration.
ATLANTA, Ga., Sept. 30.—Major-General George Van Horn Moseley, retiring as commander of the Fourth Corps Area and the Third Army, said today the United States

faced danger of "decay within." Moseley, ending 43 years of active service, declared, as a private citizen, "the unfortunate attitude of some of our Government officials" and asserted the army "stands firm as the one stable element in an unstable and shifting domestic scene."

He said: "In addition to a lack of outstanding leadership, our Government has recently suffered from an indigestible mass of untied theories and ideas upon which we have lavished the greatest peacetime appropriations in our nation's history."

"We do not have to vote for a dictatorship to have one in America. We have merely to vote increased governmental responsibility for our individual lives, increased Government authority over our daily habits, and the resultant Federal paternalism will inevitably become dictatorship."

Major-General Stanley D. Embick succeeds Moseley, one of four officers to receive the Distinguished Service Medal twice.

MEMBERS NULLIFY LEAGUE
MEASURES AGAINST JAPAN

Council Adopts Report on China's Plea, but No Nation Will Take Punitive Action.

By the Associated Press.
GENEVA, Sept. 30.—The League of Nations Council adopted today a report on China's appeal to have punitive measures against Japan declared applicable by the individual member nations.

The League states' spokesmen, however, made it plain that none would use the authority Soviet Russia and New Zealand indicated they were ready to take action against Japan if other League members joined them, but all other delegations were silent.

Many Americans Go to Dublin in Hope of Getting Sailing Bookings Here.

DUBLIN, Sept. 30.—Thousands of men, women and children entered Ireland from Great Britain yesterday despite widespread belief the Munich conference would avert a European war. Extra steamers were pressed into service on the Irish Sea to accommodate them.

Among the arrivals were many Americans who crossed from England in hope of getting liner bookings home. All shipping lists were filled at the moment, however.

More than 2000 persons arrived at Dun Laoghaire yesterday morning and 1000 landed at North Wall, Dublin. There were 1500 arrivals at Rosslare, on the southeastern coast of Ireland, from Fishguard, Wales.

3 DIE IN STORM NEAR NAPLES

Building Collapses on Victims; 12 Are Missing.

By the Associated Press.
NAPLES, Italy, Sept. 30.—A torrential rain during the night caused at least three deaths and considerable property damage in small towns near Naples.

The three victims were buried with 12 others under a building which collapsed at Nivano. Firemen searched for 12 missing after recovering three bodies.

FIVE KILLED AT ARMS PLANT

Explosion 35 Miles from Rome; 37 Fatalities There Jan. 29.

By the Associated Press.
ROME, Sept. 30.—Five persons were reported killed in a powder explosion yesterday at Colle Ferro, 35 miles from Rome.

Thirty-seven died when a section of the same munitions plant was blown up Jan. 29.

Critic of New Deal

GEORGE VAN HORN MOSELEY

faced danger of "decay within." Moseley, ending 43 years of active service, declared, as a private citizen, "the unfortunate attitude of some of our Government officials" and asserted the army "stands firm as the one stable element in an unstable and shifting domestic scene."

OPEN HEARINGS ON MONOPOLY
TO BEGIN AFTER ELECTION

Senator King to Urge That Experts From Brookings Institution Be Employed.

By the Associated Press.
WASHINGTON, Sept. 30.—Some members of the Government Monopoly Investigating Committee said today that an informal agreement had been reached to delay open hearings until after the November election.

The hearings originally were scheduled to start next month. One member said the delay could be considered as an additional assurance to business that the investigators did not intend to make political capital of their findings.

Senator King (Dem.), Utah, said it was his understanding that the material being assembled by the six Government agencies participating in the survey would not be ready for six weeks or two months.

King will urge the committee to employ experts from the Brookings Institution to correlate the facts developed by the departments' study of alleged monopolistic activities. The committee has designated Leon Henderson, its executive secretary, to carry out this work.

WAGE LAW CHIEF EXPECTS
COMPLIANCE IN SOUTH

BIRMINGHAM, Ala., Sept. 30.—Elmer F. Andrews, administrator of the Federal wage-hour law, disclosed last night any fear the South would "adopt a bootlegging attitude" toward the legislation.

He addressed several hundred Southern business leaders at the request of the Southern States Industrial Council.

Application of the law, Andrews said, is to be fair, but "with sympathy and understanding. We do not look forward to violations, prosecutions, convictions, fines and jail sentences."

MUNITIONS TRAIN REPORTED
BLOWN UP ON CZECH BORDER

German Dispatches Say Explosion Across From Poland Caused Anxiety Along Frontier.

BERLIN, Sept. 30.—Official German news agency dispatches for a third time at the urging of President Roosevelt and other national and State leaders after having expressed a desire to return to private life and the banking business he left to become Lieutenant-Governor in 1928.

Lehman's consent to enter the race for the State's first four-year governorship marked the second time he has accepted a draft by the party. In 1908 he campaigned for a third term at the urging of President Roosevelt and other national and State leaders after having expressed a desire to return to private life and the banking business he left to become Lieutenant-Governor in 1928.

Lehman, who himself had refused to be considered for Governor, preferring to stand for re-election, delivered the keynote address to the convention, denouncing the "regressive Republican record." He said the Republicans were "last minute hitch-hikers seeking a free ride on the progressive band wagon," and announced he was willing to give sympathetic consideration to "any proposal to strengthen and improve the basic purposes" of the Wagner Labor Act.

LEHMAN, FOURTH
TERM CANDIDATE,
ATTACKS DEWEY

Governor Who Named Racket Prosecutor Says Latter Has Dropped Work for G. O. P. Nomination.

WAGNER WILL TRY
FOR SENATE AGAIN

Party Platform "Acclaims Vision of President," Who Has "Strengthened Pillars of Democracy."

By the Associated Press.

ROCHESTER, N. Y., Sept. 30.—New York's Democratic Governor Herbert H. Lehman accepted a fourth term nomination by the party's State convention today with a vigorous attack on the Republican candidate, Manhattan District Attorney Thomas E. Dewey.

Lehman, who yielded to a draft by party leaders, was nominated by acclamation.

"In spite of press reports," the Governor asserted in a brief acceptance speech, "I did not believe that Mr. Dewey would abandon, almost before it had started, that important work for which he was chosen by the people less than a year ago and for the consummation of which he accepted an obligation to the people."

Referring to Dewey's racket-prosecuting activities, he added: "Every man and woman knows of my deep interest in clean, honest government and in law enforcement."

"The designation by me of Mr. Dewey as special prosecutor to act against racketeering and corruption in office New York City was entirely inexperienced."

Reviewing briefly his own record, the Governor termed Dewey "entirely inexperienced in either administrative or legislative activities."

"There is no indication," Lehman said, "that he is familiar with either the fiscal or social problems of government of a great state of 13,000,000 people."

A party platform endorsing the "vision and leadership" of President Roosevelt was adopted by the convention. The platform was reported to have been dictated in part by the Governor, once termed "my good right arm" by the President.

"We acclaim the courage, vision and leadership of the President of the United States," it read. "His administration has restored the confidence of the people and strengthened the pillars of democracy."

National and State Democratic Chairman James A. Farley announced the Governor's decision and added that the present State ticket, with the exception of the lieutenant-governorship, to be filled by Supreme Court Justice Charles P. Pettit, former counsel to the Governor, would be renominated.

Probable Lineup.
The picture, as the day's convention session opened, showed this almost certain lineup:

For Lieutenant-Governor—Supreme Court Justice Charles P. Pettit, a recent delegate to the State constitutional convention, with American Labor party support.

For United States Senator (six-year term)—Robert F. Wagner, ardent New Dealer.

For United States Senator (short term)—Representative James M. Mead, Buffalo, New Dealer.

For Congress—Carl L. Albert—Mrs. Caroline O'Day of Rye and Matthew J. Merritt of Flushing.

For Attorney-General—John J. Bennett Jr.

For Comptroller—Morris S. Tremaine.

Mead, if elected, would fill the Senate seat of the late Royal S. Copeland, a post for which Gov. Lehman earlier had expressed preference.

The Governor, who had withstood the united pleas of party leaders that he stand for re-election since Wednesday night, was not immediately available for comment on his decision.

Lehman's consent to enter the race for the State's first four-year governorship marked the second time he has accepted a draft by the party. In 1908 he campaigned for a third term at the urging of President Roosevelt and other national and State leaders after having expressed a desire to return to private life and the banking business he left to become Lieutenant-Governor in 1928.

Lehman, who himself had refused to be considered for Governor, preferring to stand for re-election, delivered the keynote address to the convention, denouncing the "regressive Republican record." He said the Republicans were "last minute hitch-hikers seeking a free ride on the progressive band wagon," and announced he was willing to give sympathetic consideration to "any proposal to strengthen and improve the basic purposes" of the Wagner Labor Act.

California Nominees Visit White House

FROM left: ELLIS E. PATTERSON, Democratic nominee for Lieutenant-Governor; COLBERT L. OLSON, candidate for Governor; and SHERIDAN DOWNEY, who defeated William G. McAdoo for the senatorial nomination, after their visit in Washington with President Roosevelt.

JAPANESE PREMIER
TAKES FOREIGN OFFICE

Puts on Added Duties When Minister Resigns Over Differences With Army.

By the Associated Press.

TOKIO, Sept. 30.—Premier Prince Fumimaro Konoye took over today the post of Foreign Minister in his own Cabinet following the resignation of Gen. Kaseki Ugaki as a result of conflict over Japanese policy in China.

A month's disagreement within the Cabinet over the extent of army and navy control of affairs in China had preceded Ugaki's resignation. Ugaki's special advisers, former Foreign Ministers Hachiro Arita and Naotake Sato, also resigned.

Government officials said there would be no change in Japan's foreign policy.

The 70-year-old Ugaki is known as a liberal and long has been at odds with the dominant faction in the army over the general lines of imperial policy.

He succeeded Koki Hirota, as Foreign Minister last May 26 in a Cabinet shakeup interpreted at the time as designed to rally all factions behind efforts to win an early victory in China.

Arita and Sato, his advisers, advocated moderation toward China, when each held the Foreign Affairs portfolio before the outbreak of the Chinese-Japanese conflict on July 7, 1937.

Ugaki's resignation was reported due to differences with the army over the administration of the

China affairs board, an extra-governmental organ to maintain contact between the Japanese Government and Japanese-sponsored administrations in China. The army would hold the balance of power under the present scheme for the functioning of the board.

The President answered that he had no plans when asked if he would make trips to Wisconsin, Pennsylvania or Michigan before the election.

In response to press conference questions regarding the four-power agreement for the partition of Czechoslovakia, Mr. Roosevelt told reporters all he had to say was that a very wonderful service had been performed by Secretary Hull, Sumner Welles, Undersecretary of State, other State Department officials and the American diplomatic

ROOSEVELT TO END
TENSE WEEK WITH
TRIP TO HYDE PARK

Praises State Department and U. S. Diplomats for Team Play in Czech Crisis.

By the Associated Press.

WASHINGTON, Sept. 30.—President Roosevelt said today that reporters would learn Jan. 2—when Congress meets—whether he would have a new Government reorganization bill.

The administration's reorganization program was pigeonholed by the House in the last session, and leaders have indicated a new attempt to pass such legislation would be made.

Asked at his press conference about a discussion he had with administration financial officials on wheat yesterday, he said it was a general survey of the situation regarding that grain. The administration is trying to move wheat abroad, the President said.

Roosevelt replied that he had no news when asked whether he would fill the existing Supreme Court vacancy before the court meets Monday.

He said he had no plans at present for appointing a Comptroller-General, a post which has been vacant some time. He also said he had no news on the appointment of an Ambassador to Russia or the appointment of a successor to John W. Hanes on the Securities Commission.

The President answered that he had no plans when asked if he would make trips to Wisconsin, Pennsylvania or Michigan before the election.

In response to press conference questions regarding the four-power agreement for the partition of Czechoslovakia, Mr. Roosevelt told reporters all he had to say was that a very wonderful service had been performed by Secretary Hull, Sumner Welles, Undersecretary of State, other State Department officials and the American diplomatic

ST. LOUIS POST-DISPATCH

Founded by JOSEPH PULITZER
December 12, 1878
Published by
The Pulitzer Publishing Co.
Twelfth Boulevard and Olive Street

THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight for the rights of the people, never belong to any party, always oppose privilege and class and public plunder, never lack sympathy with the poor, always remain devoted to the public welfare; never be satisfied with merely printing news, always be earnestly independent, never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.
April 19, 1907.

LETTERS FROM THE PEOPLE

Notes on the Cotton Pickers' Strike.
To the Editor of the Post-Dispatch:

WE planters don't know just what to do about this cotton pickers' strike. This isn't the first time the pickers have held out on us for higher wages while our necessities made us add up against each other. They have known how to do that for a long time. But we have known how to manage our end of it pretty well. This time it is a little different, we are afraid. This time it isn't just a battle of wits between the planters and the unorganized and scattered pickers. The pickers claim now that they are organized and that the strike was called by the Southern Tenant Farmers Union, an affiliate of the great CIO. They claim that makes it different, and they have us planters wondering a little about it.

We are away off from the industrial stream and have never met up with unionism of any kind before, so we have no way of knowing whether this is the genuine article or not. If it is, we don't like it. We are pretty sure that it will blow over shortly, but we are a little puzzled by it now. No one can be puzzled very long without some loss of dignity. Next to our pocketbooks we prize our dignity and sense of success and superiority. These striking pickers ought to know how we are that way, and if they want to avoid bloody conflict they'd better do nothing to injure our self-esteem.

Things are coming up in this affair that we never would have anticipated at all. We cross the river with trucks each day and haul hundreds of pickers out of Cairo and other Southern Illinois towns. This morning when our trucks got to Cairo we found that a delegation of strikers from this side had beat us across the river and were busy working on the Illinois pickers, and had already persuaded many of them to join the strike. Not only that, they had stationed pickets at the bridge who had a lot to say about it being unlawful to transport strike-breakers across state lines.

We hadn't thought about that and, of course, we paid no attention to their talk and came right across with what pickers we could get. But now we are wondering a little if these pickers know more about labor laws than we do. Do you suppose that some fool law drawn to fit the great industrial sections could possibly be dragged off down here to mess up our affairs in the cotton country?

I guess what we need is to have a Labor Board specialist sent to us to see if he knows how to make his labor laws fit down here. Probably he would be puzzled, too, and find a good many more questions raised than he had answers ready to supply.

THAD SNOW,
Charleston, Mo.

Let the Humble Speak.

To the Editor of the Post-Dispatch:
It has been said that the pen is mightier than the sword; then let words help fight this battle for world peace.

Why do women so meekly let the mighty ones decide whether their dear ones shall die in war? They pay through lonely years of grieving for their lost ones.

There are those who sit in seats of power who say that might makes right, but there was a Man who died to teach us peace on earth and good will to men; He was of humble birth and spoke to the humble; let the humble make it known that they are in His line.

ELIZABETH B. ROENTGEN.

Psychology of the Jitterbug.

To the Editor of the Post-Dispatch:
In your editorial, "The Swing Craze," you say that psychologists are baffled by the jitterbugs. That must be because their spiritual education has been neglected. Jitterbug is nothing new. It is a new name for an old disease. It is a very fundamental part of human nature under a new management, as it were.

In a former era, if you could trace them, you would find the great-granddaddies of these jitterbugs falling all over the place under the preaching of a Cartwright, or one of his many contemporaries, at one of those old-fashioned camp meetings.

Yes, it is mass intoxication, but whether the results are desirable or otherwise depends on the kind of spirit. Man is a worshipping animal, and if deprived of his rightful object of worship he will find for himself other gods, a fairy-tale princess, a swing band leader or almost any old thing.

It appears that the jitterbugs are only good, potential religionists gone wrong, and are to be pitied for their plight, rather than condemned.

MYRTLE LASELEY,
Mound City, Ill.

Sudeten and Slovaks.

To the Editor of the Post-Dispatch:

MAY I answer the Irish-American who likened Hitler's Sudeten problem to a possible Irish annexation of Boston? Unlike the millions of Irish and Germans who left their native lands and gave their children to these United States, the Sudetens neither left their native land nor desired to give their children to the Czechs.

The Sudeten problem is the same as the Slovaks'. The late Father Hlinka, who devoted his life to the Slovak problem, said: "Czechoslovakia—that means nothing less than slaves of the Czechs!"

C. & F., 26.

PEACE!

Peace has been saved, when only a few short hours ago it seemed that Europe was about to be plunged into the maelstrom of war.

It is an epochal victory that has been won for reason against unreason—a victory that entitles the two last days of September, 1938, to be heavily underscored in the history of the world. For on those days, at Munich, in the conference among Hitler, Chamberlain, Daladier and Mussolini, was written an agreement which, it is not too much to say, pulled Europe back from the brink of a war that might at the end have wrought the destruction of modern civilization.

A terrific price has been paid. Czechoslovakia has been sacrificed on the altar of peace. Hitler, at the point of the gun that he leveled at Europe, has gained all the essential points in his demands. Without the firing of a shot, he has marched on.

Austria, then Czechoslovakia. The world will wonder where the steady carrying out of the program that he laid down in "Mein Kampf" will take him—where it will take the world.

There is compensation for the Czechs, in some degree, in the immediate guarantee given them by Britain and France of the boundaries to remain after the Sudeten lands, some of them immediately and some after plebiscites, have been carved off. Czechoslovakia is saved from the threat of total extinction as an independent state. Nationhood, at least, remains to it, and nationhood would have been ended if the German Fuehrer had been permitted to execute his desires to the full. But the bargain by which the dictator is called off remains as bitter a pill as ever a sovereign state has had to swallow.

The plight of Czechoslovakia and the fear of what yet may come from the pressure of the dictatorships of Europe upon the democracies—these are thoughts that must give a sober tone to today's heartfelt rejoicings over the triumph of peace.

In the other side of the scales there is a gain of incalculable value to the world in the transformation, almost overnight, of Europe's psychology of war into a psychology of peace. Face to face with the hideous perils of war, Europe drew back. Today Europe breathes, with the rest of the world, a sigh of relief. The time is ripe for agreements that may help to strengthen the still frail structure of peace.

The errors, the injustices, the follies that brought Europe to the edge of war were not in issue at Munich. The issue, as President Roosevelt pointed out in his great messages, had been narrowed down to the means of executing an agreement that had already been reached in principle. That narrow difference dividing the Powers was wiped out.

Not since the armistice of 20 years ago has the world had such cause for thanksgiving.

Peace won a victory over odds that seemed hopeless.

May Peace march on and on!

MINNESOTA AND ITS UNIVERSITY PRESIDENT.

In an appraisal of the leading American universities three years ago, Dr. Edwin R. Embree, president of the Julius Rosenwald Foundation and one-time officer of both Yale and the Rockefeller Foundation, wrote: "Under intelligent leadership of president and deans, infused equally with imagination and common sense, with political sagacity and downright courage, the University of Minnesota offers today the finest example of what a university may mean in influence upon a whole great state." It is an evaluation which Minnesota may now recall with just pride as it mourns Dr. Lotus Delta Coffman, who, as president of its university from 1921, was so largely responsible for the rise of Minnesota's name in the world of higher education.

Pickle fans may be watching the Pirates and the Cubs, but the tried and true are following the Browns down to the last rose of summer.

THE FEE BOYS LOSE AGAIN.

The Missouri Supreme Court did another excellent day's work Wednesday when it outlawed fee allowances in the amount of \$412,500 which had been awarded three Kansas City attorneys by Judge Nike G. Sevier of the Cole County Circuit Court.

The three attorneys, John T. Barker, Floyd E. Jacobs and Glen C. Weatherby, were employed in 1930 by the then Superintendent of Insurance, Joseph B. Thompson, in a suit to recover funds accruing from a reduction in fire insurance rates that had been ordered by the State Insurance Department back in 1922.

The fire insurance companies had defied the Insurance Department's regulatory power by refusing to comply with the reduction ruling. The attorneys were retained on a contingent basis. If they won, they were to be paid a percentage from any funds available. If they lost, nothing was due them.

Barker and Jacobs have already been paid \$158,000 for their services as special counsel for the Insurance Department from legislative appropriations for the Insurance Department. And they must look to the Legislature for any further compensation, says the Supreme Court, which holds that impounded funds belong to the policyholders, to whom the funds must be returned, and may not be impaired by any arrangement or agency.

This is the second time within a few months that the Supreme Court has reversed Judge Sevier's fee allowances. A case came up last April, involving the sum of \$155,000 which Judge Sevier had allowed custodians of impounded funds and their lawyers, whom Judge Sevier had himself appointed. The beneficiaries in that instance were Lewis Hook Cook, H. P. Lauf, both of Jefferson City, and Gilbert Lamb of Salisbury.

One more fee suit is pending. It has to do with allowances made by Judge Sevier to his appointees, Guy M. Bone, a Circuit Clerk, and T. Speed Mosby, a Jefferson City attorney, whose salaries of \$500 and \$1000 a month, respectively, have reached a total of \$55,000.

With that issue disposed of, the insurance plan

tree will disappear, except historically, from Jefferson City's arborium. It was a luscious bit of forestry in its green leafage and golden fruitage.

MR. DEWEY'S NOMINATION.

According to the scenario long ago sketched out by New York Republican leaders, Thomas E. Dewey, the youthful racket-busting District Attorney, was to have appeared at Saratoga Springs with the scalp of the redoubtable Jimmy Hines at his belt to receive the nomination for Governor. The performance went off as scheduled, with the important reservation that Jimmy Hines' scalp is still intact, and Mr. Dewey's brilliant record as a prosecutor is marred by the anti-climactic finish of the ballyhooed Hines trial.

We are speaking, of course, in terms of drama and of the stage setting for an important candidacy—one which might have a bearing on the presidential race in 1940. Nothing can take away from Dewey his fine accomplishments. He emerged from obscurity as special prosecutor for the famous runaway grand jury, and his unrelenting war on racketeers and their political allies is a red-letter chapter in the history of New York City, where it is somewhat of a tradition that the district attorneyship is an excellent springboard for higher office.

Nevertheless, the outcome of the Hines trial, brought about by an improper question by the District Attorney himself, interposes itself and makes the announcement from Saratoga Springs less imposing than it otherwise might have been. If Dewey is elected over strong Democratic opposition—such opposition as Gov. Lehman would furnish—he will recover his prestige, and then he will have two years to build himself up to presidential size, as many Republicans have been hoping he would do.

Meanwhile, at the same Saratoga Springs convention appeared, in the role of keynote speaker, Bruce Barton, a famous advertising man, is just finishing a first term in Congress, in which he has cleverly used his professional talents to cause himself to be talked about. His recent speech before the Indiana Republicans, in which he counseled an end to the party's smear-Roosevelt policy, made a wide impression and there already is much gossip that he may be the Republican presidential nominee in 1940. If Dewey is defeated in November and Barton is re-elected to Congress, the latter's aspirations will take on a really lively hue.

As candidate for Governor, the public's curiosity about Dewey's outlook toward public affairs will be at least partly satisfied. Up to the present, it has been the District Attorney's settled policy to confine his public statements to the limits of his own activity. Until he opens up, it is impossible to take his measure, except, as said before, as to his excellent record as a prosecutor.

THE CITY ART MUSEUM REPLIES.

The City Art Museum's Board of Control has issued a comprehensive report on the 37 years of its stewardship. Had doubt remained in any St. Louisan's mind as to the merits of the Board of Estimate's late proposal to cut the Museum tax in half and place its purchases under City Hall control, it should have been removed once and for all by the report. The Museum's history, as an independently managed municipal institution, makes the case for freedom from political control fully and completely. No one who is informed will deny that the Museum's standing, through its acquisitions by purchase and by gift, has resulted in the main from its independent management.

The report, however, does not destroy the case of those many friends of the Museum who have wished for greater interest on the part of the Museum board in contemporary and indigenous art and culture. The figures on the proportion of nineteenth and twentieth century American paintings among the Museum's 370 paintings are interesting, but they do not bear directly on the point at issue. The fact remains that during a time when painters like Grant Wood and Thomas Hart Benton have been revitalizing the art of Middle America with robust, interesting interpretations of its life—paintings which have been going into important public and private collections—the Museum has, as its record of recent purchases shows, emphasized antique art objects, culminating in the bronze cast.

The current furor now apparently near its close, should serve two good ends. It should impress on the politicians that St. Louis wants its Art Museum kept free of political interference and control. Second, it should cause the Museum's managers to realize that St. Louis is keenly interested in the significant art which the Middle West is giving to the world—at which the St. Louis Museum cannot afford to slight when museums in distant cities are placing it in their permanent collections.

NOT THE WAY TO START.

The view of the work of the American Bar Association's new Civil Liberties Committee taken by its chairman, Grenville Clark of New York City, is disappointing. According to the Washington Post, Mr. Clark is less concerned about "isolated infractions" of the Bill of Rights than about current "trends" within the Federal Government. It is deficit financing and things like that which worry the head of Frank J. Hogan's new committee.

Deficit financing presents a serious problem; there is no denying that. Yet it would seem that there are many agencies and individuals to discuss continued Federal borrowing and its consequences. The logical field of the Bar Association's new committee, obviously, is the broad field of trespass against the guarantees of the first 10 amendments. These violations concern individuals and they are specific. Moreover, there are enough of them to keep busy the committee which Mr. Clark heads.

We have cited several opportunities for yeoman service for civil liberties by the committee as they have come up in the recent weeks. With Douglas Arant of Birmingham a member, the committee ought to show special interest in the Scottsboro Negroes who are still in prison after the discharge of four of the original defendants on the same charges. With Monte M. Lemann of New Orleans another member, the suppression of civil rights in New Orleans becomes a natural subject for investigation. And Jersey City lies just across the Hudson from New York City, Mr. Clark's residence.

The hope was that the new committee was to be the device for organizing the influence and resources of the American Bar Association in behalf of the never-ending fight for the protection of human rights. It is still possible, of course, to achieve that end. But that will require a decided change in emphasis and outlook.

FOR HOW LONG?

A Billionaire Comes of Age

Dead hand is lifted from nation's second largest fortune after 20 years; in this time its charity record has been nil, but writer predicts a change as social-minded scion takes charge; headlines have presented Marshall Field III only as a playboy, but he has been a sympathetic associate of progressive economists and educators as well.

Milton Mayer in Ken.

THIS week a half-billion dollars passed into the hands of a gentleman whose only claim to it lies in his having been born to the right parents, having reached the age of 45 and having, between those two events, kept out of the way of a street car. But his name is mighty, and his fortune is mightier. On Sept. 28, his forty-fifth birthday, Marshall Field III became, in effect, one of the richest men in the world. Beginning that day he receives the entire income—some \$30,000,000 a year—from his grandfather's estate, plus some \$200,000,000 of accumulated income withheld from him while he was sowing his wild oats. He remains one of three trustees of the biggest estate in America; on his fiftieth birthday the estate passes into his hands outright.

It is high time America found out something about the prospective owner of a half-billion dollars. The country has a stake—however cleverly the lawyers may have protected it from taxes—in what is probably the largest purely personal fortune in America, aside from Ford's.

Who is this Marshall Field III? Where does he stand, and on what? And what is he likely to do for—or to—the country with a half-billion dollars?

As far as the courts are concerned, he is the sole surviving heir of Marshall Field, founder of the world's greatest department store and investor in the weeds and mud on which Chicago's business district now stands. Field's will, going to the limits of the law against perpetuities, was a national scandal. Within a year or two after the merchant's death in 1908, Illinois and most other states passed legislation against tying up such fortunes.

In 1920 Marshall Field III, then 27 years old, tried to break the will. Elihu Root, one of his lawyers, argued that it was contrary to the public interest to paralyze the fortune any longer. But the courts refused to break the will.

What the Field estate is worth today nobody knows. In 1920 Marshall's lawyer said in court that it would amount eventually to a billion dollars. A few weeks ago the most conservative banker in Chicago estimated it at \$400,000,000.

Whatever the principal, Marshall's fraction of the income has been sufficient to support a succession of three very expensive wives and maintain a scattering of mansions for them and himself—not to mention one in Virginia for his horses.

All these items, together with reports of his marriages, his divorces, his fancy-pants hunting expeditions, have long since convinced the American people that Marshall Field III is as unscrupulous as the fortune to which he is heir.

But there is reason to believe that the Field fortune is going to reform. And the reason is Marshall Field III, the same Marshall Field of whom Carl Sandburg wrote so cruelly, when he dared him to enlist in the army, "he is physically and mentally a sort of nobody who travels on his grandfather's name and money." The funny thing, back in 1917, was that Field accepted the challenge. Marshall Field was awakening to public responsibility.

When he was 12 years old, a reporter caught him alone and asked him, "What will you do with your grandfather's fortune?"

He replied—and, remember, this is a boy of 12 talking: "I don't want it. I'd rather not have it. Mother might have it, but, of course, if grandfather wanted me to take it, I'd have to do it. I am going to keep up my studies until I enter some college—the University of Chicago, I guess. And that is the last published interview with the man who has inherited a half-billion dollars.

After that came Eton and Cambridge, a villa near Lucerne, homes in Paris, Italy, England, marriage to a New York heiress, abandonment of Chicago to the accomplishment of Chicago's taxists, more homes and villas, a second marriage to an intimate friend of the Prince of Wales, divorce, marriage, fantastic settlements in Reno, airplane crashes, a Futurity winner, empty directorships of a dozen mighty corporations.

Superficially, Marshall Field III was leading a thoroughly useless life. But no one knew that for many years Field was tutored in economics by Prof. Harold G. Moulton, then of the University of Chicago, now the president of the Brookings Institution.

It is hard to say just what forces were rising to dominance in the man. Some suggest that it was his sober third wife, the former Mrs. Ogden Phelps of New York, whom he married in 1936. Some say that it was the example of his step-grandmother, the first Field's widow, who supported the liberalism of the growing realization that his half-billion dollars would, by the very dynamics of that much money, have something to do with the destiny of the world.

In 1929 the Marshall Field Estate erected the Marshall Field Garden Apartments in the slums of Chicago, and Field was the only one of the trustees who could conceivably have been interested in low-cost housing.

In 1935 the Chicago newspapers, and a wide assortment of reactionaries and hysterics, ganged up on the University of Chicago for "Communism." While the usual farce of a legislative witch-hunt was going on, the trustees received a letter from a man who, after reciting the names of scholars and institutions who had been persecuted through history, asked the university to call on him for support.

The letter was signed, "Marshall Field."

And on Oct. 28, 1936, a group of business leaders endorsed the New Deal unequivocally. There weren't many of them, and only one of them could properly be identified as belonging to the top bracket of wealth and royalty. That one was Marshall Field III.

In 1937 he was elected a trustee of the University of Chicago. He associates these days with men like the brilliant and philosophic Robert M. Hutchins, who uses the presidency of Chicago as a sounding board for his demand that the country provide a college education for the poorest as well as the richest, and Prof. William F. Ogburn, also of Chicago, the nation's most distinguished sociologist and a decided liberal.

And Marshall Field, turning 45 and a billionaire, is not a playboy. Something profound has happened to him in the last few years. Something that has equipped him with the bravado—for it takes bravado in a man with a half-billion dollars—to think of himself as a social animal and of the world as a serious place.

Friends for Mr. Public

Books in the News

ONE of the certain things of life is its uncertainty. Now comes the uncertainty of "Consumer Protection: How It Can Be Secured" (Harper & Brothers, New York), written by Roger W. Babson and his chief aid, C. N. Stone. These statisticians, long dispensers of economic advice to business men and financiers, now have taken up the cause of the consumer.

Although many others have studied the waste of the consumer's dollar, the writers virtually ignore what has been written on the subject. They state that the consumer's best protection is the same tool that business has employed. What could be more natural than statistics—whose preparation has been the chief function of the authors these many years? The writers also urge the establishment of consumer co-operatives.

Although always hopeful in business, the writers have turned near-alarmists in their predictions for the consumer. Unless something is done, they say, the profit system will be destroyed, either by ballot or boycott. Unless an economy of abundance, possible under consumer control, or "consumerism," as the authors call it, is soon established, rather than the defeatist economy of scarcity, the plowing under of crops, we will wake up some day to find one of the other ills in charge. They say that social changes threaten every land because of the dwindling of frontiers, pioneers and investment opportunities.

The information pointing out many of the dishonest methods of production, manufacturing, advertising and selling is in order. Those paragraphs on shoddy merchandise, quick remedies, stocks and bonds, and the expensive credit systems and high financial charges for which the consumer pays to keep himself in debt are interesting, although their substance was often noted before.

The criticisms of fixed prices, so-called "fair trade" price laws and unfair methods of production, merchandising and selling are definite and sound. Some of those on advertising ride the fence. Both consumer and business men are criticized for insisting upon gratis charge accounts, delivery service and other uneconomic practices and services.

It is made clear that despite all the charges leveled at the business man, he has not cornered all the vices, nor has the consumer cornered all the virtues.

While the fine literature on the subject of the last 10 years is practically ignored, some things said are valuable to the consumer. It is encouraging that, although the writers seem to know little about the consumer movement, they are willing to tell the world they have joined it and given it their blessing.

L. E. P.

AMONG fall biographies are two of modern American writers hitherto unused in full-length books. Irving Stetten, "Savior of Horsholm" (Houghton Mifflin Co., Boston), tells the fantastic life story of Jack London, largely in London's own language, with the text often only slightly changed. Mr. Stetten, writer of "Lust for Life," calls him the "greatest popularizer of Scythian America has ever had."

Frederick G. Neuman, in "Irvin S. Cobb: His Life and Letters" (Doubleday, Garden City, N. Y.), draws a rollicking, authorized sketch of Paducah's best-known son. The book contains a raft of stories about Cobb, excerpts from his writings and a collection of his similar—many as paid as the classic: "No more privacy than a goldfish."

KARL MORGAN BLOCK
CONSECRATED BISHOP

Former St. Louis Rector Becomes Coadjutor of California Diocese.

By the Associated Press.
SAN FRANCISCO, Sept. 30.—The Rev. Karl Morgan Block, until recently rector of the Church of St. Michael and St. George at St. Louis, was consecrated Coadjutor Bishop of the Episcopal Diocese of California yesterday.

Thousands of laymen and clergyman crowded Grace Cathedral to witness the service.

The ceremony was conducted by the Rt. Rev. Edward L. Parsons, Bishop of California, to which office Dr. Block will succeed when Bishop Parsons retires in 1940.

The Rt. Rev. William Scarlett, Bishop of Missouri, preached the consecration sermon.

During the service the cathedra, or Bishop's chair, presented to the cathedral by the Rt. Rev. John W. Nichols, retired Bishop of Shanghai, in memory of his parents, was dedicated.

Among the visiting clergymen was the Rt. Rev. Peter Trimble Rowe, 82 years old, of Alaska.

The new Bishop Coadjutor was born in Washington, D. C., Sept. 27, 1856. He has served as rector of churches in New Jersey, Pennsylvania and Virginia, and was chaplain at Camp Dix in 1917 and 1918.

Dr. Block chose the day of his consecration, the Feast of St. Michael and All the Angels, as a tribute to the parish he served for 12 years at St. Louis.

The ceremony began with a procession from the chapter and diocesan house into the rear court of Grace Cathedral, thence around the great structure, and through the arched entrance.

Clergymen at the service included Bishop W. Bertram Stevens, Los Angeles; Bishop Thomas Kenyon, Nevada; Bishop Edward M. Cross, Spokane, Wash.; Bishop Benjamin D. Dagwell, Oregon; Bishop S. Arthur Huston of Olympia, Wash.; Bishop Louis S. Stanford, San Joaquin; Bishop William F. Remington of Eastern Oregon; Bishop Walter Mitchell, Arizona; Bishop Eugene W. Seamen of Northern Texas; Bishop Coadjutor Robert B. Gooden, Los Angeles, and Bishop Noel Porter of Sacramento.

WINNING HIGH SCHOOL ANNUALS

FOR MISSOURI ANNOUNCED

Crested of Columbia and Resume of Springfield Awarded Top Ratings.

By the Associated Press.

COLUMBIA, Mo., Sept. 30.—The Crested of Columbia High School, Columbia, and the Resume of Springfield High School received the two top ratings in the 1938 Missouri Interscholastic Press Association yearbook contest. Prof. E. K. Johnston of the University of Missouri School of Journalism, judge, announced today. Hickman received the all-State honor rating and Springfield the first-class honor rating. The dial of University City High School won the second honor rating and the Deale Echo took the third class honor rating.

The four top ratings were made regardless of size of school. Johnston said. Other awards included: Class B (100 to 399 enrollment)—First, Deale Echo; second, J. M. Vogt High, Ferguson; third, Perryville High; honorable mention, Post High, the School of the Ozarks at Point Lookout and Fredericktown High.

Class C (400 to 699 enrollment)—First, Hickman High of Columbia; second, Chillicothe High; third, Maryville High.

Class D (700 to 999 enrollment)—First, University City High; second, Carthage High.

Class E (1000 or more enrollment)—First, Springfield High; second, Joplin High.

Class I (junior colleges)—First, William Woods College of Fulton.

TRIPS TO BIRD SANCTUARY

Clubs to Visit Cape Girardeau Tomorrow and Sunday.

Two trips through the Audubon Springsdale Bird Sanctuary at Cape Girardeau will be made tomorrow and Sunday by members of the Audubon Society of Missouri in conjunction with those of the St. Louis Club and the St. Louis and Webster Groves Nature Study societies.

Members will register at the Chamber of Commerce on arrival in Cape Girardeau for the trips, which will begin at 2:30 p. m. Saturday and 9 a. m. Sunday. A picnic supper will be served tomorrow night, followed by entertainment and a business meeting.

100TH BIRTHDAY LUNCHEON

Club to Entertain Dr. Newell Patterson, Civil War Veteran.

The one hundredth birthday of Dr. Newell Patterson, Civil War veteran, will be observed with a luncheon at the Elks' Club at the Elks' Club ballroom, 3819 Lindell boulevard, Oct. 12.

Dr. Patterson, who says he is the oldest veteran of the Grand Army of the Republic in this area, is a retired physician residing with his daughter, Mrs. Edith B. Wisegarver, at 1300 Pennsylvania avenue, East St. Louis. He was a member of Company B, Thirty-second Ohio Regiment.

Harrison County Votes Bonds. BETHANY, Mo., Sept. 30.—Harrison County voted 3 to 1 yesterday to issue a \$50,000 bond issue to be supplemented by PWA funds in building replacements for a courthouse constructed in 1874 and a Civil War period jail. The bonds had been defeated twice during the summer. The vote was 5006 to 1544.

ON THE SCREEN, FOR THE TIME BEING

Case Records of a PSYCHOLOGIST

By Dr. George W. Crane
Of Northwestern University

If you wish to learn how to change a crowd of quarrelsome youngsters into a studious group, be sure to read this case.

CASE K-112: Norman M., aged 31, is teacher of a class of boys in Sunday school.

"We have about 12 names on the roll," he announced, "but only six or eight show up on Sunday morning. The boys are quarrelsome and waste half my time keeping them from fighting. They are sixth graders in grammar school, and should be able to prepare their lessons, but they won't."

"I can't rely on their studying, and in the 30 minutes I have them on Sunday morning, I can't do much. Dr. Crane, I tell them they ought to act like gentlemen and study their Sunday school lesson for their own spiritual well-being, but it does no good. What do you advise?"

DIAGNOSIS: There are three basic problems today in religious education. The first involves getting children to come to Sunday school, if only for the one visit.

Problem No. 2 consists of making them enjoy their visit so they wish to come back.

Problem No. 3 consists of stimulating more study and preparation for Sunday school, including greater parent-child co-operation.

All right, how can we get more children to come forth at 9:30 on Sunday morning? Not by talking to them regarding their "spiritual well-being."

A BASIC PRINCIPLE in all human motivation consists of placing appeals in front of your customers to which they can respond easily.

Christ said, "Cast not your pearls before swine lest they trample them under their feet and turn again and rend you." Every advertising agency in America should have that framed and hung in the president's office as a motto. And every teacher or leader of people should know exactly what that statement means.

First of all, it most certainly does not mean using words which sixth-graders do not remotely understand. We do not react to unfamiliar stimuli. "Spiritual well-being" is Greek to sixth-graders. Too many clergymen are still falling far short of their goal not because they haven't intelligence and oratorical skill, but because they continue to use long words and vague generalities.

CHILDREN LIKE rewards, whether of Bibles, gold stars, cookies or lollipops. Motivate them by appeals which have some meaning. When youngsters reach Sunday school and are asked some such question as, "Who killed Goliath?" probably half of them don't know. Nor can they even attempt an answer.

But if you offer each youngster a typed sheet of statements, such as: "Goliath was killed by SOLOMON . . . SAMPSON . . . DAVID . . . ELIJAH" then the child is immediately tempted to take a chance. After he encloses one of those four words in large type, his interest remains keen until he learns if he was right or wrong. These objective forms of examination are not only fun, but they promote more interest and participation on the part of children.

If you readers who are interested in religious education will send me in care of this paper a long, self-addressed envelope with 6c postage thereon. I shall be glad to mail you a free copy of my bulletin on THE PSYCHOLOGY OF RELIGIOUS EDUCATION.

Pancreas :-: Logan Clendening, M. D.

DR. CLENDENING

FOOD UNDERGOES its most profound digestive changes in the small intestine. Here it comes into contact with the secretion from the pancreas. This is the most powerful of the digestive secretions and is capable of digesting any form of foodstuff—protein, starch and fat.

The pancreas lies in the upper abdomen—a long, narrow gland which empties its secretion into the first part of the intestine, just outside the end of the stomach. This secretion then meets and mixes with the food immediately as it leaves the stomach. It is quite abundant, amounting to about a quart a day. The mechanism of the secretion reveals one of those remarkable little adjustments of which living organisms are all compact. The stomach contents are acid. As they are ejected in small squirts, they impinge on the wall of the duodenum (the first part of the intestine). It was found that an acid brought into contact with the duodenal mucosa would cause a prompt secretion of pancreatic juice. This is due to the formation of a substance called secretin, formed by the action of acid on the secretions from the duodenum. When absorbed this secretin acts on the pancreas to promote its secretion. Thus as soon as food from the stomach gets to the intestine, the mechanism is set up to cause the pancreatic digestive juices to pour out to meet it. It is one of those beautiful interlocking adjustments which makes the study of physiology so fascinating.

The pancreatic secretion contains the most powerful digestive enzymes in the whole tract. There are three or four which break down protein food such as meat, eggs, etc. This is accomplished in an alkaline, or feebly acid medium, and completes the work of stomach digestion.

Another pancreatic enzyme, amylase, converts starchy food to simple forms and acts much as does the ptyalin in the salivary secretion. Finally the pancreas furnishes an enzyme—which digests fats—lipase. This is the only place in the digestive system where fats are digested.

The simultaneous action of all these enzymes—converting every kind of food into forms that the body can use—should convince anyone of the nonsense on which one of the present popular dietary fads is based, the idea that we should not eat protein and starchy food at the same time.

Considering the central importance of the role of the pancreas in digestion, it is well that it is subject to few diseases and those very rare. It is true that acute and chronic pancreatitis occur, but I have passed over 30 years in the practice of medicine without seeing more than half a dozen examples of both put together.

The other large gland which empties a secretion (bile) into the duodenum at this point—the liver—is not primarily a digestive gland. But the bile does help the pancreatic secretion in digesting fats. Much of the pleasure and desire for food which we get comes from this smooth digestion of fats. An eminent surgeon told me that after he had a gall-bladder operation, for a while no bile escaped into his intestine. He was miserably and miserably. And he vividly described the surge of joy that came over him when the function was re-established, and bile once more poured forth to join the pancreas.

EDITOR'S NOTE: Seven pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope stamped with a recent stamp, to Dr. Logan Clendening, in care of this paper. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Painful Hygiene" and "The Care of the Hair and Skin."

Problems of Correct Taste

By Emily Post

DEAR MRS. POST: Is it mandatory that the person making an introduction rise?

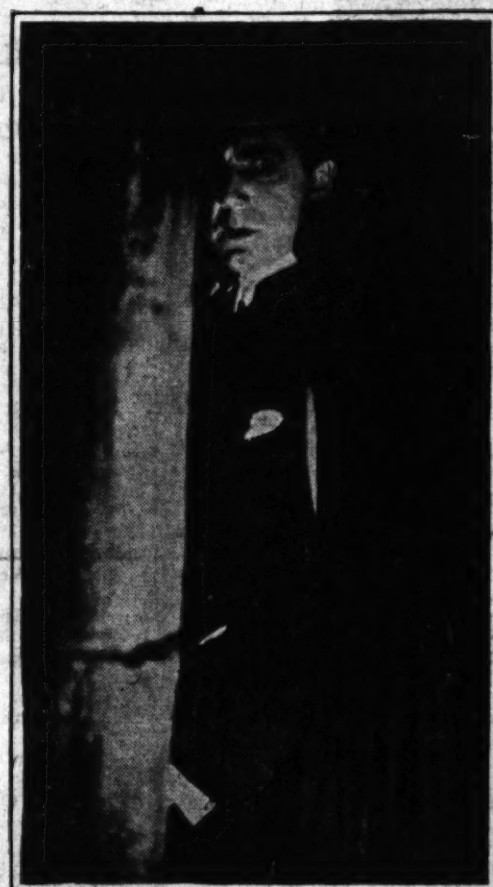

Answer: No; not necessarily. If you are the hostess, and have risen to greet a guest, then you would introduce her—or him—before you sit down. If you yourself are a guest, you do not rise when the others enter the room, or when you introduce one to another. For that matter, you might all be seated at the time of the introduction, and therefore remain seated.

Dear Mrs. Post: I am giving a luncheon at a club for a bride-to-be and would like to know about several things concerning the preparations. I am one of the attendants. The bride is having six of us as bridesmaids and a flower girl, who is a young child. Am I supposed to ask all the attendants—even the flower girl? And what about the mothers? And will it be proper for me to include some of my own friends who are not especially near to the guest of honor?

Answer: You must, of course, invite the other bridesmaids. But it is not necessary to include any one else—not even the flower girl. In addition to the bridesmaids (and the bride) you may ask as many of your own friends as you choose.

Dear Mrs. Post: In writing thank you notes to relatives of my fiancé as yet unknown to me, should I begin the messages with "Dear Aunt Mary" or "Dear Mrs. Smith?"

Answer: It would depend somewhat upon their personality and

GIVING THE EYE IS BELA LUGOSI, IN THE REVISED "DRACULA," AT THE ST. LOUIS.

upon the feeling of nearness that your fiancé's affection for them has brought to you. Perhaps you might begin the letter, "John's Dear Aunt Mary" or "Dear Aunt-Mary-Soon-to-be," or something like that. But unless they have been brought very close to you personally, you would write, "Dear Mrs. Smith" until after you are married.

TODAY'S

WELL, I'LL TELL Y

I ALWAYS blush every time I think laundries and say, "Mellcan man turns out here, I've run into men of Arabs and I find that most of 'em talk When my plane stopped in Arizona walk up to an Indian native who was blanketed and the dude says, "White man The Indian looked at the fellows up Indian and hollered, "Hey, Chief, com -he's a riot."

IF YOU ASK My OPINION

By MARTHA CARR

Dear Mrs. Carr:

Will you please answer two problems for me?

1. Can or cannot a white silk net formal be worn at any season, especially the Velled Prophet's ball? I have one which I bought because I have heard that they could be worn any time. Mine is not very expensive and I should, of course, expect to wear a very warm wrap with it in colder seasons.

2. In a crowded motor car where "doubling up" is necessary, is it considered proper for a young lady to sit in her escort's lap in preference to that of another girl? One sees it done everywhere every night; yet my mother and some other older persons are shocked. Please, Mrs. Carr, tell me what you think about this. I have to go against my mother's wishes or be thought of as a cad.

JUST IGNORANT.

This happens to be a season when a net frock, especially the full skirt 1890 effect, was never more charming or more in the mode. But the skirt, if it is not full, should have some widths added. And so many of these evening gowns are studded with sequins, crystals or rhinestones, you would make your frock much smarter if you would add a bodice trimming of one of these. If you do not care for this, make a corsage finish from shoulder to shoulder in the front of flat velvet flowers. Either one of those will give the gown this winter's touch and can be effected without too much expense.

2. The circumstances in the case, whether or not your crowded car is filled with old friends of your social life in whom you can be sure of not being misunderstood—or whether the girl's frocks might be missed seriously by doubling up—should govern the matter. I think you should regard the matter from the standpoint of taste; it certainly is not good taste to exhibit such familiarity and absence of good bringing up. Whether the others think you are a "cad" or not, is a silly guide.

Dear Mrs. Carr:

I WANT TO THANK YOU for the clothing you got for my mother who asked for some for my brothers. If it had not been for you I guess my brothers would have had to go in rags. My mother wrote me (I am in the CCC in Iowa, because my father is out of work and my family needed it) and told me what you did for her, so I thought I should write and thank you also. I want to thank the people who gave the clothing for my mother and brothers. Respectfully,

OSCAR S.

Dear Mrs. Carr:

I AM BEGINNING to think that it is useless to explain matters to certain young men. His lack of faith and misjudging of my actions have convinced me that he prefers to misunderstand. Friendship or affection of any kind has no depth without faith. Evidently I trusted too much in his ability to understand; to be able to see beneath the surface. This seems a too rare gift of human nature.

It is too bad, Mrs. Carr, that one troubled with a form of reserve, or what might be better termed temperamental timidity, is often accused of having a supercilious manner.

If I am not mistaken this may answer the letter signed "E. G." though I am not absolutely sure.

DEFINITE ONE.

Dear Mrs. Carr:

PLEASE PRINT in your column a prescription for the removal of warts. Thank you.

A READER.

I believe it best not to use this again in the column. Send me self-addressed, stamped envelope and I will mail it to you.

TODAY'S PATTERN

Panel Dress

YOUR "joy forever"—that's what this wonderful new basic pattern can be, for you can use any of its five beguiling versions for an all-purpose "accessory" dress! It's an Anne Adams style to put you at your best before most critical eyes. The full-length panel gives "dramatic detail" to the bodice, and a flare to the skirt—the high neck is a formula for chic! Plan to sew at least two ensembles—one in sheer wool with a long-sleeved bolero. If you make a second version short-sleeved, and in a harmonizing synthetic or silk, you can change the bolero about—and "fool your public" as to the size of your wardrobe!

Pattern 4954 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16, entire ensemble, takes 3 1/2 yards 54-inch fabric.

Send 15 cents in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly size, name, address and style number. Success to your autumn sewing! Order your copy of the New Anne Adams Pattern Book today, and choose from the smartest of fall fashions. You'll see pictured the very clothes you need. Lovely street, afternoon and party fashions! Styles for the girl away at school, the business woman, the matron who longs to be slim! Sportswear "hits." Charming house-dresses and youngsters' frocks! Fine lingerie! Gift ideas! News about accessories! All patterns so simple to make at home! Book, 15 cents; pattern, 15 cents; 25 cents for both when ordered together.

Send your order to St. Louis Post-Dispatch, Pattern Department, 243 West Seventeenth street, New York, N. Y.

WELL, I'LL TELL YOU—By Bob Burns

ALWAYS blush every time I think of the way I use to go into Chinese laundries and say, "Melican man want wash." Since being in pictures out here, I've run into men of all nationalities from Chinese to Arabs and I find that most of 'em talk better English than I do. When my plane stopped in Arizona not long ago, I saw a city dude walk up to an Indian native who was all decked out in feathers and a blanket and the dude says, "White man, heap big friend Indian. Ugh!" The Indian looked at the fella up and down, then turned to another Indian and hollered, "Hey, Chief, come here and get a load of this guy—he's a riot."

ST. LOUIS POST-DISPATCH

Bright Days For Autumn

By Walter J. Moxom
Of the U. S. Weather Bureau

OCTOBER, in St. Louis, is the ideal all-around month of the year. If only the general character of the month, as shown by the normals of temperature, precipitation, wind, clouds, and sunshine, is considered we find a pleasant picture, indeed. This month comes in the middle of the autumn season, and maximum temperatures range from 74 degrees at the beginning to 61 degrees at the end, averaging 63 degrees on the whole. Minimum temperatures will average 46 degrees on the first and 44 degrees on the last day; the general average being 50 degrees.

But even October can show a variety of moods. In its history can be found some rather warm days and some really cold ones, periods of drought and also wet spells, many hours of bright sunshine and, very rarely, stretches of gloomy weather. In 1870 more than half of the first 15 days had maximum temperatures in the high 30s; in 1899 readings of 90 degrees were recorded as late as the thirteenth and fourteenth, and in 1897 the first five days had maxima around 90 degrees. On the other hand, some cool spells have been experienced, with minimum temperatures in the 20s for several days in 1872, 1917 and 1925. We find, too, the rainy Octobers of 1847, with 6.74 inches (greatest amount of record for this month); 1886, with 7.71 inches; 1888, 7.81 inches; 1914, 4.88 inches; and 1919, with 8.53 inches.

Perhaps October, 1925, enjoys the reputation of being the most unpleasant of record. It was cold, raw, wet and gloomy. No records were broken, except the one for minimum temperature, the thermometer on the morning of the 30th showing a reading of 21 degrees.

The warmest October, 1897, averaged 68.3 degrees, or 7.5 degrees above normal, while the coolest, in 1882, averaged only 47.1 degrees, or 11.7 degrees below normal. The highest temperature ever recorded in this month was 91 degrees in 1897, and the lowest, 21 degrees (as mentioned above), was in 1925. Past records show that October will average about one year in 10 with maximum temperature of 90 degrees or above, and about seven in 10 with minimum temperature of 32 degrees or below.

NORMAL precipitation for the month is 2.72 inches. Monthly amounts have ranged from .874 in 1847 to as little as .21 inch in 1908, and totals of 5 inches (almost twice the normal) have occurred on 11 occasions. Snow very rarely falls in October, only 15 months of the 54 years of record showing any snow. The greatest depth was .3 inch in 1913.

The average number of clear days for October is 15 (greater than any other month), partly cloudy nine, and cloudy only seven. Measurable rainfall occurs on eight days; this is less than any other month.

Killing frost, as a rule, comes near the end of October, the average date being Oct. 29 for St. Louis. In the surrounding country the date is four or five days earlier, due to greater exposure. The earliest killing frost of record occurred on Sept. 30, 1899, but a good number of years do not show any damaging frosts until November.

The prevailing winds for October come from the south and the average velocity is 10.4 miles an hour. The highest velocity ever recorded was 63 miles an hour, in 1918, but no damage was reported.

The river usually does not get very high in October, the highest stage of record being 28.5 feet in 1928 (5 feet below flood stage).

During the last 77 years there were only 13 Octobers in which the river at St. Louis reached a stage of 15 feet or higher, and only 37 when it reached or exceeded 10 feet. It will be recalled that the great lower Mississippi Valley flood of the spring of 1927 had its beginning in the fall and early winter months of 1926.

It was in October, 1926, that Beardstown, Ill., on the Illinois River, an important tributary of the Mississippi, had its greatest flood of record, and the river remained at high stages throughout the fall, winter and spring.

1927 had its beginning in the fall and early winter months of 1926. It was in October, 1926, that Beardstown, Ill., on the Illinois River, an important tributary of the Mississippi, had its greatest flood of record, and the river remained at high stages throughout the fall, winter and spring.

The Post-Dispatch Star Map should be held overhead with the letters marking the four directions.

Moon Moves in Front of Stars Twice During Month

By Jessica Young Stephens of Washington University

VENUS, Jupiter, Saturn and the moon are the most interesting celestial objects of the month. Venus comes closer to the earth during the month and attains its greatest brilliancy as an "evening star." Yellow Jupiter is very bright and prominent throughout the night. It is in Capricornus. Ringed Saturn is in Pisces and follows across the sky to the northeast of Jupiter.

The moon occults (moves in front of) two third-magnitude stars, one on Oct. 12 and the other on Oct. 20. Since the stars occulted are quite bright, both occultations can be observed with opera or field glasses. (See calendar for details.)

Mercury is too close to the sun to be conspicuous. It is a "morning star" until Oct. 19, and after that becomes an "evening star."

Oct. 1, 5:45 a. m.—First quarter moon.
Oct. 5, 4:32 a. m.—The moon passes seven degrees north of Jupiter.
Oct. 8.—Saturn comes into opposition to the sun and is highest in the sky at midnight.

Oct. 9, 3:37 a. m.—Full moon; the "hunter's moon." This full moon, like the harvest moon, rises at about sunset and sets at sunrise for several nights in succession, so that we have moonlight all night long. This moon received its name from the fact that it was considered an aid to the hunter.

Oct. 9, 6:05 a. m.—The moon passes 6 degrees north of Saturn. Just before sunrise they are quite close together.
Oct. 10.—Mercury passes behind the sun and is until November.

The prevailing winds for October come from the south and the average velocity is 10.4 miles an hour. The highest velocity ever recorded was 63 miles an hour, in 1918, but no damage was reported.

The river usually does not get very high in October, the highest stage of record being 28.5 feet in 1928 (5 feet below flood stage).

1927 had its beginning in the fall and early winter months of 1926. It was in October, 1926, that Beardstown, Ill., on the Illinois River, an important tributary of the Mississippi, had its greatest flood of record, and the river remained at high stages throughout the fall, winter and spring.

comes an "evening star." Oct. 12.—Moon occults (cuts off the light of) the star Epsilon Tauri. At 9:55 p. m. the star disappears behind the moon at a point on the moon 40 degrees east of south and at 10:31 p. m. it reappears at a point 18 degrees west of south.

Opera or field glasses are needed for observing the occultation.

Oct. 15.—Venus at its greatest brilliancy, and a very pretty sight when viewed with opera or field glasses. It is crescent in shape.

Oct. 16, 2:24 a. m.—Last quarter moon.
Oct. 18-20.—Meteors, the Orionids, are seen shooting gently from the constellation Orion in the east.

Oct. 19, 8 a. m.—Jupiter stops its westward motion among the stars and starts back eastward.
Oct. 22, 5:43 a. m.—New moon.
Oct. 25, 5:47 p. m.—The moon passes 7 1/2 degrees north of Venus.

Oct. 30.—Venus starts to move eastward among the stars.
Oct. 30.—The moon occults the star Beta Capricorni. At 8:39 p. m. the star disappears behind the moon at a point on the moon 18 degrees east of north and at 8:33 p. m. it reappears at a point 63 degrees west of north. The disappearance is seen better than the reappearance because the star disappears on the dark side of the moon and reappears on the bright side. The star flashes out very suddenly because the moon has no atmosphere.

Oct. 31, 1:45 a. m.—First quarter moon.

Fall Cuttings and Layerings

By Supt. G. H. Pring
Of Shaw's Garden, President St. Louis Horticultural Society.

UNTIL last fall, we were inclined to describe October as the most beautiful month of the year, in this section of the country. This year we still expect a fairly good show in the garden, but last year October was a decided disappointment. With such an advanced season as we have had this year, many things normally expected for October are already blooming themselves out, so instead of going around overreaching by the beauty of nature, we expect many amateurs to get more work done instead.

One of the most important jobs for October is the starting of new plants by cuttings, and layerings. Plants like dianthus, beatrix, which root readily at the stem nodes, may be pegged down and covered with a little soil. They will take root easily, and you will have a host of new plants around the parent next year. Chrysanthemums always send up a large number of small offsets at the base. It is on these young clumps that your next year's plant depends for existence, since the blooming stock of this season dies back completely. If you want to assure the life of these young plants, it is well to remove them from the parent stock this month, setting them out in the cold frame, or planting them deeply in the garden border, where they can be mulched with leaves when the ground freezes. The reason it is advisable to take them up and reset them is that they are usually so shallowly rooted that the first spell of freezing and thawing pushes them out of the ground and kills them. So if you have any favorites which you are particularly anxious to keep, lift out a few of the young cuttings, and give them the additional protection of deeper planting.

English ivy has a bad habit of freezing out in this locality, but it has the nice habit of rooting readily from cuttings. These may be made by layering the plants, and covering the stem with a little soil. Each node will send out roots and form a new plant, and if protected in a cold frame will give you enough English ivy to more than replace any you have lost.

Incidentally, ivy makes a very beautiful edging for the shady foundation planting on the north side of a house or garage... and one of the handsomest ground covers available.

Rule on Trump

Suit Selection

Seven Trumps Give Too Narrow Superiority for High Contract.

By Ely Culbertson

"DEAR Mr. Culbertson: In a recent social game I had the opportunity to try out one of the expert rules that I have read in your column. It worked beautifully. Now I hope that you will tell me that it was the wrong application of the rule. I was the dealer, South, when the following hand occurred:

♠ KQ7654
♥ 983
♦ A4
♣ A107
WEST
♠ 852
♥ K1098
♦ QJ6
♣ Q108
SOUTH

None
♠ A97
♥ A97
♦ A10892
♣ K3

"With North-South vulnerable, the bidding proceeded as follows:

South West North East
